Site Allocations Plan Document

Issues requiring consideration

Detail	The approach of allocating a significant proportion of the housing requirement for the ONE HMCA as part of a new settlement, rather than 'pepper potting' smaller allocations across a variety of existing villages in the area, has not been properly justified. Many of the settlements in this HMCA are similar in terms of character and infrastructure provision to those in other HMCAs where extensions to existing settlements have been proposed. It would also be likely to have a lesser impact on the total amount of green belt, as existing PAS land could be allocated.
Response	The Housing Background Paper Addendum sets out the justification for allocating a new settlement in the Outer North East HMCA. This explains why this approach is considered to be the most appropriate strategy for this HMCA when considered against reasonable alternatives.
Action	No change.
Detail	Guidance on the consideration of climate change has been updated with the release of new climate change allowances in February 2016. Our expectation is that the latest climate change allowances will be used in the work to demonstrate how climate change has been taken into consideration in the preparation of the Site Allocations DPD in accordance with NPPF/NPPG.
Response	Noted. The Minimum Development Control Standards for flood risk are being updated to take account of revised climate change allowances, and a reference is to be added to the SAP.
Action	Add a reference to paragraph 2.51 to refer to the Minimum Development Control Standards for Flood Risk being updated to take account of revised climate change allowances.
Detail	It would be sequentially preferable to use existing UDP PAS sites in the first instance, before looking to green belt land.
Response	The quantity of housing required in Leeds means that both safeguarded and Green Belt land need to be allocated over the plan period. It would be inappropriate to rule that safeguarded land always gets released before Green Belt land as site specific and locational circumstances may make some Green Belt land more sustainable than safeguarded land. The phasing of release needs to be consistent with Core Strategy Policy H1 which expects a range of factors to be taken into account.
Action	No change.
Detail	North East of Wetherby is prone to flood risk. Map enclosed.
Response	Noted. A Flood Risk Background Paper has been prepared which explain how flood risk has been taken into account through the preparation of the Plan.
Action	No change.
Detail	The proposed new area of Green Belt adjacent to the proposed East of Wetherby housing allocation (HG2-226), does not follow logical boundaries. The proposed Green Belt boundary tightly follows the site boundary of HG2-226. Consequently, the new Green Belt boundary includes a thin slither of land between the site and the A1(M) and a small parcel to the north of the site adjacent to the Harrogate Borough Council administrative boundary (Harrogate BC has no Green Belt directly to the North of Wetherby). These areas do not fulfil the function of Green Belt land. The substantial existing development at Wetherby Secure College of Learning (HMYOI Wetherby) is also proposed to be included within the new Green Belt.
Response	When defining new Green Belt the NPPF states that local authorities should define boundaries clearly using physical features that are readily recognisable and likely to be permanent and they should not include land which it is unnecessary to keep permanently open. Following reassessment of the site it is considered that the HMYOI Wetherby land does not meet the criteria to be included within the Green Belt and the existing main road around the wider site form more logical and recognisable boundaries to the new area of Green Belt.
Action	Redraw the proposed new Green Belt boundary to follow clear physical boundaries and exclude HMYOI Wetherby
Detail	The liaison with Harrogate is unclear other than confirmatory and does not demonstrate any consideration of cross boundary options in terms of land put forward in respective SHLAAs (for instance Land North of Racecourse Approach – Harrogate Site Ref OC4) and how such could contribute to strategic objectives for both authorities. The requirement to maximise the effectiveness of the SAP has not been demonstrated nor the requirement to plan positively for the area.
Response	The Council has worked closely with Harrogate Borough Council, and other neighbouring authorities, in the preparation of the Plan. Details of this are provided in the Duty to Cooperate Background Paper.
Action	No change.

Site Allocations Plan Document

Detail	Harrogate Borough Council are currently working with Highways England to understand impacts on and solutions for junction 47 of the A1(M). Wetherby Road in Harrogate has also been identified as having capacity issues when background traffic, commuted development and Harrogate's local plan growth scenarios are taken into account. They would find it useful to understand the additional trips likely to be generated by the proposed allocations in Outer North East Leeds so that these can be taken into account, and suggest that discussion with North Yorkshire County Council (as the highways authority) may also be helpful.
Response	Noted. The Infrastructure Background Paper section on Transport takes into account the cumulative impact of proposed sites on the highway network. Commitments have been made through Duty to Cooperate to consider the combined traffic impacts of proposed development in neighbouring local authorities and undertake joint traffic modelling work on certain transport corridors. At planning application stage individual developments may be required to assess impacts and make appropriate mitigation measures, including in neighbouring local authority areas.
Action	No change.

