

# THE CALLS PARKLET

Visual illustrating the proposals for the Parklet using key branding references from Duke Studios. Colour and form enlighten the street scene and connect with potential art interventions in the future :

- \* Max 900mm
- 1 Min 1.2m high timber clad screening with coloured timber pixelated board pattern
- 2 Porous timber wind baffle

- 3 Herbaceous perennials, grasses and herb planting for seasonal colour and interest
- 4 Breaks within facade allow planting to spill through and improve surveillance

- 5 Painted pattern links the parklet with the road, bridge and future artworks
- 6 Angled buffer planter provide separation from car parking to include reflective paint

- 7 Pattern and form mimic building brickwork details.
- 8 ~~Scope for Calls branding painted onto facade with supporters and sponsors logos~~  
No Branding

\* advised by Gillian Macleod.

↑ this will not form part of the parklet approval .  
a separate discussion will be undertaken.
