Modification No.	Page No.	Policy /Paragraph	PROPOSED MODIFICATIONS
MM3	31	Para. 4.5.2	<p>New text: <u>underlined</u> Deleted text Struckthrough</p> <p>Amend text as follows:</p> <p>The unique selling point for AVL remains the delivery of a sustainable new district for the city and its region, delivering new jobs and homes. AVL, which has been identified as one of Leeds City Region's Urban-Eco Settlements, will promote sustainable development by seeking the delivery of commercial and residential areas which have high quality environment, energy efficient buildings and operations, low carbon and green business, sustainable transport, <u>retail and</u> community facilities and linked areas of green infrastructure including a new city park in the South Bank area of the City Centre.</p> <p>Remainder unchanged</p>
MM4	32	Spatial Policy 5	<p>Amend first paragraph of Policy text as follows:</p> <p>Aire Valley Leeds (Urban Eco-Settlement) is identified (see Key Diagram) as a strategic location, providing between <u>a minimum</u> of 6,500 and 9,000 new homes, and at least 250 hectares of land for employment uses (including research and development, industrial, and warehouse development) <u>and new retail services of an appropriate scale (in accordance with the approach set out in Policies P5 and P7).</u></p> <p>Remainder unchanged</p>
MM5	33	Para 4.6.7	<p>Delete paragraph 4.6.7 and renumber subsequent paragraphs:</p> <p>The housing figure is to be provided in stages, as part of a phased approach, increasing over the life time of the Plan. The Council has taken this course of action because the current economic climate has impacted on a range of factors, which have in turn frustrated recent housing delivery. These factors include:</p> <ul style="list-style-type: none"> • The current fragility of the housing market and the dramatic reduction in completion rates when compared to the 10 year average of 3,000 dwellings per year from 2000 – 2010 (and 2,000 from 2009 – 2011), • The availability and affordability of mortgage finance, • The affordability of new housing stock in meeting local needs, • Rates of household formation, • Uncertainties regarding the rate of economic recovery and growth and the impact of this upon, job retention and creation, • The availability of funding to deliver infrastructure requirements associated with new development.

Appendix 2

Leeds City Council Core Strategy Main Modifications

Modification No.	Page No.	Policy /Paragraph	PROPOSED MODIFICATIONS
			New text: <u>underlined</u> Deleted text Struckthrough
MM6a	32	4.6.3	<p>Insert the following text into Para 4.6.3:</p> <p>Within the context of evidence derived from the Strategic Housing Market Assessment (2011) and informed by the above considerations, a housing requirement of 70,000 <u>(net)</u> new homes net has been set, as a basis to meet the housing demands and job growth aspirations of the City. This figure is broadly consistent with the <u>former</u> Regional Spatial Strategy. <u>It is based primarily on the 2008-based population projections and has not reflected the 2012-based population projections which were published at a very late stage of the Core Strategy Examination process.</u> <u>As part of the implementation of the Core Strategy, the City Council will continue to monitor the evidence base and delivery and through allocations plans, manage the release of sites through phasing.</u></p> <p>Remainder unchanged</p>
MM6b	34	4.6.12	<p>Replace Para 4.6.12 with the following</p> <p><u>It is recognised that in planning to accommodate 70,000 (net) new homes it will be necessary to ensure that a supply of deliverable sites is available to meet this need throughout the plan period. Nevertheless, given market conditions moving out of recession, the need to plan for infrastructure and demographic evidence it is considered that it is unrealistic to expect that completion rates reflecting the annual average of 4,375 per annum can be achieved in the early years of the Plan. A lower, but nevertheless challenging, rate of delivery of at least 3,660 per annum is set for the period 2012/13-2016/17. This lower figure relates specifically to delivery and does not alter the assessment made in relation to the overall level of need over the plan period. Taking into account levels of provision, demolitions and the role of windfall, Leeds will seek to identify 66,000 units for housing delivery over the lifetime of the Core Strategy.</u></p>
MM6c	35	Spatial Policy 6	<p><u>The provision of 70,000 (net) new dwellings will be accommodated net between 2012 and 2028 with a target that at least 3,660 per year should be delivered from 2012/13 to the end of 2016/17 will be accommodated at a rate of:</u></p> <p><u>3,660 per annum from 2012/13 to the end of 2016/17 (18,300)</u></p> <p><u>4,700 per annum from 2017/18 (51,700)</u></p> <p>Remainder unchanged</p>

Appendix 2

Modification No.	Page No.	Policy /Paragraph	PROPOSED MODIFICATIONS
			New text: <u>underlined</u> Deleted text Struckthrough
MM7	40	Para 4.7.12	<p>Amend text as follows:</p> <p>Overall a balance needs to be struck between providing local employment opportunities, promoting sustainable patterns of development and protecting the character of the countryside and <u>reflecting</u> Green Belt <u>purposes</u> designations. The District's Major Settlements have a vital role in serving surrounding rural areas and in providing local job opportunities. In preparing the LDF Allocations documents, sufficient land needs to be made available for economic development purposes (for example rural social enterprises) in these locations taking into account the needs of the wider rural catchment area.</p>
MM8	40	Para 4.7.13	<p>Delete paragraph 4.7.13:</p> <p>4.7.13 Outside the major settlements, small businesses and local services are a vital part of the economy and the life of the community. In order to grow and diversify the rural economy the following proposals should be supported, where appropriate;</p> <ul style="list-style-type: none"> • conversion of existing buildings promote the development and diversification of agricultural and other land base rural businesses • support provision & expansion of tourist and cultural facilities in appropriate locations • retention and development of local services and community facilities.
MM9	40	Para's 4.7.14 to 4.4.17	<p>Amend paragraph numbers and text as follows:</p> <p>4.7.14<u>3</u> In order to ensure residents are able to access local job opportunities, employers and developers will be required through planning obligations to enter into local labour and training agreements <u>and apprenticeships</u>, appropriate to the individual development.</p> <p>Supporting most new employment development within urban and rural areas</p> <p>4.7.15; unchanged and becomes 4.7.14 4.7.16; unchanged and becomes 4.7.15 4.7.17; unchanged and becomes 4.7.16</p>
MM10	40	Para 4.7.18	<p>Amend paragraph number and text as follows:</p> <p>4.7.18 <u>7</u> Leeds and the region <u>have an important</u> play an integral role in assisting emerging new businesses <u>links</u> (business start-up, investment in new projects) and encourage young entrepreneurship. These will be supported by the retention and provision of new small start up units including workshops in appropriate locations.</p>