Appendix 2:

Divide the policy into sub-sections as shown:

POLICY MX2-39 – PARLINGTON

1. AN AREA OF LAND FOR A NEW SUSTAINABLE SETTLEMENT HAS BEEN IDENTIFIED AT PARLINGTON (SEE PLAN EDGED ORANGE (PROVIDING FOR UP TO 5,000 HOMES)). WITHIN THE PLAN PERIOD, THAT PART OF THE SITE EDGED RED IS ALLOCATED FOR THE FIRST PHASE OF THE NEW SUSTAINABLE SETTLEMENT (C 1,850 DWELLINGS) (113HA) AND 5HA OF GENERAL EMPLOYMENT.
2. LAND FOR SUBSEQUENT PHASES OF THE NEW SUSTAINABLE SETTLEMENT REMAINS IN THE GREEN BELT UNLESS AND UNTIL A FUTURE REVIEW OF THE PLAN PROVIDES FOR ITS RELEASE.
3. THE PLANNING APPLICATION FOR THE DEVELOPMENT OF THE FIRST PHASE OF THE NEW SUSTAINABLE SETTLEMENT WILL BE ACCOMPANIED BY:
 - (a) A COMPREHENSIVE DEVELOPMENT BRIEF AND CONCEPT MASTERPLAN, PROVIDING THE DETAILED GUIDANCE FOR PHASE ONE, TOGETHER WITH
 - (b) THE CONTEXT OF THE COMPREHENSIVE DEVELOPMENT OF THE LAND WITHIN THE LAND EDGED ORANGE.

TO BE APPROVED BY THE LOCAL PLANNING AUTHORITY AS PART OF THIS APPLICATION PROCESS.

4. SUCH APPLICATION SHALL ALSO BE ACCOMPANIED BY:
 - (a) A MASTERPLAN,
 - (b) AN OUTLINE DESIGN CODE AND,
 - (c) AN INFRASTRUCTURE DELIVERY PLAN IN RESPECT TO PHASE 1.

THESE DOCUMENTS WILL ADDRESS THE SITE REQUIREMENTS IDENTIFIED FOR MX2-39 WITHIN THIS POLICY.

5. SUBSEQUENT PLANNING APPLICATIONS (INCLUDING RESERVED MATTERS), IN RELATION TO PHASE 1, SHALL BE INFORMED BY:
 - (a) THE DOCUMENTS APPROVED AS PART OF THE PLANNING APPLICATION FOR PHASE
 - (b) DETAILED DESIGN CODES WILL BE PREPARED AS NECESSARY FOR DETAILED APPLICATIONS/RESERVED MATTERS.

Site Requirements (MX2-39):-

Phase 1 of the new sustainable settlement should successfully combine the built environment and the natural environments and develop a high quality of place in line with garden village principles. Provision for a school, new centre (delivered in accordance with Policy P7 of the Core Strategy), offering a range of supporting retail and commercial uses/services (in line with Policy P2), new community greenspaces, enhanced public transport and footpath and cycle links and appropriate supporting infrastructure and services should all be integral to Phase 1.

In accordance with Core Strategy Spatial Policy SP9 and Policy E1, provision of approximately 5ha of general employment land is anticipated to support Phase 1.

- Highway Access to Phase 1:
Two points of access should be provided, with the primary access being from Aberford Road.
- Local Highway Network:
Impacts are predicted on strategic and local road networks. A comprehensive masterplanning and transport planning exercise will be needed to confirm the details of the road network and public transport enhancements needed. Mitigation works should be carried out in accordance with the findings of the assessment work.
- Public Transport Access:
The site layout should enable public transport services to be diverted through the Phase 1. The development should provide improved links to Garforth train station(s). This includes enhanced cycle links and a frequent shuttle bus service (to meet Core Strategy accessibility standards).
- Ecology:
Ecological impacts of the development will require appropriate mitigation and an ecological assessment will be required. Biodiversity buffers (not private garden space) will be provided along the boundaries of the site. The existing areas of trees and woodland along the site boundaries should be maintained as far as possible and enhanced where necessary to screen the development and integrate it into the surrounding landscape.
- Greenspace:

Provision of a wide range of new community green spaces/typologies will be provided on the site. These greenspaces are to be identified through a comprehensive development brief and masterplan for Phase 1.

- **Listed Buildings:**

Parts of Phase 1 are in the setting of Listed Building(s). Any development in those parts should preserve the special architectural or historic interest of Listed Buildings and their setting. Whilst lying outside of the site boundary, the rural character of the approach towards the Grade II* Triumphal Arch is important to its setting and will need to be respected as part of any development proposals. The setting of Park House Farm House, and the woodland setting to Gardens House, are also important to their significance and will need to be responded to through measures to be incorporated in the development brief and masterplan relating to Phase 1.

- **Conservation Area:**

Parts of Phase 1 may affect the setting of the Aberford Conservation Area. Any development should preserve or enhance the character or appearance of the Conservation Area. Separation must be maintained between Phase 1 and the Conservation Area to maintain its special linear character and rural setting.

- **Education Provision:**

School provision will need to be provided on site at an early stage of the development to be approved by the Local Planning Authority as part of the Infrastructure Delivery Plan supporting Phase 1.
