Patrick I would like to object to the above.

I have had complaints from people who live in the flats at the back of Papa Johns about the proposal to extend opening hours.

The objections are as follows:

1. The employees sit at the back smoking in fact some sit on bedroom window sill.
2. They make a noise talking to the extent people in the flats can hear the conversations.

The proposed extension of hours will mean the residents will be disturbed until the early hours of the morning which they find unacceptable.

Regards

Judith Chapman
