

Protecting the Public Purse

Fraud Briefing 2014

Leeds City Council

Purpose of Fraud Briefing

Provide an information source to support councillors in considering their council's fraud detection activities

Extend an opportunity for councillors to consider fraud detection performance, compared to similar local authorities

Give focus to discussing local and national fraud risks, reflect on local priorities and the proportionate responses needed

Be a catalyst for reviewing the council's current strategy, resources and capability for tackling fraud

Understanding the bar charts

Outcomes for the first measure for your council are highlighted in yellow in the bar charts. The results of your comparator authorities are shown in the green bars.

Outcomes for the second measure for your council are highlighted as a green symbols above each bar. The results of your comparator authorities are shown in the white triangles.

A '*' symbol has been used on the horizontal axis to indicate your council.

All data are drawn from council submissions on the Audit Commission's annual fraud and corruption survey for the financial year 2013/14.

In some cases, council report they have detected fraud and do not report the number of cases and/or the value. For the purposes of this fraud briefing these 'Not Recorded' records are shown as Nil.

Interpreting fraud detection results

Contextual and comparative information needed to interpret results

Detected fraud is indicative, not definitive, of counter fraud performance (*Prevention and deterrence should not be overlooked*)

No fraud detected does not mean no fraud committed (*Fraud will always be attempted and even with the best prevention measures some will succeed*)

Councils who look for fraud, and look in the right way, will find fraud (*There is no such thing as a small fraud, just a fraud that has been detected early*)

Total detected cases and value 2013/14 (Excludes Housing tenancy fraud)
