Dear Resident

Re: Consultation on Proposed Garage Demolition

Following a detailed inspection of the garages at Alandale Crescent these have been identified for potential demolition and the site cleared.

Future uses for garage sites is being looked at across the city as part of a wider project and consideration being given to potential for new housing development, landscaping or leaving as general car parking as well as a number of other options depending on the local area. Until further investigation has been done on the above site, we are not in a position to confirm the final use of the land at this stage but will keep you informed of progress on this matter.

If you are happy for us to go ahead and demolish the garages then you do not need to do anything further. However if you **do not** support the proposals or would like to make any comments please get in touch with myself on the above number or e-mail.

If we do not hear anything from you within two weeks from the date of this letter, we will assume you are in support of the garages being demolished. If you are currently renting a garage at this location and would like to be considered for another garage locally then please contact us at the above address.

Once a decision is made we will notify you of the outcome. If the garages are to be demolished we will notify you in advance of any works starting on site.

Yours faithfully

Penny Fickling
Housing Officer
