Appendix number:		

Summary of main issues

1. This report summarises performance at area committee level, with a broader acknowledgement of city level performance.
2. The rising child population in Leeds is a key challenge with regards places at schools. This is already a known issue in primary schools, and is becoming increasingly evident in secondary schools.
3. Twenty two per cent more children and young people from the Outer North East area committee area are looked after in June 2013 than in June 2012. A third more referrals were received from the Outer North East area committee area in the first three months of 2012/13 than the first three months of 2011/12. Attendance, while remaining better than historic levels, has declined in 2012/13 compared to 2011/12. This is due to the exceptional low levels of sickness seen both in Leeds and nationally in 2011/12. Eighty-two per cent of primary schools and sixth per cent of secondary schools are now rated as good or better by Ofsted.

Recommendations

4. Area committees are requested to note the content of this report.
5. Area committees are asked for feedback on the report.

1 Purpose of this report

- 1.1 Children's Services directorate provides six-monthly area committee reports, in March and September. These reports inform members about local outcomes for children and young people, and support the involvement of area committees in improving these outcomes by providing an update on the work of the directorate and of the Leeds Children's Trust, including local children's cluster arrangements. The progress made against local and national agendas is also highlighted.
- 1.2 The report summarises performance at area committee level, with a broader acknowledgement of city level performance. Key issues for Children's Services are highlighted, including Ofsted inspection, basic need, and child friendly city.

2 Background information

- 2.3 As part of the ambition for Leeds to become the best city in the UK we are aiming to become the best city to grow up in - a child friendly city. This ambition will be realised by improving outcomes against the three 'obsessions', five outcomes, and 12 priorities in the children and young people's plan, which is overseen by the multi-agency Children's Trust Board and implemented locally by the 25 local cluster partnerships of schools and other key local services.
- 2.4 To improve outcomes for all children and young people, but especially the most vulnerable, Leeds has a clear strategy for ongoing service improvement. This is centred on providing better early intervention, using initiatives such as: Families First (the Leeds approach to the national troubled families initiative) 'Early Start' - which integrates local early years and health services; and restorative practices such as family group conferencing, to empower families with the support, skills, tools and confidence to address the challenges they face. By doing this successfully we can reduce the need for more significant service intervention, reducing the social and financial cost of children being taken into care.
- 2.5 Overall, progress against this strategy is continuing positively. The number of children and young people who are looked after in Leeds is safely and appropriately reducing. This has already delivered significant savings when mapped against projected numbers had they continued to rise at their past rate. Feedback from the inspection activity that has taken place so far this year reflects positively on Leeds' progress, specifically a thematic inspection of the Independent Reviewing Officer Service, and a pilot visit to examine elements of the Ofsted inspection of services for looked after children and care leavers. Ofsted has not inspected safeguarding arrangements in Leeds since 2011, indicating that Leeds is regarded much more positively than in the past. A growing number of requests from other authorities and partners to visit and view our services suggest that Leeds is gaining a national reputation for innovation and improvement.
- 2.6 However, preparation for a forthcoming inspection remains a high priority. Ofsted is introducing a new framework, *the inspection of services for children in need of help and protection, children looked after and care leavers* in November 2013. This significantly raises standards and expectations of local authorities, in conjunction with the earlier change in Ofsted judgements from 'adequate' to 'requires improvement'. Preparations aim to ensure that Leeds demonstrates the

progress that has been made, and the continuing improvement journey that Children's Services are on. Ofsted has also introduced a targeted inspection of local authority school improvement services. Again, thorough preparations are underway for this.

