Report for: Chief Officer of Access and Inclusion

Report to Director of Adult Social Services

Date: July 2014

Subject: REQUEST APPROVAL TO AWARD LOT 2A BEDS AND ACCESSORIES TO SCAN MOBILITY LIMITED AND LOT 2B TO BARTRAM ASSOCIATES LIMITED FOR AIR/DYNAMIC MATTRESSES AND ACCESSORIES, FOLLOWING A PROCUREMENT EXERCISE, FROM CALLING OFF UNDER AN EXISTING FRAMEWORK (FRAMEWORK FOR ASSISTIVE TECHNOLOGY EQUIPMENT)

Are specific electoral Wards affected?	☐ Yes	⊠ No
If relevant, name(s) of Ward(s): All Wards		
Are there implications for equality and diversity and cohesion and integration?	☐ Yes	⊠ No
Is the decision eligible for Call-In?	☐ Yes	⊠ No
Does the report contain confidential or exempt information?		☐ No
If relevant, Access to Information Procedure Rule number: 10.4 (3)		
(-)		
Appendix number: A, B, C		

Summary of main issues

- 1 The Leeds Community Equipment Service operates under a Section 75, Partnership Agreement between Leeds City Council and NHS. Adult Social Care are the lead organisation in the Partnership and deliver the service with Leeds Community Healthcare.
- 2 The service provides a range of equipment to meet daily living and nursing needs for disabled adults, older people and children. Equipment purchased by the Council, including that purchased through the Pooled Fund, is subject to procurement through Leeds City Council's procurement arrangements.
- 3 A Framework for Assistive Technology Equipment for the Leeds Community Equipment Service was awarded in April 2013. A Framework agreement is an agreement with providers which sets out the terms and condition under which specific purchases (call-off) can be made under the term of the agreement.
- 4 The Framework consists of three Lots.
- 5 Lot 1- 121 lines of high volume, generally lower value stock awarded for two years with the option to extend for two further twelve month periods.

- 6 Lot 2 Specialist beds and mattresses. These items were awarded for the first time and for one year with the option to re-evaluate the equipment from the companies placed on the framework annually for three further twelve month periods.
- 7 Lot 3- A framework for the purchase of any required items outside Lot 1 and Lot 2 awarded for two years with the option to extend for two further twelve month periods.
- 8 The re-evaluation (call-off) of the companies on Lot 2 of the framework has now been carried out resulting in contracts being recommended for award.

Recommendations

- 9 The Director of Adult Social Services is requested to approve the award of Lot 2A Beds and Accessories to Scan Mobility Limited and Lot 2B to Bartram Associates Limited for Air/Dynamic mattresses and Accessories, following a procurement exercise, from calling off an existing framework (framework for Assistive Technology equipment). The value of the call-off contract is £145,963 until 31st March 2015.
- 10 Lot 2 A and B to be awarded until 1st April 2015, with the option to then re-evaluate the equipment from the companies listed on the framework for a further 12 months (subject to the council extending the framework under its existing terms and conditions.)
- 11 Implementation discussions will take place with the suppliers once the contract is awarded.
- 12 The proposed timescale for implementation is August 2014
- 13 The Service Manager- Leeds Community Equipment and Tele Care Services will be the officer responsible for the implementation of Lot 2 of the framework.

1 Purpose of this report

1.1 The purpose of this report is to request the approval to award following a procurement exercise for calling off under Lot 2, an existing framework, and seek delegated decision by the Director of Adult Social Services award the of the Supply of Specialist beds and mattresses for Disabled People from the Assistive Technology framework from suppliers listed on Lot 2 to Scan Mobility Limited for Beds and Accessories and to Bartram Associates Limited for Air/Dynamic mattresses and Accessories.