Appendix 2

Leeds City Council Core Strategy Main Modifications

Modification No.	Page No.	Policy /Paragraph	PROPOSED MODIFICATIONS New text: <u>underlined</u> Deleted text Struckthrough
MM11	41	Spatial Policy 8 (v) & (ix)	<p>Amend points (v) and (ix) of Policy as follows:</p> <p>(v) Supporting <u>the growth and diversification of the</u> rural economy, consistent with the Settlement Hierarchy and the protection and enhancement of a high quality rural environment. <u>Outside the Main Urban Area, Major Settlements and Small Settlements,</u> small businesses and local services are a vital part of the economy and the life of the community. In order to grow and diversify the rural economy the following proposals should be supported, where appropriate;</p> <ul style="list-style-type: none"> • <u>conversion of existing buildings</u> • <u>promote the development and diversification of agricultural and other land-based rural businesses</u> • <u>support provision & expansion of tourist and cultural facilities in appropriate locations</u> • <u>retention and development of local services and community facilities.</u> <p>(ix) Support the advancement of high quality communications infrastructure to foster sustainable economic growth and to enhance business links <u>subject to landscape, townscape and amenity considerations.</u></p> <p>Remainder unchanged</p>
MM12	42	Para 4.7.22	<p>Amend text as follows:</p> <p>The methods for forecasting demand used in the Leeds ELR (2010 Update) concluded 706,250 square metres of office floorspace would be required over the period 2010-28 as a minimum (this includes the margin of choice discussed above). Currently 840,000 square metres already exists in planning permissions. However the City Centre and Town Centres are identified as being priority locations for office development, and a large proportion of the existing supply is in an out of centre location. Therefore additional land in the City and Town Centres should be identified for office use. Therefore a minimum of 1,000,000 square metres of <u>land floorspace</u> will be identified for office use, <u>through LDF allocations documents</u> of which 840,000 square metres is already identified <u>in planning permissions</u>. The additional floorspace will be identified in or on the edge of the City and town centres. By identifying floorspace in excess of need, the Council will be in a position to re-examine any renewals for out of centre office locations and direct them to more central locations as appropriate. No new out of centre office locations will be allocated.</p>

Appendix 2

Leeds City Council Core Strategy Main Modifications

Modification No.	Page No.	Policy /Paragraph	PROPOSED MODIFICATIONS New text: <u>underlined</u> Deleted text Struckthrough
MM13	44	Para 4.8.5	<p>Amend text as follows:</p> <p>To meet Leeds' housing and employment requirements, it is anticipated that some land will need to be taken out of the Green Belt to provide for these allocations. As emphasised throughout the Core Strategy, a key priority for Leeds is to respond to the consequences of population growth and demographic change and the development needs associated with this. Within the Core Strategy, focus is therefore placed upon opportunities for growth within Regeneration Priority Programme Areas (Spatial Policy 4) and within the Main Urban Area and settlements identified as part of the Settlement Hierarchy. This framework (and as directed by Spatial Policy 1) will be used to direct growth to the most appropriate and sustainable locations, to meet housing need and other growth requirements. The Core Strategy provides the overall basis for a selective Green Belt review (as set out in Spatial Policy 10 below). The detailed mechanism for the review will be through the Site Allocations DPD, informed by the above approach and through consultation with stakeholders including local communities, developers and infrastructure providers, to determine the precise extent and location of boundary changes.</p>
MM14	45	Spatial Policy 10	<p>Amend Policy text as follows:</p> <p>A selective review of the Green Belt will need to be carried out to accommodate the scale of housing and employment growth identified in Spatial Policy 6 and Spatial Policy 9, as well as an additional contingency to create new Protected Areas of Search (to replace those in the UDP which will be allocated for future development). The selective review will generally consider Green Belt release around:</p> <ul style="list-style-type: none"> (i) the Main Urban Area (Leeds City Centre and surrounding areas forming the main urban and suburban areas of the city); (ii) Major Settlements of Garforth, Guiseley/Yeadon/Rawdon, Morley, Otley, Rothwell and Wetherby; (iii) Smaller Settlements (listed in Table 1 : Settlement Hierarchy); <p>Exceptionally, sites outside unrelated to the Main Urban Area, Major Settlements and Smaller Settlements, Settlement Hierarchy could be considered, where they will be in sustainable locations and are able to provide a full range of local facilities and services and within the context of their Housing Market Characteristic Area, are more appropriate in meeting the spatial objectives of the plan than the alternatives within the Settlement Hierarchy. Otherwise review of the Green Belt will not be considered to ensure that its general extent is maintained.</p> <p>In assessing whether sites in the selective Green Belt review should be allocated for development, the following criteria will be applied:</p>

Appendix 2

Leeds City Council Core Strategy Main Modifications

			<p>(iv) Sites will be assessed against the purposes of including land in Green Belts identified in national guidance (National Planning Policy Framework). These purposes are:</p> <ul style="list-style-type: none"> o to check the unrestricted sprawl of large built up areas, o to prevent neighbouring towns from merging, o to assist in safeguarding the countryside from encroachment,
Modification No.	Page No.	Policy /Paragraph	<p>PROPOSED MODIFICATIONS</p> <p>New text: <u>underlined</u> Deleted text Struckthrough</p>
			<ul style="list-style-type: none"> o to preserve the setting and special character of historic towns; and o to assist in urban regeneration. <p>(v) Development proposals not part of the selective Green Belt review will be considered against the suite of Green Belt policies saved from the UDP and through the emerging guidance and legislation of the Localism Act.</p>
MM15	57	Policy CC1	<p>Insert criterion d), amend points e), and g) of Policy text as follows:</p> <p>d) <u>Comparison retail proposals will be subject to a sequential order of preference of Primary Shopping Quarter, then edge of the Primary Shopping Quarter, then the rest of the City Centre. Proposals for comparison retail space located outside of the Primary Shopping Quarter will undergo a sequential assessment to demonstrate that there are not site opportunities within other sequentially preferable locations. Impact Assessments will be in line with the requirements of Policy P8. Comparison retail space will only be permitted outside of the Prime Shopping Quarter when it cannot be accommodated within the Prime Shopping Quarter, or in the case of bulky goods retailing space cannot be accommodated also in areas designated for bulky goods retailing. This will be according to NPPF sequential testing, and, in the case of proposals of 2,500sqm or more according to NPPF impact testing.</u></p> <p>e) <u>It is recognised that in many cases the Primary Shopping Quarter will not be an appropriate location to direct Bulky Goods. Therefore, where this is demonstrated through a Sequential Test, Bulky Goods proposals will be directed to within the City Centre boundary, and then on to fringe areas beyond the City Centre boundary that are well connected by Public Transport corridors and that are not more than 300m from the City Centre boundary. Impact Assessment will be in line with the requirements of Policy P8.</u></p> <p>e) f) Considering proposals for convenience retailing and convenience facilities (such as dry cleaners, off licences, small branch banks, cafes and pubs) as follows:</p> <p>g) <u>All other Town Centre uses will be supported within the City Centre boundary provided the use does not negatively impact on the amenity of neighbouring uses and that the proposal is in accordance with all other Core Strategy policies.</u></p> <p><u>Existing criteria (f) becomes (h)</u></p>