- 2.7 Strong partnerships continue to be the key to effective strategic and service delivery. On a citywide level, this is being developed positively through the ongoing development of the child friendly Leeds initiative. A number of significant businesses and organisations are now actively involved in supporting child friendly initiatives; this includes BT, Marks and Spencer, and First Direct. In total, 131 organisations have made pledges of support. This is complemented by the 146 child friendly Leeds ambassadors, including the Olympian Nicola Adams, and Leeds Rhinos player Danny McGuire. A strong partnership with the BBC has been established, which led to a successful CBBC Live in Leeds event at the start of the summer holiday. This attracted over 38,000 visitors to the city centre and provided a significant boost to the profile of the city.
- 2.8 At a local level, this partnership approach is developing through the continuing evolution of the cluster model. The recent review of area working identified the need to more clearly understand the relative roles and responsibilities of area committees and other partnership bodies, including clusters used in Children's Services. The relationship between area committees and clusters is central to this. Elected member representatives to Children's Services clusters are to be appointed by area committees, formalising the link between the two.
- 2.9 Leeds has also reached the final stages in our 'integration pioneer' bid, which, if successful, would see the city become a national pioneer in developing the way we integrate health and social care services. If successful, through our children and young people's plan, and our health and wellbeing strategy, Leeds will be better placed to make joined-up decisions about spending money and planning services, and increase the pace of implementation for the early start initiative, including services for children with complex needs.
- 2.10 Partnership with schools will continue to be crucial as we move into a new academic year. Drawing on the closer working that has been fostered through the strong relationship with the seconded head teachers, Leeds will continue to put schools at the heart of work to improve outcomes. This will be particularly critical as we move forward with the basic need agenda. The rising child population in Leeds is a key challenge in ensuring there are sufficient places at schools. This is already a known issue in primary schools, and is becoming increasingly evident in secondary schools. Leeds has been awarded a £13.8m share of £820m made available by the DfE for new school places, as part of the targeted basic need programme. The places must be delivered by September 2015. Further information will be brought to area committees as appropriate.

3 Main issues

Performance update

- 3.1 Appendix one (page nine) provides data and commentary on current performance for the area committee, which is summarised below. Data from the same period 12 months ago is used where possible for direction of travel/progress analysis. Figures may be rounded up/down in the following commentary.

3.1 Further, more detailed information is available via the following websites:

- The cluster profile (<https://www.leedsinitiative.org/ClusterDataProfile.aspx>).
- The West Yorkshire observatory (<http://www.westyorkshireobservatory.org/>).
- The Department for Education's 'in your area' website (<http://www.education.gov.uk/cgi-bin/inyourarea/areasearch.pl?search=Leeds>).

Outer North East area committee commentary

Children and young people are safe from harm - obsession: number of children in care

3.2 The number of children looked after at the end of June 2013 who come from the Outer North East area committee area is 22, four higher (22 per cent higher) than the same point 12 months ago. This is counter to the five per cent reduction in the citywide number. There are fewer children looked after who come from the Outer North East area committee area than any other area committee area, less than two per cent of the cohort. The number of children and young people entering care between April and June is fewer than five.

3.3 There are three more children and young people subject to a child protection plan (15; a 25 per cent rise) at the end of June 2013 than the same period 12 months ago. The Outer North East area committee area has fewer children subject to a child protection plan than any other cluster, less than two per cent of the cohort.

3.4 42 per cent more CAFs (17 in 2013; 12 in 2012) have been initiated in the Outer North East area committee in the three-month period between April and June this year when compared to last year.

3.5 The number of requests for service (347 in 2012/13; 259 in 2011/12), and referrals (83 in 2012/13; 62 in 2011/12), from the Outer North East area committee area between April and June have both risen by a third when compared to last year. This is counter to the more modest reductions seen in the citywide requests for service and referrals (four, and three per cent respectively). Fewer requests for service and referrals are received from the Outer North East area committee area than any other area committee area. The conversion rate (percentage of requests for service that become a referral) has remained stable at 23.9 per cent (April to June 2012 and April to June 2013). The citywide trend in the last 12 months has been for the conversion rate to fall, which is consistent with the improvements made to our front door practice on how child protection inquiries are best handled.

Children and young people do well at all levels of learning and have the skills for life - obsession: young people in education employment or training
- obsession: attendance

3.6 The percentage of 'not known' young people in the Outer North East area committee area has reduced from four per cent in June 2012 to three per cent in June 2013 (a 29 per cent reduction). The percentage of young people identified as NEET has risen from two per cent in June 2012 to three per cent in June 2013.