2.0 Background Information

- 2.1 The framework is for the supply of Assistive Technology for Daily Living to Leeds Community Equipment Service. The estimated contract value is approx. £886,000 per year based on 2012/13 expenditure. The framework was awarded in April 2013 in three "Lots". Within the framework Lot 1 and Lot 3 have been awarded for two years with the option to extend for a further two twelve month periods. Lot 2 was be awarded for twelve months with the option to re-evaluate the equipment from the companies listed on the framework on an annual basis for three further twelve month periods (subject to the council extending the entire framework for the remaining 2 x 12 month period.)
- 2.2 NHS and the Local Authority are the commissioning partners in the Leeds Community Equipment Service Partnership Agreement under the Health Act Section 75 flexibilities. This agreement allows NHS organisations and Local Authorities to pool money they intend to spend, in this instance on the purchase of community equipment. Additionally the

- agreement allows one of the agencies to make all purchases from the pool on behalf of both partners. In Leeds the lead agency is the Local Authority.
- 2.3 The estimated annual value for Lot 2 of the contract is approx. £220,000.00. The same quantities purchased from the existing framework have been used as a guideline for call off in this tender process.

3 Main issues

3.1 Contract Background

- 3.1.1 As the lead for the LCES Partnership Agreement the Council is responsible for all equipment purchases from the pooled fund on behalf of the partners. This means that some purchasing of equipment previously bought by the NHS using NHS purchasing arrangements now come under Local Authority procurement rules.
- 3.1.2 A Framework for Assistive Technology Equipment for the Leeds Community Equipment Service was awarded in April 2013. A Framework agreement is an agreement with providers which sets out the terms and condition under which specific purchases (call-off) can be made throughout the term of the agreement
- 3.1.3 The advantage of using a Framework contract is that it reduces the number of procurements, and it standardises the documentation and processes.

3.2 Tender Exercise (CALL-OFF)

- 3.2.1 The call-off (tender) was advertised to the suppliers listed on Lot 2 of the existing framework.
- 3.2.2 TENDER EVALUATION CRITERIA Tender submissions were assessed on the basis of the most economically advantageous tender, using a price quality evaluation. Below are the criteria against which responses will be evaluated.
- The maximum amount of marks available for quality is 500 points/50%.
- The maximum amount of marks available for price is 500 points/50%.
- 3.2.3 Appendix A- provides the evaluation results for Lot 2A Beds and Accessories. CONFIDENTIAL Access to Information Procedure Rule number: 10.4 (3)

Of the six suppliers eligible to submit bids:

- One bidder failed to submit a bid
- · One bidder withdrew from the call off
- One bidder non- compliant (No paper work received.)

Of the Three bids received:

- Two bidders item submitted did not meet the specification
- The remaining bidder submitted a satisfactory bid.

3.2.4 Appendix B – provides the evaluation results for Lot 2B Air/Dynamic Mattresses and Accessories. CONFIDENTIAL- Access to Information Procedure Rule number: 10.4 (3)

Of the six suppliers eligible to submit bids:

- One bidder non- compliant No paper work received.
- Four bidders item submitted did not meet the specification
- The remaining bidder submitted a satisfactory bid.
- 3.3.5 Appendix C Pricing Schedule. CONFIDENTIAL- Access to Information Procedure Rule number: 10.4 (3)
- 3.3.6 Lot 2 to be awarded until 31st March 2015 with the option to re-evaluate the equipment from the companies listed on the framework for a further 12 months.

3.3 Consequences if the proposed action is not approved

- 3.3.1 The service would have to purchase equipment from Lot 2 "off contract". There would be no contract prices which would be very likely to result in higher costs for equipment.
- 3.3.2 The effect higher unit costs on the budget would have a direct impact on customer waiting times for equipment.
- 3.3.4 The aim of the Service to provide the right equipment quickly to enable people to live independent and inclusive lives would be compromised.

3.4 Advertising

3.4.1 The existing framework agreement was advertised in the European Union through the OJEU and the Council's tendering system YORtender. Therefore only the organisations appointed to lot 2 were notified of the call-off opportunity under the agreed conditions of the contract.

3.5 Implementation

- 3.5.1 Implementation discussion will take place with the suppliers once the contract is awarded.
- 3.5.2 The proposed timescale for implementation is August 2014.
- 3.5.3 The Service Manager- Leeds Community Equipment and Tele Care Services will be the officer responsible for the implementation.

