3 MAIN ISSUES

KEY PURPOSE OF VISITS

- 2.1 The purpose of annual tenancy visits are to :-
- 3.2 **Meet tenants needs and expectations.** The visits will enable us to have a conversation with the tenant to discuss how they feel about their home, neighborhood and community and how satisfied they are with the service provision. This will enable us to gauge how the services we are delivering are meeting customers' needs and expectations.
- 3.3 **Proactive tenancy management.** The ATV is one element of proactive service delivery to enable us to enforce of tenancy conditions. Tenancy visits will ensure we identify homes are not being damaged, neglected or otherwise used in an obviously criminal or inappropriate manner.
- 3.4 **Customer focus and support needs.** The visits will help is to identify where tenants are need additional help and support with sustaining their tenancy. By being proactive we can offer support and assistance before an issue become more problematic. The visits enable us to ensure our customer profiling data is up to date to ensure we provide service appropriate to the neighbourhoods needs.
- 3.5 **Sub-letting / Tenancy Fraud.** The ATV's are used to confirm that each of the properties we manage is occupied by the named tenant as their principal home and has not been sublet. The visits are unannounced and as a consequence have the benefit of surprise and discovering who is actually living at the property. Where sub-letting or tenancy fraud has occurred action is taken to recover the property.

- 3.6 Evaluation of the annual tenancy visit process and the formation of the single Housing Management Service have highlighted the need to review all Housing Management Policies and Procedures to ensure quality and consistency.

In addition to the review of ATV's key in conjunction with the development of the new structure processes and procedures for letting council houses are changing to ensure we have increased information and understanding of new tenants housing and support needs, there is a new emphasis on highlighting responsibilities to new tenants with regard to their home and neighborhood, all new tenants will be visited at the start of their tenancies and there will be a formal review before 6 months. In addition all Contractors undertake tenancy verification and referral to the housing officer if there are any concerns.

PERFORMANCE

- 3.7 In 2013/14 73.08% of council tenants received an ATV. Between April 2014 and June 2014 20.90% of tenants had received a visit, all tenants will have been visited by March 2015. A performance report is attached as appendix 2.