3.7 There is a correlation between a reduction in not known rates, and a rise in NEET levels; the status of more young people is known after sweeps and telephone

calls. Targeted support offers mean that the NEET cohort is better informed and supported in trying to find/access education, employment, or training.

- 3.8 Any 16 and 17 year old not in education, training or employment in the EPOS area will get access to Youth Contract Interventions; this involves being assigned a key worker, and having access to employability skills training, visits to employers, a business or peer mentor, and work experience. Young people who are NEET can also access a Youth Contract local innovation funded outward bound project through Herd Farm, which focuses on confidence building and aspiration raising.
- 3.9 All 18-19 year olds get assigned a personal adviser through the Connexions Targeted Information, Advice and Guidance contract.
- 3.10 Paragraph 3.23 outlines that 2012/13 was the second best year for attendance levels in the city but slightly down on 2011/12 largely due to autumn term sickness. Primary school attendance declined by just over half a percentage point to 96.0 per cent in the Outer North East area committee area (the second highest attendance rate of all area committees), reflecting the citywide reduction when comparing the 2012/13 figures to the 2011/12 figures. Secondary school attendance remained steady at 93.9 per cent.
- 3.11 There was a sharp rise in the number of primary school pupils persistently absent, from 57 in 2011/12 to 87 in 2012/13 (30 more; a 52.5 per cent rise). Almost 22 per cent fewer secondary school pupils (54) were persistently absent in 2012/13 (195) compared to 2011/12 (249); this is the second highest reduction across all area committees.

Children and young people choose healthy lifestyles, and voice and influence

- 3.12 The number of children and young people committing an offence reduced from 28 in 2011-12 to 18 in 2012-13, a 36 per cent drop. This is better than the citywide reduction of 30 per cent, and is the third highest percentage reduction of all area committees.

Local Ofsted inspections

- 3.13 One fewer primary school in the Outer North East area is rated as requires improvement, with one additional school rated as good. Ninety-one per cent are now rated as good or better (up from 87 per cent in December). There has been no change in the ratings of the three secondary schools in the area; 67 per cent remain rated good or better.
- 3.14 Both children's homes in the Outer North East area committee area are now rated good; the home that was adequate at the end of December has been inspected and seen its rating rise.

City commentary

- 3.15 The following paragraphs summarise partnership progress against the children and young people's plan indicators, including the three obsessions. Appendix two (page 13) contains 'obsession' indicator graphs and charts by area committee.

Children and young people are safe from harm

- 3.16 Children looked after numbers (1,358) are at their lowest point since November 2009, with June's figure five per cent lower than the same point 12 months ago. More children and young people entered care between April 2013 and June 2013 than the same period 12 months ago, but the numbers leaving continue to rise.
- 3.17 The number of children and young people subject to a child protection plan is virtually unchanged from a year ago at 897 (894 in June 2012). It is, however, six per cent lower than the December 2012 figure of 956.
- 3.18 Four per cent (311) fewer requests for service (contact received by the Duty and Advice Team), and three per cent (89) fewer referrals (those requests for service that were deemed to require Children's Social Work Service involvement), were received between April and June 2013 compared to the same period a year ago.
- 3.19 Twenty-seven per cent more CAFs (65) were initiated in the first three months of 2012/13 compared to the same period a year ago; this is equivalent to 22 additional CAFs per month.
- 3.20 There are five per cent more Council-employed foster carers (an increase of 28, to 578) in June 2013 than in December 2012. This should rise further in the coming months, as fourteen independent fostering agency foster carers may become Council-employed. The number of family placement foster carers is four higher in June 2013 (108) than December 2012 (104).

