

# Appendix E

Premises – Carnegie sports centre, sport and active lifestyles (formerly university sport),  
Headingley campus, Leeds, LS6 3QS

## Objection reasons

- Many of us already experience very loud amplified music from the sports centre
- Currently the university already has a licence to sell alcohol at the Union Bar. There is no need to extend this to a further location 5 minutes walk away.
- Alcohol availability is not a major problem for students in Headingley and the over-availability has already impact on both **safety for local residents and increased attendance in the NHS services in the area.**
- Both increasing the hours and allowing the sale of alcohol will further add to the problems we already endure. The sports centre is the one building closest to our homes and so would have a disproportionate impact on us as close neighbours.
- To extend the hours AND open up a new alcohol licence will **inevitably lead to further noise pollution and aggravate local residents.**
