12a Number of family placement foster carers	108	7	7	↔	30 June 2013	16	11	6

### Commentary

There was a one per cent rise in the number of children and young people looked after between June 2012 and June 2013 (385 to 389) who come from the Inner North East area committee area. This represents 29 per cent of the cohort, which is the highest share of all area committees, and is counter to the citywide reduction of five per cent across the same period. The number of children and young people entering care between April and June 2013 was 32, 11 higher (52 per cent) than the same three-month period a year ago.

There are 16 more children and young people subject to a child protection plan (181 vs 165; a 10 per cent rise) in June 2013 than June 2012. 17 per cent more CAFs (55 vs 47) were initiated in the first three months of 2012/13 than the same period a year ago. More CAFs have been initiated in the Inner East area committee area than any other area committee in the first three months of 2012/13.

Nine per cent fewer requests for service (1,701 vs 1,872), and 12 per cent fewer referrals (635 vs 721) were received from the Inner East area committee area between April and June 2013 when compared to April to June 2012. These reductions are significantly higher than the citywide reductions of four (requests for service), and three per cent (referrals).

<p>Commentary</p> <p>There has been no overall change in the number of primary schools in the Inner East area committee area rated good or better by Ofsted (16, or 73 per cent). Six remain rated as satisfactory/requires improvement. One secondary school in the area (E-ACT Leeds East Academy) is now rated as inadequate; only one of the four is rated as good.</p> <p>The one children's home in the Inner East area committee area remains 'adequate'.</p>