Children and young people do well at all levels of learning and have the skills for life

- 3.21 Across Leeds primary schools, attendance declined by half a percentage point to 95.3 per cent between half-terms one to four in 2011/12 and half-terms one to four in 2012/13. There were 207 more primary age pupils being persistently absent in the first two terms of 2012/13 compared to same period in 2011/12.
- 3.22 Attendance at Leeds secondary schools was 93.8% in the first two terms of 2011/12, and this has fallen only very slightly to 93.7% in the first two terms of 2012/13. Sixteen fewer secondary school age pupils were persistently absent in the first two terms of 2012/13.
- 3.23 Although attendance at both phases has declined slightly, the most recent figures are the second best attendance rates ever recorded in Leeds. Much of the difference in attendance rates is accounted for by higher levels of absence due to sickness in the autumn term of 2012/13, compared to the autumn term of the previous year. Rates of absence due to sickness levels were at an exceptionally low level across the country in the autumn term of 2011/12, and attendance in Leeds mirrored this trend. Absence levels in autumn term 2012 remain lower than in autumn term 2010 and previous years.
- 3.24 NEET and 'not known' levels have significantly reduced across the city; NEET sweeps and the use of Welfare Call have contributed to this. Young people identified as NEET are offered targeted support to help them with pathways to EET. The graphs in appendix two show the changes in the last 12 months for each area committee, especially the reduction in the not known cohort.

- 3.25 Complementing the core devolved youth contract support programme in Leeds, local clusters and/or partnerships of clusters are being funded to deliver local innovation projects (eg providing provision of targeted mental health, counselling, and bespoke motivational programmes). The aim is to contribute to the reduction of 16 to 17 year-old NEETs in localities by increasing young people's experience and qualifications, so they have the opportunity to continue in education and successfully find work.

Children and young people choose healthy lifestyles

- 3.26 Survey work and analysis on free school meal data are still underway. An update will be provided to area committees in a later report.

Children and young people are active citizens who feel they have a voice and influence

- 3.27 The number of young people committing an offence between April 2012 and March 2013 was almost a third lower than the same period in 2011/12, reflecting the national trend.

Ofsted inspections

- 3.28 Eighty-three per cent of primary schools (180) are rated as good or better in July 2013, seven percentage points higher (15 more schools) than in December 2012. Four fewer primary schools are rated as outstanding across the same period, and three more primary schools are rated as inadequate.
- 3.29 The percentage of secondary schools rated as good or better has reduced by three percentage points to 58 per cent in July 2013, from 61 per cent in July 2012 (one less school). One more secondary school is rated as inadequate.
- 3.30 There have been no inspections of children's centres in Leeds since the last update report. A new inspection framework begins in September; an update to area committees will be provided later.
- 3.31 73 per cent (eight) of the eleven directly managed local authority children's homes in Leeds are currently rated good or outstanding, a significant improvement from 36 per cent (four) that were good or outstanding at 31 December 2012. The other three children's homes are currently rated adequate/satisfactory.

4 Corporate considerations

4.1 Consultation and engagement

- 4.1.1 This report is for area committee meetings, which involve a wide range of partners and stakeholders. Consultation and engagement is integral to the work of Children's Services and the Children's Trust, as evidenced in child friendly city work.

4.2 Equality and diversity/cohesion and integration

- 4.2.1 Equality issues are implicit in the information provided. The differences shown illustrate that there are different levels of need and of outcomes across the city. Additional equality analysis of the information provided is undertaken, and the

detailed information already provided to clusters is powerful intelligence that can be used to help focus priorities and narrow the gap.

4.3 Council policies and city priorities

4.3.1 A significant proportion of the information included in this report relates to the city priorities for children and young people and the outcomes contained in the CYPP.

4.4 Resources and value for money

4.4.1 There are no resource implications in this report.

4.5 Legal implications, access to information, and call-in

4.5.1 This report is not eligible for call in, due to being a Council function.

4.6 Risk management

4.6.1 There are no risk management implications in this report. The priorities reflected in this report are monitored through Leeds City Council performance and, where appropriate, risk management processes.

5 Conclusions

5.1 Not applicable, as this report is information based.

6 Recommendations

6.1 The Outer North East area committee is requested to note the content of this report.

6.2 The Outer North East area committee is asked for feedback on the report.

7 Background documents¹

7.1 There are no background documents to accompany this report.

¹ The background documents listed in this section are available to download from the Council's website, unless they contain confidential or exempt information. The list of background documents does not include published works.

