

Draft Leeds Strategic Recovery Plan

1 Purpose of this report

- 1.1 To take stock of recovery activity to date and consolidate into an early draft of a Strategic Recovery Plan for the City, so that services, councillors and partners can contribute to develop and deliver the plan.

2 Background information

- 2.1 Storm Eva hit the city and beyond on 26th December 2015. The detail of the current position is contained in the main Executive Board paper being considered at the council's Executive Board on 20 January 2016.

3 Developing a Strategic Recovery Plan

- 3.1 The recovery process to date has been done within the context of the West Yorkshire Resilience Forum and with key partners on a bilateral/issue specific basis locally. A Council Recovery Group is in place to help lead recovery and the current position is described in the Executive Board Report. A draft Strategic Recovery Plan is attached and will be developed and delivered by a Leeds Strategic Recovery Group.
- 3.2 The draft plan proposes some aims/objective and covers issues for the short/medium/long term. It is deliberately high level and relatively simple; though clearly there will be more detail underneath on some of the specific actions. The headings are drawn from best practice/guidance and experience of other councils. Inevitable each theme is interlinked, but we have used the following headings:
- Community
 - Business
 - Infrastructure
 - Comms/PR
 - Prepare
- 3.3 Significant additional detail and context is in the Executive Board paper, for example about the recovery/support schemes, flood alleviation, strategic recovery and lessons learned.
- 3.4 There will be a geographic focus to some aspects of the Strategic Recovery Plan, including those areas affected by Storm Eva, but also drawing on other areas in the city previously affected by flooding or at risk.

4 Recommendations

- 4.1 Note progress, next steps and that there will be a full report back to Executive Board in March.

Leeds Strategic Recovery Plan – Storm Eva 26 December 2015

Aims and Objectives of the plan:

- Demonstrate ambition of best city, strong economy, compassionate city
- Understand and provide the best possible support to individuals, families, communities and businesses affected by the events
- Use events as an opportunity – building a positive, ambitious future for affected areas through strong city leadership
- Ensure coherence across partners acting on recovery, seeing the bigger picture and making the best use of resources and efforts
- Use the event to learn lessons for the future

No.	Action/Timeframe	Lead (named person)	Status/Commentary
