Delete all after “positive work in the future” and replace with:

Council recognises the severe budgetary and service transformation pressures placed on local and national health and care systems as a result of the Governments mismanagement of the NHS and the flawed legislation which led to the unnecessary and costly top-down reorganisation of the NHS.

The result is the biggest shake-up of the NHS since its creation with health and care services now facing unprecedented transformation in extremely challenging timescales.

This Council requests that the Health and Wellbeing Board is tasked with producing a report to explore and review how it can further work with the public to ensure that it is best placed to improve the health and wellbeing of the whole city and to ensure that people who are the poorest will improve their health the fastest.

Motion will then read:

The council notes the work done over the past 18 months by the Leeds Health and Wellbeing Board and looks forward to further positive work in the future.