			Remainder unchanged
--	--	--	---------------------

Modification No.	Page No.	Policy /Paragraph	PROPOSED MODIFICATIONS
			New text: <u>underlined</u> Deleted text Struckthrough
MM16	62	Policy H1	<p>Amend Policy text as follows:</p> <p>LDF Allocation Documents will phase¹ the release of allocations according to the following criteria in order to ensure sufficiency of supply, geographical distribution in accordance with Spatial Policy 7, and achievement of a previously developed land target of 65% for the first 5 years and 55% thereafter. Subject to these considerations, phases with the earliest release should be made up of sites which best address the following criteria:</p> <ul style="list-style-type: none"> i) Location in regeneration areas, ii) Locations which have the best public transport accessibility, iii) Locations with the best accessibility to local services, iv) Locations with least impact on Green Belt objectives, v) Sites with least negative and most positive impacts on existing and proposed green infrastructure, green corridors, greenspace and nature conservation, <p>Consideration will be given to bringing forward large sites, of more than 750 dwellings, to facilitate, early delivery in the Plan period.</p> <p>In special circumstances, allocated sites may be permitted to be released in advance of their phasing outlined above, so long as the permitted site delivers infrastructure and housing investment that is needed within Regeneration Priority Areas. In such cases, suitable mechanisms will be agreed to ensure that delivery within the Regeneration Priority Area occurs either before, or in conjunction with the delivery of the permitted site.</p> <p><u>The Council will maintain</u> Where a five year supply (plus appropriate NPPF buffer) of deliverable housing sites cannot be demonstrated through annual monitoring, consideration will be made to <u>through considering release of</u> the subsequent phase or phases of sites to help address the shortfall. Any release of further phases of housing land will only be considered if it is found that either:</p> <ul style="list-style-type: none"> i) Delivery on PDL in the past year has met the target; ii) Delivery on PDL is expected to meet the target for the next five years; or iii) A sufficient number of sites (equivalent to the five year supply figure minus the windfall allowance) are reasonably capable of being developed.

Appendix 2

Leeds City Council Core Strategy Main Modifications

		1 Phase means a series of sequential bandings of site preference

Modification No.	Page No.	Policy /Paragraph	PROPOSED MODIFICATIONS New text: <u>underlined</u> Deleted text Struckthrough
MM17	63	Para 5.2.9	<p>Add following text to end of paragraph 5.2.9:</p> <p><u>Density is measured by the number of dwellings per hectare (dph). Net housing density is calculated by dividing the developable area (i.e. excluding land for roads, greenspace etc.) within the red line boundary of the planning approval by the total number of units granted permission.</u></p> <p>Delete the definition of density from the glossary.</p>
MM18	68	Para 5.2.25	<p>Amend text as follows:</p> <p>Leeds has a diverse housing stock ranging from large Victorian terraces to modern city centre flats. Some houses tend to be more suitable for families and when these are in areas with high concentrations of HMOs they should remain available for occupation by families. Factors to consider include the size of the dwelling, the amount of garden and private amenity space available, location of the property and any prolonged period of vacancy. <u>In the interpretation of H6Aiii it is recognised that some streets (or a part of a street) may already have such a high concentration of HMOs that the conversion of remaining C3 dwellings will not cause further detrimental harm. Also, in the interpretation of H6Av it may be the case that the remaining C3 dwellings would be unappealing and effectively unsuitable for family occupation. In such circumstances policy H6A would not be used to resist changes of use of such dwellings to HMOs.</u></p>
MM19	68		<p>Insert new paragraph as follows:</p> <p><u>5.2.26 In order to encourage landlords to experiment with lettings of HMOs to non-HMO occupants, the Council will consider granting flexible C3/C4 permissions for new and existing C4 HMOs. This will enable a C4 HMO to convert to a C3 dwelling house without losing the potential to revert back to C4 use within a fixed period (normally 10 years). If a property has a lawful C4 use when applying for a flexible permission this will then be a material consideration when the Council considers the planning application. The permission will enable flexibility to let a property between C3 and C4 uses during the specified period. On expiry of the dual use period, the use of the property at that time</u></p>

Appendix 2

Leeds City Council Core Strategy Main Modifications

			would become the permitted use of the property.

			<p>period) of new office floorspace is set for locations in or on the edge of town centres to guide allocation documents.</p> <p>(ii) The focus for most office development will be within and/or edge of the City Centre, and designated town and local centres.</p> <p>Due to the availability of development opportunities in centre and edge of centre, out of centre proposals would normally be resisted. <u>Exceptions would apply where either (iii) or (iv) below are applicable, with the exceptions of,</u></p> <p>(iii) <u>There are</u> existing commitments for office development will <u>that can</u> be carried forward to meet the identified floorspace requirement over the plan period, unless it would be more sustainable for the land to be re-allocated to meet identified needs for other uses.</p> <p>(iv) <u>There is a need</u> to provide flexibility for businesses, <u>so that</u> small scale office development (up to 250 <u>500</u> sqm) will not be subject to sequential assessments in the following locations;</p>
Modification No.	Page No.	Policy /Paragraph	<p>PROPOSED MODIFICATIONS</p> <p>New text: <u>underlined</u> Deleted text Struckthrough</p>
			<p>i. Regeneration areas identified under Spatial Policy 4</p> <p>ii. Settlements within the Hierarchy which do not have a designated centres as outlined in Map 4</p> <p>iii. Villages or rural areas that are not included in the Settlements Hierarchy, which will also be subject to the accessibility standards as defined by Table 1 in Appendix 2.</p> <p>(v) In existing major employment areas, which are already a focus for offices, some small scale office floorspace may be acceptable where this does not compromise the centres first approach.</p> <p>Map 13: shows which locations are subject to a sequential assessment</p>
MM32	77	Heading above Para 5.2.50	<p>Amend heading above paragraph 5.2.50:</p> <p>Safeguarding existing industrial and warehouse employment sites and premises</p> <p><u>Safeguarding existing employment land and industrial areas</u></p>
MM33	78	Para 5.2.51	<p>Amend text as follows:</p> <p>Policy EC3 applies to proposals on sites currently or last in use for employment purposes within the B Class Uses (B1a – offices, B1b – Research & Development, B1c – Light industry, B2 – General Industrial; and B8 – Storage or Distribution). The issue to be determined is whether there is a planning need for the site to remain in employment uses. There is a shortage of employment sites in certain locations but potential oversupply in others. The conclusions relating to land supply in the Leeds Employment Land Review (2010 Update) and subsequent updates</p>

