Following the most recent Office of National Statistics (ONS) household projections for Leeds, this Council believes that the case for reducing Leeds' 70,000 housing target is now even stronger.

This Council therefore instructs officers from the planning department to begin work on reviewing the proposed housing number for Leeds immediately.

This Council notes the recent success achieved by campaigners opposing the Kirklees Knoll planning application in Farsley. Council welcomes the Government's decision to refuse this application as a clear sign that Greenbelt or Greenfield locations should only be proposed when there are no other options available.

This Council is proud to put children, young people and families at the heart of our growth strategy for the city.

Council commends the progress made for the most vulnerable children in Leeds through the child friendly city ambition, in spite of the damaging policies of the coalition Government and exceptionally challenging financial context. Progress evidenced by: a safe, appropriate reduction in the number of children and young people in care; a significant rise in young people in education employment and training; and our best ever school attendance figures.

Council recognises the unfair disproportionate burden young people have had to bear from the recent financial crisis.

Council calls on the next Government to make a genuine commitment to improving outcomes for all children and young people and put in place meaningful policies to address the poverty, debt, unemployment and mental health challenges that have blighted too many young people growing up in the UK over the past five years.

Council calls on the new Government to: invest properly in early intervention, further and higher education, training, employment and accessible transport for young people; demonstrate compassion for the pressures and problems of growing up in today's society; and devolve more freedom to local services so that those working directly with our young people have the powers and permissions they need to make a difference.

Council believes that these measures will start to undo the damage that has been caused over the past five years and ensure that future generations do not suffer from the same massive burden of failing Government austerity measures with regard to young people.

This council believes that it is best able to both understand and set local health priorities and calls on government to devolve the health and social care funding to Leeds City Region.
