Summary of main issues

The Health and Social Care system in Leeds, as nationally, is undergoing enormous changes as organisations face the challenges of financial pressures, increasing demand for services, and the ongoing ambitions to improve outcomes and quality and make Leeds the best city for Health and Wellbeing. This item brings to the Board's attention the major issues, challenges and opportunities facing partners in the city, and provides a two year 'look ahead' written by each major healthcare organisation represented at the Board (NHS provider trusts, NHS CCGs, NHS England, Leeds City Council), to bring to attention the key issues for board members to discuss and note.

The contributions of the above organisations, giving their two year 'look ahead', have been collated and included as an appendix to this report.