Appendix one: performance data for Outer North East area committee

Autumn 2013 Children's Services performance update

Measure	Leeds	Outer NE	Current data period	Highest	Average	Lowest
1. Number of children and young people 0-19	173,462	12,774	January 2013	24,510	17,289	11,609
2. Percentage of children and young people	n/a	7.4%	January 2013	14.1%	10.0%	6.7%
3. Number of primary schools	218	23	Current	28	22	15
4. Number of secondary schools	36	3	Current	6	4	2
4a. Number of through schools	2	0	Current	2	0	0
5. Number of children's centres	58	3	Current	11	6	3

Commentary

The Outer North East area committee has 7.4 per cent of the city's 0-19 population, (12,774 children and young people). There are 23 primary schools, three secondary schools, and three children's centres located within the area committee boundary.

Keeping children safe from harm	Leeds	Outer NE			Current data period	Highest	Average	Lowest
		Current reporting period	Previous reporting period	Direction of travel				
6. Number of children looked after	1,358	22	18	↑	30 June 2013	389	131	22
7. Number of children entering care	106	↑	Apr-Jun 2013	32	14	5
8. Number of children subject to a child protection plan	897	15	12	↑	30 June 2013	217	88	15
9. Number of CAFs initiated	308	17	12	↑	Apr-Jun 2013	55	30.2	17
10. Number of requests for service	8,695	347	259	↑	Apr-Jun 2013	1,701	794	347
11. Number of requests for service leading to a referral	2,964	83	62	↑	Apr-Jun 2013	635	282	83
12. Number of LCC-employed foster carers	578	23	21	↑	30 June 2013	83	50	23
12a. Number of family placement foster carers	108	7	6	↑	30 June 2013	16	11	6

Commentary

The number of children looked after at the end of June 2013 who come from the Outer North East area committee area is 22, four higher (22 per cent higher) than the same point 12 months ago. This is counter to the five per cent reduction in the citywide number. There are fewer children looked after who come from the Outer North East area committee area than any other area committee area, less than two per cent of the cohort. The number of children and young people entering care between April and June is fewer than five.

There are three more children and young people subject to a child protection plan (15; a 25 per cent rise) at the end of June 2013 than the same period 12 months ago. The Outer North East area committee area has fewer children subject to a child protection plan than any other cluster, less than two per cent of the cohort. 42 per cent more CAFs (17 in 2013; 12 in 2012) have been initiated in the Outer North East area committee in the three-month period between April and June this year when compared to last year.

The number of requests for service (347 in 2012/13; 259 in 2011/12), and referrals (83 in 2012/13; 62 in 2011/12), from the Outer North East area committee area between April and June have both risen by a third when compared to last year. This is counter to the more modest reductions seen in the citywide requests for service and referrals (four, and three per cent respectively). Fewer requests for service and referrals are received from the Outer North East area committee area than any other area committee area.

18a. Percentage of 'not knows'	5.5%	2.9%	4.1%	↓	30 June 2013	14.5%	4.7%	2.2%

Commentary

Primary school attendance declined by just over half a percentage point to 96.0 per cent in the Outer North East area committee area (the second highest attendance rate of all area committees), reflecting the citywide reduction when comparing the 2012/13 figures to the 2011/12 figures. Secondary school attendance remained steady at 93.9 per cent. There was a sharp rise in the number of primary school pupils persistently absent, from 57 in 2011/12 to 87 in 2012/13 (30 more;

a 52.5 per cent rise). Almost 22 per cent fewer secondary school pupils (54) were persistently absent in 2012/13 (195) compared to 2011/12 (249); this is the second highest reduction across all area committees.

The percentage of 'not known' young people in the Outer North East area committee area has reduced from four per cent in June 2012 to three per cent in June 2013 (a 29 per cent reduction). The percentage of young people identified as NEET has risen from two per cent in June 2012 to three per cent in June 2013.

Commentary

One fewer primary school in the Outer North East area is rated as requires improvement, with one additional school rated as good. Ninety-one per cent are now rated as good or better (up from 87 per cent in December). There has been no change in the ratings of the three secondary schools in the area; 67 per cent remain

rated good or better.

Both children's homes in the Outer North East area committee area are now rated good; the home that was adequate at the end of December has been inspected and seen its rating rise.
