

Scope of additional information

The below information provides a list of primary schools that have been selected based on a range of deprivation and pupil outcome indices (informed by Fisher Family Trust, Income Deprivation Affecting Children Index and the Department of Education). Case studies for a subset of these schools have been created to support Scrutiny in their identification of schools to be visited during autumn term 2017. This subset allows for a range of contextual deprivation and other pertinent criteria to be considered.