Appendix 2

Leeds City Council Core Strategy Main Modifications

			will be a key consideration when making assessments of proposals for the development of existing employment sites.
MM34	78	5.2.53	<p>Amend text as follows:</p> <p>This is a criteria based policy which applies to the consideration of planning applications. Part A, which includes bullet points (i) to (iii), relates to all sites not identified in an area of shortfall and therefore assessed on a District-wide basis. Whilst Part B (iv) refers to only sites located within areas of shortfall.</p> <p><u>Part A: For all sites across the District outside of areas of shortfall</u></p> <p><u>Bullet point (i) relates to employment allocations and other land identified in the Leeds Employment Land Review (2010 Update) or future updates of the review. Employment needs are identified in Spatial Policy 9 which sets out the amount of land needed over the plan period.</u></p> <p><u>Bullet point (ii) applies to all existing premises and land previously or currently used for employment uses but which</u></p>
Modification No.	Page No.	Policy /Paragraph	<p>PROPOSED MODIFICATIONS</p> <p>New text: <u>underlined</u> Deleted text Struckthrough</p>
			<p><u>are not allocated. Non-viable may be defined as:</u></p> <ul style="list-style-type: none"> <u>• property or land has remained empty or vacant for a period of time despite being marketed (for a minimum of 12 months), or</u> <u>• the employment space no longer serves the needs of businesses, and may be incompatible with neighbouring uses through noise and amenity issues.</u> <p><u>Bullet point (iii) provides opportunity for mixed use proposals to deliver the Core Strategy employment objectives as identified in Spatial Policy 8 and 9.</u></p> <p>(i) Relates to points (ii) and (iii) where existing premises/site are considered nonviable in marketability terms. Non-viable may be defined as:</p> <ul style="list-style-type: none"> • property or land has remained empty or vacant for a period of time despite being marketed, or • the employment space no longer serves the needs of businesses, and may be incompatible with neighbouring uses through noise and amenity issues. <p>(ii) (i) Relates to any proposals on employment land, sites or premises which already have an employment allocation* or identified in the Employment Land Review in place for B Use Class employment type.</p> <p>(* Current land/premises allocated for employment uses will be safeguarded until their long term future is reviewed and determined through the LDF Allocation documents.)</p> <p>Employment needs are identified in Spatial Policy 8 which defines the key job sectors whilst Spatial Policy 9 sets out the amount of land needed to deliver these employment sectors over the plan period.</p> <p>Applies to land or premises previously or currently used for employment but which are not allocated.</p>

Appendix 2

Leeds City Council Core Strategy Main Modifications

			<p><u>Part B: Proposals in shortfall areas</u></p> <p>Part B refers to <u>general employment sites</u> in shortfall areas. <u>Please see Glossary for the definition of general employment land.</u></p> <p>Applications will be assessed using an appropriate definition of “surrounding area” as agreed between the Council and the applicant with reference to Table 1 – Accessibility Standards and Indicators for Employment and Social Infrastructure Uses in Appendix 2.</p> <p>The availability of sites and past take up in the surrounding area will be assessed to determine how much supply should be maintained to achieve the economic objectives of the Core Strategy.</p>
MM35	79	5.2.54	<p>Amend text as follows:</p> <p>Local need is calculated for the total amount of land that will be required in an area based on <u>local population</u> projected population change. This calculation will identify surplus and deficit of any local provision.</p>

Modification No.	Page No.	Policy /Paragraph	PROPOSED MODIFICATIONS New text: <u>underlined</u> Deleted text Struckthrough
MM36	79	5.2.55	<p>Amend text as follows:</p> <p>Leeds Employment Land Review (Update 2010) identified a potential shortfall of available <u>general</u> employment land in some areas of the district, particularly in the north and west of the city. Over the last decade there has also been a significant loss of existing employment sites to other types of development, particularly new housing encouraged by the focus on Brownfield development. While redevelopment is often positive, consideration also has to be given to retention of local employment opportunities. Therefore, in areas where there is an identified shortfall in the provision of <u>general</u> employment land there will be a presumption against loss of <u>general</u> employment sites to other uses.</p>
MM37	79	5.2.56	<p>Amend text as follows:</p> <p>The Leeds Employment Land Review (2010 Update) identifies the following local sub areas - Inner North East, Inner North West, Inner West, Outer North West and Outer North East where there are currently shortfalls in employment land provision. <u>It may not always be possible to address deficiencies in some area due to the lack of availability of suitable sites.</u> Accessibility is also an important issue, particularly the needs of businesses to access transportation networks. Subsequent updates of the Leeds Employment Land Review will monitor and bring up to date any changes to these areas <u>and identify any new areas.</u></p>
MM38	79	5.2.57	Delete paragraph 5.2.57:

Appendix 2

Leeds City Council Core Strategy Main Modifications

			Many of these areas where deficiencies exist are in locations where land is not available and accessibility is also an important issue, particularly needs of businesses to access transportation networks. Subsequent updates of the Leeds Employment Land Review will monitor and bring up to date any changes to these areas.
MM39		Map 13: Key	<p>Amend Map key as follows:</p> <p>Smaller Settlements without an identified centre: offices smaller than <u>500m²</u> 250m² not subject to sequential test</p> <p>Rural Areas: Offices smaller than <u>500m²</u> 250m² not subject to sequential test but must demonstrate compliance with Appendix Two Accessibility Standards</p> <p>Regeneration Areas: Offices smaller than <u>500m²</u> 250m² not subject to sequential test</p> <p>Remainder unchanged</p>

			New text: <u>underlined</u> Deleted text Struckthrough
MM49	104	Para 5.4.1	<p>Amend text as follows:</p> <p>Increased economic prosperity and population growth are likely to lead to increasing pressure upon the local transport infrastructure. In particular, greater levels of car use will lead to significantly higher levels of congestion affecting more hours of the day, and will also generate greenhouse gases that contributes towards climate change. In order to tackle these two issues new transport infrastructure will be provided during the plan period (See Spatial Policy 11). However it will also be necessary to use other initiatives to manage the level of car use and to gain maximum benefits from investment in more sustainable choices as outlined in Proposal 11 of the Local Transport Plan. <u>and t</u> This will be delivered through Policy T1.</p>
MM50	104	Policy T1	Amend first paragraph of Policy text as follows:

