

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being/has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

2. Please provide a brief description of what you are screening

This assessment is screening the request to waive CPRs 9.1 and 9.2 to enter into a 12-month agreement. During this period officers will utilise the negotiated procedure with the intention of awarding a contract to Methodist Homes Association (MHA) for extra care services at Assisi Place and to Anchor for extra care services at The Laureates.

Extra care housing is a form of supported housing. It is usually designed to provide older people who have varying levels of care needs with a self-contained home and access to on-site care and support. While based at the sites named in the report, access to the service is citywide and open to all citizens of Leeds who meet the eligibility criteria. This criteria requires a level of assessed eligible care needs.

While this is an established service, commissioning and contracting officers work to

ensure that services remain reflective of Leeds City Councils principles and objectives.

3. Relevance to equality, diversity, cohesion and integration

All the council's strategies/policies, services/functions affect service users, employees or the wider community – city wide or more local. These will also have a greater/lesser relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation and any other relevant characteristics (for example socio-economic status, social class, income, unemployment, residential location or family background and education or skills levels).

activities (taken place or planned) with those likely to be affected)
<ul style="list-style-type: none"> • Key findings (think about any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)
