## F. ALTERNATIVE OPTIONS FOR GENERAL EMPLOYMENT (NOT PROPOSED TO ALLOCATE)

Site Ref	Address	Size (ha)	Proposed allocation (2011 Consultation)	Proposed allocation (2014)	Reason for rejecting site for general employment
53	Neville Hill sidings	6.17	Industry	None (show within Green Infrastructure)	Site shown on earlier consultation documents as an employment site, based on its potential for rail related use incorporating parts of the rail sidings at the Neville Hill depot and adjoining land. The site was considered as a potential rail freight site through the Natural Resource & Waste Plan but was rejected on because of the difficulty of achieving a suitable highway access given the HGV ban, which applies along Halton Moor Avenue, and the need to cross the City Centre – Garforth cycle path, which runs along the south of the site. This is also a further issue about protecting the amenity of residents living in the Nevilles housing area to the east of the site. There is insufficient certainty about delivery prospects to underpin an employment allocation through the AAP given the potential costs of overcoming highway access and amenity constraints.
100	Land at Haigh Park Road, Stourton	39	Industry (parts of site)	General Employment & Natural Resources & Waste Allocations (parts of site)	The parts of the site that are available for general employment uses (AAP Site Refs: 72, 74, 76, 78 & 83) have been identified, except where they are proposed allocations under the Natural Resources and Waste Plan. The remaining land is in existing employment use and is not part of additional supply.
33	Low Fold	2.37	Mixed Use	Housing	Preferred for housing reflecting current developer proposal and close proximity to city centre and wider residential and mixed use proposals.
102	Sites at Cross Green / Knowsthorpe Way / Cross Green Way / Cross	32.8	None	General employment (part of site)	The part of the site that is available for general employment uses have been identified (AAP Site Ref: 51) The remaining land is in existing

	Green Approach / Knowsthorpe Road				employment use and is not part of additional supply.
103	Site at Pontefract Lane / Newmarket Approach	6.4	None	General employment (parts of site)	The part of the site that is available for general employment uses have been identified (AAP Site Ref: 65) The remaining land is in existing employment use and is not part of additional supply.
104	LAND WEST OF BRIDGE THWAITE LANE STOURTON LS 10	0.62	None (shown within Green Infrastructure)	None (shown within Green Infrastructure)	UDP employment allocation. Not suitable & available. Functional flood plain not suitable for employment uses. Site includes Sea Scouts building and has planning permission for Leeds Rowing Club base.
105	SLUDGE LAGOONS EAST LEEDS LINK OFF PONTEFRACT LANE LS9	24.98	None (shown within Green Infrastructure)	None (shown within Green Infrastructure)	UDP employment allocation. Not deliverable. Site of former sludge lagoon for Knostrop WWTW now capped and naturally re-vegetating. Remediation costs are too high, making site unviable for employment use.
106	NATIONAL GRID SITE ADJ EX SKELTON GRANGE PWR STN LS9	7.29	None	None	UDP employment allocation. Not available. Site contains large existing electricity transformer station and very unlikely to be released in the foreseeable future.
107	LAND EAST OF BRIDGE THWAITE LANE STOURTON LS 10	0.50	None (shown within Green Infrastructure)	None (shown within Green Infrastructure)	UDP employment allocation. Not suitable. Functional flood plain not suitable for employment uses.
108	NORTH OF PONTEFRACT ROAD BELL HILL STOURTON	2.40	None (shown within Green Infrastructure)	None (shown within Green Infrastructure)	UDP employment allocation. Not deliverable. Feasibility study identified substantial highway constraints. It is estimated that necessary highway works will cost >£5million.
109	LAND OPPOSITE THORNES FARM APPROACH OFF	6.73	Industry	None	UDP employment allocation. Not available. The landowner, Yorkshire Water, have indicated they require site for operational use at the earlier