Appendix 2

Leeds City Council Core Strategy Main Modifications

			To complement the provision of new infrastructure and Proposal 11 of the Local Transport Plan the Council will support the following management priorities: Remainder Unchanged
MM51	104	Para 5.4.3	Amend text as follows: A key element of accommodating an increased population whilst minimising traffic growth is to ensure that new development is located in accessible locations that provide a real choice of sustainable transport alternatives. In accordance with Proposal 12 of the Local Transport Plan As part of this, <u>Accessibility standards have been developed (based on the RSS evidence base) that define the minimum standards that a new development will need to meet. The standards are set to ensure that all new development, including sites in rural areas and smaller settlements, occurs in sustainable locations which are accessible to a range of key destinations. Where these standards do not apply, investment will be required so that they can be achieved.</u>
MM52	105	Policy T2	Amend point (iii) of Policy text as follows: New development should be located in accessible locations that are adequately served by existing or programmed highways, by public transport and with safe and secure access for pedestrians, cyclists and people with impaired mobility, in accordance with Proposal 12 of the Local Transport-Plan. (iii) Significant trip generating sites <u>uses</u> will need to provide Transport Assessments/Transport Statements in accordance with national guidance. Remainder Unchanged
Modification No.	Page No.	Policy /Paragraph	PROPOSED MODIFICATIONS New text: <u>underlined</u> Deleted text Struckthrough
MM53	110	Policy G4	Amend Policy text as follows: On site provision of greenspace of 80 square metres per residential unit, will be sought for development sites of 10 or more dwellings that are outside the City Centre and in excess of 720 metres from a community park, and for those which are located in areas deficient of greenspace. In areas of adequate supply, contributions of an equivalent value towards the safeguarding and improvement of existing greenspace will take priority over the creation of new areas. <u>In this circumstance, qualitative improvements would be needed to address the pressures placed upon existing greenspace in the form of increased usage and increased demand arising from new residential development.</u>
MM54	122	Policy EN5	Amend first paragraph of Policy text as follows:

Appendix 2

Leeds City Council Core Strategy Main Modifications

			<p>The Council will manage and mitigate flood risk by:</p> <p>Avoiding development in flood risk areas, <u>where possible</u>, by applying the sequential approach and where this is not possible by mitigating measures, in line with the NPPF, both in the allocation of sites for development and in the determination of planning applications.</p> <p>Remainder Unchanged</p>
MM55	131	Para 6.38	<p>Amend para 6.38 by adding text at the end of the para as follows:</p> <p><u>The indicators, policies to which they relate, targets, triggers and interventions are set out in a summary monitoring table below.</u></p>
MM56	131	Table following Para 6.38	<p>Add monitoring table after para 6.38 as set out at the end of this appendix.</p>

Appendix 2

Leeds City Council Core Strategy Main Modifications

Modification No.	Page No.	Policy /Paragraph	PROPOSED MODIFICATIONS
			New text: <u>underlined</u> Deleted text Struckthrough
MM57	64	5.2.12	<p>Amend paragraph 5.2.12 as follows:</p> <p>In conformity with national planning guidance, affordable housing will be required to meet local needs. The policy has been informed by the evidence base, including the Leeds Strategic Housing Market Assessment (Update 2011) (as referred to in PPS3, Annex C). (as referred to in the NPPF, Para 159), and the Economic Viability Assessment 2010, and the Economic Viability Study 2013, (in accordance with NPPF Para 174).</p>
MM58	64	5.2.13	<p>Amend paragraph 5.2.13 as follows:</p> <p>Since affordable housing planning policy was first developed in the early 1990s, Leeds has always been able to demonstrate a need for affordable housing. (UDP paras 7.5.14 – 19, Assessment 2001/02, Assessment 2003, Assessment 2007 and Assessment 2011). Following national practice guidance, need for affordable housing was calculated to be 480 per annum 2003 and 1889 per annum in 2007. The most recent Strategic Housing Market Assessment (2011) identifies an annual need of 1158 affordable housing dwellings. Not all of this need will be met by the planning system, other methods of delivery such as grant funded schemes also play an important role in the delivery of affordable housing. Given the high level of need, action to secure affordable housing (or contributions) from all developments of new dwellings, will be taken. Reflecting the varied housing characteristics of Leeds, 4 housing zones are identified. Map 12 provides the overall location and extent of the areas, but more detailed maps with precise boundaries are provided on LCC’s website.</p>
MM59	65	5.2.14-17	<p>Delete paragraph 5.2.14 as follows:</p> <p>The Economic Viability Assessment 2010 explored what percentages of affordable housing and what mixes for example social rented /sub-market types of affordable housing would be viable. It did this for different geographical areas of Leeds and for different states of the market, firstly baseline (the depressed period of 2010), secondly mid point and thirdly height of the Market (2007). It concludes that in periods of buoyancy affordable housing could be delivered at 50% in high value areas but that in periods of adversity some areas are hardly able to sustain any affordable housing.</p> <p>Existing paragraph 5.2.15 becomes 5.2.14</p> <p>Existing paragraph 5.2.16 becomes 5.2.15</p> <p>Existing paragraph 5.2.17 becomes 5.2.16 with the following amendments:</p> <p>The SHMA suggests that households need earnings of at least £15,000 to afford more than “social rented” housing.</p>

Appendix 2

Leeds City Council Core Strategy Main Modifications

			This equates to approximately the lowest decile decile of earnings in Leeds. The affordability of affordable housing
Modification No.	Page No.	Policy /Paragraph	PROPOSED MODIFICATIONS New text: <u>underlined</u> Deleted text Struckthrough
			should be designed to meet identified needs of households in both lower quartile and lower decile -decile bands of earnings <u>with</u> From an initial starting point of 40% of affordable housing to meet needs of households in lower quartile earnings and 60% to meet the needs of households in lower decile decile earnings., an SPD will advise how these percentages may vary in different areas of Leeds and may vary over time as new evidence emerges.
MM60	65	5.3.18	<p>Existing paragraph 5.3.18 becomes 5.2.17 with the following amendments:</p> <p>Within this context, Policy H5 provides an overall framework for the provision of affordable housing. It is appropriate that details such as thresholds and targets is provided through a Supplementary Planning Document. This will reflect market conditions and can be reviewed as economic conditions change and the life of the Core Strategy within the context of Policy H5. For schemes that are below the threshold to require the provision of on-site affordable housing, the City Council will seek financial contributions in the housing market zones 1 and 2 toward affordable housing tapered down from the equivalent cost of on-site provision at the lowest size threshold. If the scheme has exceptional costs a financial appraisal will be necessary to determine what contribution can be provided without undermining scheme viability.</p>
MM61	66	Policy H5	<p>Amend Policy H5 as follows:</p> <p><u>POLICY H5: AFFORDABLE HOUSING</u></p> <p>The Council will seek affordable housing either on-site, off-site or financial contributions from all developments of new dwellings. Housing developments above a certain threshold should include a proportion of affordable housing to be normally provided on the development site. The affordable housing provision should provide for a tenure mix in terms of submarket and social rented housing. Over the plan period to 2028 the threshold, amount of affordable housing and tenure splits may vary depending on housing needs and market conditions applicable at the time. An Affordable Housing Supplementary Planning Document will therefore provide up to date guidance on thresholds, targets, affordability mix and provision sought, which may vary depending on the local area. An annual update to the SPD of affordable housing price benchmark figures will also be provided.</p> <p>The broad range of provisions for a Supplementary Planning Document will be:</p> <p>i) A threshold between 10 and 15 dwellings will apply — on site affordable housing will be sought on any development at or above the threshold. There is no site size threshold.</p> <p>ii) Overall targets for affordable housing will vary from 5 to 50%.</p>

