Subject: Support for Silks SEV License Renewal

I am writing to you with reference to the renewal of the SEV License for Silks Club, 2 Sovereign Place, LS1 4SP. I support the renewal of the license. I note that there have been people trying to organise a campaign to write to yourselves against Silks. I find this interesting as the documentation that they will present contains statements based on reports which have been withdrawn. The fact that the people organising the campaign against Silks are willing to send in information making claims about sexual violence and other criminal offences suggests they do not care about legitimate information but they are just pressing their agenda without any worries about the truth.

I would also point out that they are claiming that SEVs create no go areas, however considering the study by Kent and Loughborough University people will walk past SEVs without noticing them and most people are not aware of the clubs. So whilst there may be a campaign against Silk it is based on lies and moral perceptions.
