### Equality, Diversity, Cohesion and Integration Screening

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions. Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being/has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

☐

**Other**

**If other, please specify**

#### 2. Please provide a brief description of what you are screening

I am screening a Delegated Decision report to the Director of Adults and Health requesting approval to utilise six month extensions available on two contracts held with St. Anne's Community Services.

One of these recommendations is to utilise the six month extension to the current contract held between Adult Social Care and St. Anne's Community Services for the provision of the residential alcohol rehabilitation service.

The second of these recommendations is to utilise the six month extension to the current contract held between Public Health and St. Anne's Community Services for the provision residential alcohol detoxification service.

Both of these current contracts expire on 30<sup>th</sup> September 2017, and with the proposed These extensions are being requested in order to ensure continuity of service whilst further work is undertaken to explore alternative funding sources and determine commissioning options for the service.

### 3. Relevance to equality, diversity, cohesion and integration

All the council's strategies/policies, services/functions affect service users, employees or the wider community – city wide or more local. These will also have a greater/lesser relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation. Also those areas that impact on or relate to equality: tackling poverty and improving health and well-being.

Questions	Yes	No
Is there an existing or likely differential impact for the different equality characteristics?		X
Have there been or likely to be any public concerns about the policy or proposal?		X
Could the proposal affect how our services, commissioning or procurement activities are organised, provided, located and by whom?		X
Could the proposal affect our workforce or employment practices?		X
Does the proposal involve or will it have an impact on <ul style="list-style-type: none"> <li>Eliminating unlawful discrimination, victimisation and harassment</li> <li>Advancing equality of opportunity</li> <li>Fostering good relations</li> </ul>		X

If you have answered **no** to the questions above please complete **sections 6 and 7**

If you have answered **yes** to any of the above and;

- Believe you have already considered the impact on equality, diversity, cohesion and integration within your proposal please go to **section 4**.
- Are not already considering the impact on equality, diversity, cohesion and integration within your proposal please go to **section 5**.

### 4. Considering the impact on equality, diversity, cohesion and integration

If you can demonstrate you have considered how your proposals impact on equality,

diversity, cohesion and integration you have carried out an impact assessment.

Please provide specific details for all three areas below (use the prompts for guidance).

• **How have you considered equality, diversity, cohesion and integration?**  
(**think about** the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

Both of these six month extensions with St Anne's are being requested to ensure continuity of service whilst further work is undertaken to explore alternative funding sources and determine future commissioning options. During this six month period there will be no changes made to the existing service provision, and therefore no changes to any particular groups of service users or prospective service users. As part of any tender process or commissioning activity which arises out of the further exploratory work, Adults and Health will undertake detailed consultation with provider organisations, current service users, carers/significant others and people in recovery.

Consultation has taken place with St Anne's, Senior Officers from Adult Social Care and Public Health (now both under the directorate of Adults and Health) and the Executive Board Member for Health, Wellbeing and Adults. Appropriate advice has also been sought from finance and procurement colleagues.

• **Key findings**  
(**think about** any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

The majority of service users have multiple complex needs and are from priority client groups including parents (some with children at risk or in care), those who are homeless/ at risk of being homeless, affected by domestic violence or have mental and or physical health needs.

The proposed six month interim contract will not result in any changes being made to the current service. As detailed above, prior to any tender process or commissioning activity that may take place as a result of further exploratory work, consultation will be undertaken and the results from this will be reported on and published as part of this ECDI screening.

• **Actions**  
(**think about** how you will promote positive impact and remove/ reduce negative impact)

Work will continue to explore alternative funding sources and delivery models to inform the longer commissioning option(s) for this service. Equality, diversity and community cohesion will be considered as part of this process. Any new service model and specification that may be needed as a result of further exploratory work will be coproduced with service users, people in recovery and other key stakeholders.

**5. If you are *not* already considering the impact on equality, diversity, cohesion and integration you *will need to carry out an impact assessment*.**
