89 Minutes - 28th January 2011

RESOLVED – That the minutes of the meeting held on 28th January 2011 be confirmed as a correct record.

90 Matters Arising from the Minutes

a) West Leeds Visitor Centre – Disabled Access (Minute No. 72(b) refers)

The Area Management Officer indicated that Councillor Coulson had been pursuing this matter, and she understood that Parks and Countryside had given an undertaking that the remaining necessary works would be completed shortly.

b) Wellbeing Budget (Minute No. 76 refers)

The Chair reported that the small Member Working Group, established at the last meeting to consider the funding application from the 'I Love West Leeds' Festival organisers, had met earlier in the week. The Inner West Area Committee, at its meeting held on 16th February 2011, had agreed to grant to the Festival £25,000 in 2011/12, and the recommendation of the Working Group was that the Outer West Area Committee should grant £18,000. This was on the basis that the grant was not dependent on the organisers receiving monies from elsewhere, and that this amount was likely to lead to less workshop-type activity in the Outer West area in the run up to the Festival. The Festival Day in 2011 was likely to be held in Rodley Park, and this was regarded as a good idea.

RESOLVED – That the Committee agrees with the recommendation of the Member Working Group, and a grant of £18,000 be made to the 'I Love West Leeds' Festival in 2011/12.

Further to Minute No. 76, 28th January 2011, the Area Management Officer reported that the ALMO Outer West Area Panel had also agreed to find £1,000 toward the covert crime reduction initiative agreed at the last meeting, and also that the work at Pudsey St Lawrence Cricket Club would be DDA compliant.

c) Delegation of Environmental Services (Minute No. 81 refers)

Further to Minute No. 81, 28th January 2011, the Chair indicated that he had now received a copy of the draft Service Level Agreement, which would be the subject of discussion at the planned Members' Workshop. He was still not entirely happy with the accuracy of the information and maps being supplied regarding supposed existing service levels, but this was being pursued and could be discussed at the Workshop.

94 Area Leader's Report

The Director of Environment and Neighbourhoods submitted a report updating the Committee on progress against the Committee's Area Delivery Plan 2008-11.

- Paragraph 3.12 – Councillor A Blackburn pointed out that no decision had yet been taken regarding possible library closures in the area.
- Paragraph 3.24 - Tyersal Park – Stray horses issue – Councillor R Lewis indicated that it was not possible to utilise S106 monies for fencing improvements at Tyersal Park, and Members agreed that it would be inappropriate and unfortunate if any taxpayers' money had to be spent on this issue, caused entirely by the irresponsible and anti-social activities of horse owners. Impounding the horses and charging the owners was regarded as the best solution.

RESOLVED – That the report be noted.

95 Forward Plan - July 2011 Meeting

RESOLVED – That the report be noted.

97 Community Safety - Update Report

Inspector Richard Cawkwell and Gill Hunter, Divisional Community Safety Co-ordinator, presented a report updating the Committee regarding the latest crime statistics and community safety initiatives in the Committee's area, and responded to Members' queries.

RESOLVED – That the report be noted.

98 Dog Control Orders - Phase 2

The Director of Environment and Neighbourhoods submitted a report regarding public consultation prior to the proposed introduction of Phase 2 of the Dog Control Orders.

Phase 1 had introduced limitations to the number of dogs which an individual could walk. Following representations from professional dog walkers, and further consideration by the Scrutiny Board (Environment and Neighbourhoods), discussions were ongoing regarding this issue, including the possible introduction of a voluntary licensing scheme for dog walkers. In the interim, the current limit of no more than four dogs per walker still applied, with officer discretion to allow up to six dogs, provided that they were being walked responsibly.

Phase 2 dealt with the exclusion of dogs from prescribed areas e.g. sports pitches and children's play areas, and dogs requiring to be kept on leads whenever owners were so requested by an authorised officer e.g. when being walked on a footpath adjacent to a road or in a cemetery.

In attendance at the meeting, and responding to Members' queries and comments, was Stacey Campbell, Environmental Services. In brief summary, the main points discussed were :-

- The aim of Phase 2 was to encourage more responsible dog ownership, to ban dogs from prescribed areas (which would become known to the public and to a large degree self-enforcing) and to encourage dog owners to clean up after their dogs. There was also a road safety aspect to the dogs on leads on footpaths proposal. Consultation would take place over the summer, and would involve Area Committees, professional dog walkers and canine organisations and the general public. Reports would then be submitted to the Scrutiny Board (Environment and Neighbourhoods) and the Executive Board in the autumn, with a view to the Orders coming into operation early in 2012. Members' views were sought on the proposals, particularly in relation to any areas where it was regarded that dog walking should perhaps be banned;
- Victoria Park, Calverley, was suggested as an area where dogs should be kept on a lead. Members also regarded it as important that dog walkers were made aware of where they could walk their dogs, as well as where restrictions would apply, and it was suggested that the possible categorisation of parks might help in this respect.
- It was noted that the Chair had already been designated as the Committee's 'Environmental Champion'.

RESOLVED – That, subject to the above comments, the report be received and noted.

99 Youth Service - Update Report

The Director of Children's Services submitted a report updating the Committee on youth service provision in its area, including the use of the mobile unit.

John Paxton, Head of Integrated Youth Support Service, attended the meeting and responded to Members' queries and comments. In brief summary, the main points of discussion were:-

- The service had been successful in securing monies from outside the Council to enable it to purchase outright the mobile bus facility.
- The driver insurance difficulties affecting volunteer drivers was being pursued via the Council's corporate insurers.
- The need for improved communication with Local Members had been accepted by the service.
- The need for collaborative working between agencies and the voluntary sector had also been recognised.

RESOLVED – That the report be received and noted.
