To whom it may concern

Re Morrison's Supermarket, 89 Otley Road, Guiseley

& are objecting to Morrison's wanting to extend their Licensing hours to become 6 00 a m to midnight There are more than enough public houses in the area to accommodate those who drink! Surely this will only lead to more drunken loutish behaviour & more vandalism, which we are experiencing already

At the moment delivery hours start from 7 00 a m, wagons turn up from 6 00 a m onwards & at times sound their horns!!!

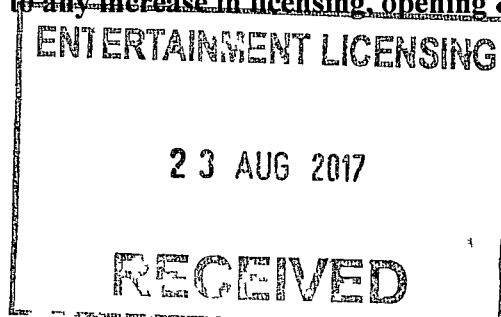

To extend their hours would be unbearable As we are fit & well we can go out for the majority of the day & miss all the noise, however, most of the residents of

midnight Monday to Saturday If the planning permission is allowed until midnight every day, this will mean Sundays will be included, what time will the floodlighting be turned off then?

The level of noise that we tolerate now is horrendous, I e gates clanging, skip wagons loading, freezer wagons leaving their engines & fridge motors running, when there is a specific sign on Morrison's

If Morrison's are allowed to extend their hours, how long will it be before they apply for longer delivery hours as they are proposing to do, following a meeting with Councillor Latty & Councillor Wadsworth on 31st July 2017 in our

We wish to register a formal objection to any increase in licensing, opening &

delivery hours beyond the existing permissions, due to unacceptable levels of noise disturbance & flood lighting in a residential area

Please consider the local residents in the neighbourhood

Yours faithfully

Dear Leeds City Council,

Ref Morrison's Supermarket, Otley Road, Guiseley

We refer to the application of Morrison's Supermarket, Guiseley, to extend their licencing hours to become 0600 to midnight

We are residents neighbouring the supermarket, yard, and we already suffer the noise of their delivery wagons, and other clattering, banging and shouting during enough hours of the day. There is an additional problem caused by their floodlighting. At present planning permission allows deliveries between 0700 and 2100 and we consider this a significant intrusion already. Furthermore, in practice the deliveries, movement within the goods yard, noise and floodlighting regularly extend beyond these allowed times.

We wish to register a formal objection to any increase in licencing, opening or delivery hours beyond the existing permissions on the grounds of unacceptable levels of noise disturbance and flood lighting in a residential area.

Please consider the peace of the residents of this neighbourhood. The houses were here long before the supermarket was built.

Yours faithfully,
