

# **Leeds Preparing for Adulthood Strategy**

**2017-2022**  
**Easy read version**

## Getting ready for being an adult in Leeds

What people have told us  
young people with special  
educational needs and  
disabilities in Leeds want...

To have fun and make friends.

To work and be paid to  
work.

To be heard by other people  
and not be judged.

**We want all young people with special educational needs in Leeds to...**

To be able to work or go to school or college.

To be able to live on their own or live with help from other people.

To have friends and family who they can talk to near to where they live.

To be healthy when they become an adult.

# What we're going to do

Make information about special educational needs and disabilities clear and interesting.

We want young people to look after each other.

We want young people to be able to learn about doing things on their own.

Get schools and colleges to teach young people about what they want to do when they grow up.

We want young people to take part in supported internships.

We want families to learn how to help young people make choices.

We want staff who help young people to help make places as easy to get to as possible.

We want doctors and nurses to help young people with looking after their bodies.

We want young people to be able to travel on their own to school, college or work.

We want young people to have healthy minds.