			New text: <u>underlined</u> Deleted text Struckthrough
MM63	70	5.2.28	<p>Amend paragraph 5.2.28 as follows:</p> <p>Paragraph number 5.2.28 becomes paragraph 5.2.29</p> <p>In planning for all sections of the community to have access to decent housing, there is a need to make appropriate provision for <u>Gypsies, Travellers and Travelling Showpeople</u> gypsies, travellers and travelling showpeople. According to government guidance, Core Strategies should provide criteria for future Site Allocations DPD, to enable sufficient sites to be allocated to provide for identified need <u>Planning for Travellers Sites 2012, local planning authorities should identify a need for Gypsies, Travellers and Travelling Showpeople's accommodation for the plan-period and allocate sufficient sites (pitches and plots) to meet identified needs as well as demonstrate a sufficient supply of sites to meet identified needs within a five year period.</u></p>
MM64	70	5.2.29	<p>Replace existing paragraph 5.2.29 which is re-numbered as paragraph 5.2.30</p> <p>The West Yorkshire Gypsy and Traveller Accommodation Assessment 2008 (GTAA) provided an overall assessment of the long term requirement for Gypsies and Travellers (residential and transit sites) and Travelling Showpeople. The GTAA identified that there was an unmet need for residential pitches (not including pitches for transit sites and travelling showpeople) up to 2015.</p> <p>5.2.30 In Leeds there is a current supply of 48 pitches for Gypsies and Travellers. The Council maintains a site at Cottingley Springs, Gildersome with 41 pitches. Elsewhere there are 7 pitches on private sites. There are currently no authorised plots for Travelling Showpeople within Leeds, although there are currently 7 families living on plots with the consent of landowners.</p>
MM65	70	5.2.30	<p>Replace existing paragraph 5.2.30 which is re-numbered as paragraph 5.2.31</p> <p>Following consideration of the GTAA findings, relevant guidance, local circumstances and the analysis of immediate short/medium term priorities, the initial focus of the City Council has been to address the housing needs of the Leeds based 'roadside' families, who have a housing need for 12 pitches in advance of producing future Site Allocations plans.</p> <p>5.2.31 In accordance with national guidance, "pitch" means a pitch on a Gypsy and Traveller site and "plot" means</p>

Appendix 2

Leeds City Council Core Strategy Main Modifications

		a pitch on a Travelling Showperson's site (often called a "yard"). This terminology differentiates between residential pitches for Gypsies and Travellers and mixed-use plots for Travelling Show people, which may need to incorporate space or to be split to allow for the storage of equipment.

			New text: <u>underlined</u> Deleted text Struckthrough
MM66	70	5.2.31	<p>Revise existing paragraph 5.2.31, which is re-numbered as paragraph 5.2.32, as follows:</p> <p>In order to determine an up to date level of <u>Gypsy and Traveller local</u> needs for the plan period, the City Council worked with <u>Leeds Gypsy and Traveller Exchange (GATE)</u> in preparing a <u>Gypsy and Traveller Accommodation Assessment in 2013/14</u>. This assessment was based on methodology derived from <u>Communities and Local Government, Planning Policy for Traveller Sites (2012)</u> and also <u>Communities and Local Government, Gypsy and Traveller Accommodation Needs Assessments (2007)</u>. The approach is locally based, in accordance with <u>Planning Policy for Traveller Sites</u>, and agreed between the Council and <u>Leeds GATE</u>. The main sources of information used were <u>Leeds' housing applications data (including housing needs assessments for Gypsies and Travellers on the housing waiting list), Leeds GATE local knowledge and a survey prepared and carried out by Leeds GATE with support from the Council</u>. will undertake further monitoring, evidence based work and through appropriate mechanisms establish requirements. In order to guide the identification of sites to meet these requirements, <u>Policy H7 sets out site selection criteria to accommodate additional pitches through the Site Allocations DPD.</u></p>
MM67	70	Below existing paragraph 5.2.31 (re-numbered 5.2.32)	<p>Insert the following paragraphs:</p> <p><u>5.2.33 This information provides an understanding about the needs and preferences of Leeds' Gypsies and Travellers. It suggests that there is a preference for small sites, that whilst many Gypsies and Travellers wish to live on a Council run site there is a significant group that wish to make their own provision and that there are a number of people in pitch based provision that seek a bricks and mortar house as a preference.</u></p> <p><u>5.2.34 An assessment by Leeds GATE and the City Council, including revisions to the Council's Gypsy and Traveller Pitch Requirement Study and a survey of local Gypsies and Travellers carried out by Leeds GATE shows an unmet housing preference for 58 pitches made up of 26 households seeking permanent public sector provision and having an assessed housing need and 26 households seeking permanent private pitch provision. There is also an identified expressed preference from 6 households seeking negotiated stopping. By applying a compound growth of 3% and allowing for vacancy levels within the existing provision there is a need for 62 pitches for the plan period (i.e. up to end March 2028). For the plan period this need can be split as follows:</u></p> <ul style="list-style-type: none"> <u>• Council provision = 25 pitches</u> <u>• Private provision = 28 pitches</u>

Appendix 2

Leeds City Council Core Strategy Main Modifications

			<p>• <u>Negotiated stopping provision</u> = 9 pitches</p> <p><u>5.2.35</u> For Travelling Showpeople the Travelling Showmen's Guild has indicated that there is a need to provide suitable provision for 15 families throughout the Core Strategy plan period i.e. on 15 plots. They advise that this should be provided on either one or two sites (approximately 1 hectare in total), which would also contain some transit provision.</p>
Modification No.	Page No.	Policy /Paragraph	<p>PROPOSED MODIFICATIONS</p> <p>New text: <u>underlined</u> Deleted text Struckthrough</p>
			<p><u>5.2.36</u> The Council will allocate land for Gypsies, Travellers and Travelling Showpeople on the basis of the identified needs above through the Site Allocations Plan. In order for Gypsies and Travellers to have a high quality of life it will desirable for pitches and plots to have the same access to services as the settled population. This is a message that has arisen from consultation with the Gypsy and Traveller community themselves who do not desire to live in remote or inaccessible locations. At the same time it should be recognised that sites should in all cases be deliverable to Gypsies, Travellers and Travelling Showpeople and in reality this may mean that, for example, the most accessible sites are not viable. The deliverability of sites is therefore included as a criteria to inform the allocation of sites and decision taking.</p> <p><u>5.2.37</u> The Site Allocations Plan will engage positively with the Gypsy and Traveller community and Leeds GATE to ensure that suitable council run sites (including where appropriate an element of transit provision) are identified and allocated to meet the full needs for the plan period. For private pitch provision, including for Travelling Showpeople, the Council will work proactively with the Gypsy and Traveller communities, Leeds GATE and the Showmen's Guild to help identify and allocate such sites through the Site Allocations Plan in line with the criteria in Policy H7.</p> <p><u>5.2.38</u> Planning Policy for Traveller Sites confirms that a criteria based policy can provide a basis for decision taking as well as allocating sites, therefore the policy contains criteria to guide land supply allocations and provide a basis for decisions, should applications nevertheless come forward</p>
MM68	70	5.2.32	<p>Revise existing paragraph 5.2.32, re-numbered as 5.2.39, as follows:</p> <p>Consultation responses from representatives of the Gypsy and Travellers community have previously indicated a strong preference for sites to be of a small size suited to occupation by close family groups, and reasonably located for local facilities. Extension of the existing site at Cottingley Springs was not favoured. It may not be possible to identify sites without considering exceptional and limited alterations to the Green Belt Boundary. Any alterations to the Green Belt boundary will need to be considered as part of the Site Allocations DPD. Alternatives will be explored before Green Belt locations are considered.</p>
MM69	70	Policy H7	Revise Policy H7 as follows:

