specific barriers to the strategy, policy, services or function

Please specify

- Demand for social housing outstrips supply. Preference categories favour some customers over others, which may create the perception that the policy is unfair.
- The properties are advertised through the choice based letting system, which may not make sufficient information about preference categories and exceptions readily available to customers, particularly those that have trouble engaging with CBL.
- The number of preference categories may be confusing for customers, particularly those with vulnerabilities.

8. Positive and negative impact

Think about what you are assessing (scope), the fact finding information, the potential positive and negative impact on equality characteristics, stakeholders and the effect of the barriers

8a. Positive impact:

The LLP gives preference to underoccupying customers. These are more likely to be older customers. Additionally these customers will be freeing up a family-sized social rented property locally, which could benefit younger households.

The LLP gives preference to customers with an excellent tenancy record. This will make the development sustainable and contribute towards community cohesion and integration.

The LLP gives preference to customers with a local connection. This will benefit people living, working or with family in the area and will contribute towards community cohesion and integration.

<p>The LLP gives preference to overcrowded customers. These customers are more likely to come from BME communities. Additionally these customers will be freeing up a home which may benefit customers who need to downsize due to the effects of welfare reform.</p>
<p>Action required:</p>
<ul style="list-style-type: none"> • Your Housing Group will be required to monitor lettings made under the LLP by BME group and age, and benchmark with lettings made to comparable Your Housing Group properties with no LLP. • Leeds City Council to monitor lettings to customers in housing need through the nominations agreement.

<p>8b. Negative impact:</p>
<p>The LLP gives preference to underoccupying and overcrowded customers, which will disadvantage customers with an urgent housing need who are currently living in a property which meets their needs in terms of size.</p> <p>The LLP gives preference to customers with an excellent tenancy record which may disadvantage customers who have accrued arrears, have mental health issues, suffering domestic violence or committed anti-social behaviour due to unmet support needs.</p> <p>The LLP gives preference to customers in work, which disadvantages customers who can't work due to disability, age or caring responsibilities.</p> <p>The LLP gives preference to customers with a local connection which disadvantages customers with and urgent housing need and no local connection to the area.</p>
<p>Action required:</p>
<p>In exceptional circumstances, customers with a disability to be exempted from the LLP if appropriate and as agreed by Your Housing Group and LCC.</p> <p>In exceptional circumstances, customers with an urgent housing need to be exempted from the requirement to be overcrowded or underoccupying.</p> <p>In exceptional circumstances, customers with minor tenancy breaches who have demonstrated a change in behaviour to be exempted from the requirement for an excellent tenancy record.</p> <p>Where support needs are identified through the application process, referrals to support agencies to be made.</p> <p>In exceptional circumstances, customers with a disability or caring responsibilities who are unable to work to be exempted from the requirement to be working.</p> <p>Customers with no local connection to the area will be disadvantaged as they are unlikely to be let a property. However, council properties that are released as a result of a let to an underoccupying customer will not require a local connection, where they are advertised through the housing need quota. The local connection definition is wide enough to</p>

encompass residence, employment, family and other reasons. To mitigate any adverse equality impacts, the registered provider will have the discretion to waive the local connection requirement in exceptional circumstances where undue hardship would otherwise result.

9. Will this activity promote strong and positive relationships between the groups/communities identified?

☒

Yes

☐

No

Please provide detail:

Under the LLP, customers will have to demonstrate a good tenancy record and a local connection to the area. This will contribute towards community cohesion and sustainable tenancies, increase tenant satisfaction, reduce turnover and help create a balanced community.

Action required:

Your Housing Group to make lettings in accordance with the LLP.

10. Does this activity bring groups/communities into increased contact with each other? (e.g. in schools, neighbourhood, workplace)

☒

Yes

☐

No

Please provide detail: See point 9 above.

Action required:

Your Housing Group to make lettings in accordance with the LLP.

11. Could this activity be perceived as benefiting one group at the expense of another? (e.g. where your activity/decision is aimed at adults could it have an impact on children and young people)

☒

Yes

☐

No

Please provide detail:

Demand for social housing outstrips supply. Customers who do not receive preference under the LLP; those without a local connection, those not underoccupying and those without a good tenancy record may perceive the LLP to be unfair.
