

Hi Angela,

Per our telecom just now. I'm comfortable with this as it deals with PRow's target for converting 'claimed' paths into 'definitive' paths. However, I think you should consider asking for a commuted sum for the long term maintenance of new definitive paths if that option is available to you.

Cheers,

Phil

Good morning Phil

I am in the process of writing a report for Management team for the Declaration of a Footpath at Fieldhead Carr Primary School Between Naburn Approach and White Laithe Approach, Whinmoor. I am dealing with Amy Smith from Projects Programmes & Procurement Unit, although the land is actually vested with Communities and Environment, as such I will need someone from Parks to agree to the declaration. Is this something you would deal with? If so, are you happy for me to go ahead with the Declaration? I have attached a map showing the route. If the declaration is made, this office would be responsible for the maintenance of the footpath. I have consulted with 3 Councillors and received a positive reply from Councillor Gruen who supported the proposed.

If you need any further information just give me a ring and we can discuss.

If you are happy to go ahead with the declaration, can you send me an email to that effect and I can add it to my report.

Thank you

Kind regards