4 Corporate Considerations

4.1 Consultation and Engagement

4.1.1 The Procurement process to establish the framework included officers from both Adult Social Care and Leeds Community Healthcare. Officers involved in the process are Occupational Therapist, Tissue Viability Nurses and operational staff from the service. A Service User from the User Involvement Group attends the regular Equipment Review Group which considers the range and quality of products used by the service on a continual basis. A member of the Service User Group was part of the evaluation panel.

4.1.2 The Procurement process for Lot 2 included officers from both Adult Social Care and Leeds Community HealthCare. A service User from the User Involvement group was involved.

4.1 Equality and Diversity / Cohesion and Integration

4.2.1 An Equality Impact Assessment screening tool has been undertaken for the purposes of this recommendation, and has indicated that an EIA does not need to be carried out. There will be no adverse effect on any particular groups of people within the city by the proposal. This is attached at Appendix D

4.3 Council Policies and City Priorities

- 4.3.1 The service contributes to National Indicator 142: the percentage of vulnerable people supported to achieve independent living.
- 4.3.2 The service contributes to the City Priority Plan 2011 to 2015, Best City for health and wellbeing: Supporting more people to live safety in their own homes and give people choice and control over their health and social care services.
- 4.3.3 The service contributes to the Council Business plan 2011 to 2015, Adult Social Care Directorate Priorities and Performance Measures by ensuring more people with poor physical or mental health remain living at home longer.
- 4.3.4 The service supports adults whose circumstances make them vulnerable to live safe and independent lives.
- 4.3.5 The service provides easier access to joined-up health and social care services.

4.4 Resources and Value for Money

- 4.4.1 The purchase of new equipment will be within existing budgets, now in a Section 75 pooled fund arrangements.
- 4.4.2 Using the Assistive Technology Framework has I ensured items of community equipment are purchased at best value rates. The service will be able to purchase equipment in a more timely method and plan the year's expenditure. Officer time will be saved by working to the framework rather than obtaining competitive quotes for individual items and orders.
- 4.4.3 The annual cost of the contract is £1,237 lower than 2013/14 contract prices proving value for money.

4.5 Legal Implications, Access to Information and Call In

- 4.5.1 The Procurement Unit advertised the framework for Assistive Technology in the Official Journal of the European Union to comply with the Procurement Regulations of 2006. The contract was also advertised on the Council's tendering website formerly Supplier Contract Management System. The subsequent call-off under Lot 2 is closed to organisations who have not been appointed to the framework.
- 4.5.2 This is a significant operational decision and not subject to call-in.
- 4.5.3 Contract procedure 3.1.8 requires a delegated decision to be taken for each call off (or linked bundle of call offs) under the framework. The decision taken following this report is the delegated decision to the linked bundle of call offs under LOT2 of the framework contract."

4.6 Risk Management

4.6.1 Without the Framework agreement in place, the service would not be able to meet the demand for Assistive Technology equipment, and would have to rely on buying off contract and recycling used equipment. This would result in a waiting list for equipment and the service not being able to purchase up to date equipment particularly to meet the needs of customers with more individual and complex needs.

5 Conclusions

5.1 Agreeing to the award to Lot 2 of the Framework for Assistive Technology Equipment will enable the Leeds Community Equipment Service to continue to meet the demand for Community Equipment for the people of Leeds.

6 Recommendations

- 6.1 The Director of Adult Social Services is requested to approve the award of Lot 2A Beds and Accessories to Scan Mobility Limited and Lot 2B to Bartram Associates Limited for Air/Dynamic mattresses and Accessories, following a procurement exercise, from calling off an existing framework (framework for Assistive Technology equipment). The value of the call-off contract is £145,963 until 31st March 2015.
- 6.2 Lot 2 to be awarded until 31st March 2015 with the option to re-evaluate the equipment from the companies listed on the framework for a further 12 months.
- 6.3 Implementation discussions will take place with the suppliers once the contract is awarded.
- 6.4 The proposed timescale for implementation is August 2014.
- 6.5 The Service Manager- Leeds Community Equipment and Tele Care Services will be the officer responsible for the implementation of Lot 2 of the framework from the companies already listed in Lot 2.