Appendix 2

Leeds City Council Core Strategy Main Modifications

			<p>The City Council will identify suitable sites in the Site Allocations Plan (of around no more than 15 pitches per site) to accommodate the following identified needs:</p> <ul style="list-style-type: none"> • <u>62 pitches for Gypsies and Travellers (of no more than 15 pitches per site), and</u> • <u>15 plots for Travelling Showpeople (to be accommodated on either one or two sites),</u>
Modification No.	Page No.	Policy /Paragraph	<p>PROPOSED MODIFICATIONS</p> <p>New text: <u>underlined</u> Deleted text Struckthrough</p>
			<p>In identifying land or determining planning applications for pitches / plots, consideration will be based on Gypsies, Travellers and Travelling Showpeople, through a Site Allocations DPD, subject to the following criteria:</p> <ul style="list-style-type: none"> i) pitches and plots should <u>Sites must be located near major roads and have reasonable access to public transport, health care, schools, shops and local services (and should not be located on land that is deemed unsuitable for general housing such as land that is contaminated, adjacent to refuse sites, landfill sites, heavy industry or electricity pylons.),</u> ii) <u>pitches and plots should not be located on land that is deemed unsuitable for general housing, such as land that is contaminated, adjacent to refuse sites, landfill sites, heavy industry or electricity pylons</u> iii) <u>pitches and plots</u> Sites <u>should avoid zones of high flood risk (zone 3 flood risk areas),</u> iv) <u>the following order of preference for categories of land should be followed: brownfield, greenfield and Green Belt. Alterations to the Green Belt boundary to accommodate pitches and plots will only be considered in exceptional circumstances, to meet a specific identified need. In such circumstances and as part of the Site Allocations Plan, sites will be specifically allocated as a Gypsy, Traveller and Travelling Showpeople's site only.</u> v) <u>the availability of alternative deliverable sites for Gypsies and Travellers and Travelling Showpeople</u> iv) Alterations to the Green Belt boundary to accommodate sites will only be considered in exceptional circumstances, to meet a specific identified need. In such circumstances and as part of the Site Allocations DPD, site will be specifically allocated as a Gypsy, Traveller and Travelling Showpeople site only. v) Sites should avoid designated areas, including nature conservation sites and Special Landscape Areas and should not introduce unacceptable off-site impacts such as might occur from recreational pressures on such

			sites.
MM70	116	Policy EN1	<p>Amending Policy EN1 to move the second bracket from after “feasible” to after “conversion”:</p> <p>All developments of 10 dwellings or more, or over 1,000 square metres of floorspace, (including conversion) where feasible), will be required to:</p>

Modification No.	Page No.	Policy /Paragraph	PROPOSED MODIFICATIONS New text: <u>underlined</u> Deleted text Struckthrough
MM71	120	5.4.49	<p>Modify paragraph 5.4.49 as follows:</p> <p>The Department of Energy and Climate Change’s (DECC) document, The Future of Heating (2013) says “<u>Local authorities are in the best position to undertake the Energy Master planning of areas suitable for heat networks and the initial assessment of the feasibility of projects. They are well placed to act as ‘brokers’, for example putting together prospective promoters of projects with prospective providers and customers for heat.</u>” In addition, <u>local authorities are encouraged to consider low carbon and renewable heat networks through the National Planning Policy Framework published in 2012. The framework encourages local planning authorities to identify opportunities for development that can draw their energy supply from decentralised, renewable or low carbon energy supply systems and for co-locating potential heat customers and suppliers.</u> Future Energy Yorkshire have completed a study which recommends the establishment of a strategic body (‘Energy Leeds’) whose role would be to take responsibility for the delivery of energy related activities. These activities could include the co-ordination and delivery of heat networks. This role is particularly important to enable developments to reach code levels 5 and 6 of the Code for Sustainable Homes (as required under Policy EN2). Heat distribution is most likely to be viable in areas of higher density. Opportunities exist around Leeds City Centre (for example major development proposals for the Victoria Gate area, in the provision of an new energy centre, low carbon heating, cooling, electricity generation and potentially other utilities), the Aire Valley, the universities and St James University Teaching Hospital, as a consequence of high heat loads, which offer the potential for low carbon energy for local communities.</p>
MM72	120	5.5.50	<p>Modify paragraph 5.5.50 as follows:</p> <p>The Council has mapped the areas of greatest potential for the creation of heat networks across the district (see Map 20). <u>DECC has developed a heat map for England, which helps to identify areas of high heat demand and potential sources of heat supply. The current heat map shows total heat demand for public, commercial, industrial and residential buildings. DECC have made this data available to local authorities and the council is now undertaking a significant piece of work that will broaden our evidence base further. This is the Strategic Heat</u></p>

Appendix 2

Leeds City Council Core Strategy Main Modifications

			<p>Programme, led by Leeds City Region, which has two elements. First, a high level heat map covering the entire city and city region, identifying areas that currently have high heat demand, potential anchor loads, major heat supply plant and their replacement dates, potential heat supply locations and the estimated heat demand of future developments, in order to help guide the implementation of this policy to the most appropriate areas for district heating. Essentially, those areas identified as having high current/future heat demand will have a presumption in favour of district heating. Second, the study will develop an Energy Masterplan for the Aire Valley and city centre. This will be achieved by conducting a very detailed study of potential DH opportunities in the Aire Valley and city centre, building on previous studies. The Energy Masterplan will provide information on preferred network routes, potential customers and a detailed business case for implementation. Map 20 shows the locations with the greatest potential for the creation of heat networks, this map will be updated with the Strategic Heat Map when it becomes available in 2014. Where there is an existing heat network then it is expected that new developments will make the necessary connections. Where there is no heat network, but there is a low cost heat source such as energy from</p>
--	--	--	--

Modification No.	Page No.	Policy /Paragraph	PROPOSED MODIFICATIONS New text: <u>underlined</u> Deleted text Struckthrough
			waste facilities, then opportunities should be taken through proposals for developer to investigate the potential for connection. Where neither existing heat networks nor low cost heat sources are available or feasible then a new heating plant/energy centre needs to be provided.
MM73	120	5.5.51	<p>Modify paragraph 5.5.51 as follows</p> <p>Heat Density is the annual heat demand in KWh divided by 8,760 (the number of hours in a year), to give a heat demand, and then divided by the area of land concerned. This calculation is key to evaluating heating network viability. Research conducted by the Department of Energy and Climate Change into the potential for district heating in the UK has found that areas with a heat density above 3,000 kWh/km² is currently required to create a viable network. The National Heat Map referenced above and available from http://tools.decc.gov.uk/nationalheatmap/ shows that much of Leeds is already above this threshold. The higher the heat density the more cost effective the network. A<u>As</u> technology and expertise improve the current viability threshold will decrease.</p>
MM74	120	After paragraph 5.5.51	<p>Insert a new paragraph after paragraph 5.5.51 and renumber subsequent paragraphs:</p> <p>5.5.52 The Council always encourages pre-application discussions but ultimately the developer has responsibility <u>for preparing the assessment for their site, and submitting it with their planning application. The information will then be assessed as part of the planning application by the development control officer, with support from technical officers in the council, who will ultimately determine whether or not district heating is technically viable, appropriate to the development and in an area with sufficient potential to accommodate a district heating scheme. However, before this formal planning stage is reached, the Council has an important role to support developers, in order to facilitate the development of district heating networks across the city. This support will be initiated when a developer comes in for a pre-application meeting, where it will be explained to them what is required to meet EN4 and what</u></p>

Appendix 2

Leeds City Council Core Strategy Main Modifications

			<u>assistance the Council can give. Specialist energy and sustainable construction officers will help developers to evaluate options for their site and if other approaches to low carbon and distributed energy are more appropriate will recommend these alternatives to both developers and development control officers.</u>

For town and local centres to provide some small scale office development.	Review of application of sequential test when determining planning policies. Review to see if sufficient locations are available in the City, town and local centres to accommodate uses.	Employment Land Review Employment Land Availability Retail monitoring
22	% of A1-A5, development within and on the edge of town and local centres outside town and local centres		For the majority of retail, non-retail, community and leisure uses (A1/A2/A3/A4/A5/D1/D2) to be located in centres in line with Policy P8 thresholds and new food stores in line with Policy P5.		
23	Provision of Infrastructure as outlined in CIL	ID2	As in IDP and determined through CIL		Community Infrastructure Levy Infrastructure Delivery

Appendix 2
Leeds City Council Core Strategy Main Modifications

No.	Indicator	Key Policies	Targets	Triggers / Intervention	Source
					Plan
24	Provision of Green Infrastructure and greenspace as obtained through development process and other sources	SP13, G1, G2, G3, G4, G5, G7	To see continued investment to improving the offer of greenspace and green infrastructure in the District in line with standards as set out in Policy G3	Review reasons for lower achievement and apply policies more strictly if necessary.	Open Space and Recreation Needs Assessment Planning permissions
25	Amount of greenspace lost to redevelopment	G6	To lose no greenspace that is not justified according to Policy G6 criteria	Review reasons for lower achievement.	Planning permissions
26	Number of Conservation Area appraisals completed as a proportion of total Conservation Areas	P11	100%		Conservation Area Appraisals
27	Number of buildings noted as 'At Risk' on the 'At Risk Register'	P11	For the number of buildings considered to be 'At Risk' in Leeds to be less in 2028 than at the start of the Plan. In 2012, there were 11 buildings at risk in Leeds.		Buildings At Risk Registrar
28	Number of Listed Buildings demolished	P11	Zero	Examine reasoning for demolitions. Raise awareness about the importance of retaining listed buildings. Apply policies more stringently.	Listed Buildings Register
29	Total development in Regeneration Priority Programme Areas	SP4, SP5	There is a priority for development within regeneration areas, but no specific target per se. The Aire Valley has specific targets for housing development (minimum of 6500 homes) and to provide at least 250 ha of employment land.	See indicators relevant to the City Centre and Meeting the needs of a Successful District.	Aire Valley Area Action Plan documents Neighbourhoods and Housing Regeneration Priority Programmes
30	Performance as measured by the Index of Multiple Deprivation	SP4	Identify how poorly performing neighbourhoods (as measured by the index of multiple deprivation) are changing over the years.	Determine whether the Regeneration Priority Programme Areas (as set out in SP4) represent the most appropriate areas for regeneration support.	Index of Multiple Deprivation Ward and area based analysis
31	Delivery of a City Centre park	SP3	Delivery of a City Centre Park of at least 3 hectares in size.		South Bank Planning statement and permissions
A Well Connected District					
32	Accessibility of new	SP1,	Most new housing development is	Review the location of allocated housing	Housing Land Monitor

Appendix 2
Leeds City Council Core Strategy Main Modifications

No.	Indicator	Key Policies	Targets	Triggers / Intervention	Source
	dwellings to local services, employment, health, education and centres	T1, T2, P9	accessible to a variety of services either by walking or by public transportation.	land available for development.	Strategic Housing Land Availability Assessment
33	Accessibility of new employment, health, education, leisure and retail	EC1, T1, T2, P7, P8, P9,	Most new employment, health, education, leisure and retail uses is accessible to a variety of services either by walking or by public transportation.	Apply Policies SP9, EC1, EC2, P7 and T2 more stringently. Review the location of allocated employment land available for development.	Employment Land Review
34	The delivery of transport management priorities	T1, T2, SP1	Increasing the modal share of sustainable transport use and supporting new development / growth areas	Review priorities to determine if appropriate. Seek investment to further enact priorities	Local Transport Plan
35	Mode of travel to work	T1, T2, SP1	Increasing the modal share of sustainable transport use	Lobby for public transport infrastructure improvements and stricter application of policies to focus new employment in locations accessible by public transport, cycling and walking	Local Transport Plan
36	Expansion of the Leeds Core Cycle Network	T1, T2		Review constraints.	Local Transport Plan
Managing Environmental Resources					
37	Net amount of designated sites directly lost to development	G8, G9	0 ha of land designated as SSSI, SEGI or Local Wildlife Site directly lost to development without replacement or improvement	Liaise with Council services and West Yorkshire Ecological Advisory Service	Natural England Planning permissions
38	Increase in the amount of tree cover in the District	G2, G9	Increase the amount of tree cover in Leeds from 6.9% to the England average of 8.2% (an additional 32, 000 trees).	Negotiations on planning applications and identification of major opportunities	Trees in towns Planning permissions Planning Briefs
39	Planning permissions granted contrary to Environment Agency advice on flood risk and water quality	EN5, SP1	Reduce number	Negotiations on planning applications	Environment Agency
40	Delivery of the Leeds Flood Alleviation Scheme	EN5, SP3	Delivery of scheme by 2025	Progress monitoring via the appropriate Programme Board	Leeds City Council
41	Air quality in Leeds	EN1,	Continued reduction of specific pollutants	Consider need for specific technical	Leeds City Council
