

# Equality, Diversity, Cohesion and Integration Screening

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being or has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

## 1. Title: Leeds Crematoria Improvement Works

Is this a:

Strategy / Policy

Service / Function

Other

If other, please specify:

## 2. Please provide a brief description of what you are screening

The procurement of specialist equipment and to request an injection and authority to spend £737k across the Council's managed crematoria.

### 3. Relevance to equality, diversity, cohesion and integration

All the council's strategies and policies, service and functions affect service users, employees or the wider community – city wide or more local. These will also have a greater or lesser relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation. Also those areas that impact on or relate to equality: tackling poverty and improving health and well-being.

Questions	Yes	No
Is there an existing or likely differential impact for the different equality characteristics?	x	
Have there been or likely to be any public concerns about the policy or proposal?		x
Could the proposal affect how our services, commissioning or procurement activities are organised, provided, located and by whom?	x	
Could the proposal affect our workforce or employment practices?		x
Does the proposal involve or will it have an impact on <ul style="list-style-type: none"><li>• Eliminating unlawful discrimination, victimisation and harassment</li><li>• Advancing equality of opportunity</li><li>• Fostering good relations</li></ul>		x

If you have answered **no** to the questions above please complete **sections 6 and 7**

If you have answered **yes** to any of the above and;

- Believe you have already considered the impact on equality, diversity, cohesion and integration within your proposal please go to **section 4**.
- Are not already considering the impact on equality, diversity, cohesion and integration within your proposal please go to **section 5**.

#### 4. Considering the impact on equality, diversity, cohesion and integration

If you can demonstrate you have considered how your proposals impact on equality, diversity, cohesion and integration you have carried out an impact assessment.

Please provide specific details for all three areas below (use the prompts for guidance).

• **How have you considered equality, diversity, cohesion and integration?**  
(**think about** the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

The implementation of these works will improve air quality within Leeds. Poor air quality is recognised as having disproportionately negative impacts on children, pregnant women and people with certain health conditions. Individuals most vulnerable to the effects of air pollution include:

- children
- older adults
- pregnant women
- people with existing medical conditions, especially those related to the heart and lungs

• **Key findings**  
(**think about** any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

Pollution in the air we breathe is associated with many different health impacts. It is recognised as a contributing factor in the onset of heart disease and cancer. 54 of every 1000 deaths that occur in Leeds can be linked to air pollution exposure. Improved emission levels will improve overall the air quality in the city improving liveability for those groups disproportionately effected including those with disabilities arising from health conditions that effect respiration.

• **Actions**  
(**think about** how you will promote positive impact and remove/ reduce negative impact)

Delivery of the project along with future maintenance of the equipment will ensure that sustained improvements are made to air quality in Leeds. Emissions levels at the 3 sites will be monitored to ensure that the equipment operates as intended at all times.

**5. If you are **not** already considering the impact on equality, diversity, cohesion and integration you **will need to carry out an impact assessment.****

**7. Publishing**

Though **all** key decisions are required to give due regard to equality the council **only** publishes those related to **Executive Board, Full Council, Key Delegated Decisions or a Significant Operational Decision.**

A copy of this equality screening should be attached as an appendix to the decision making report:

- Governance Services will publish those relating to Executive Board and Full Council.
- The appropriate directorate will publish those relating to Delegated Decisions and Significant Operational Decisions.
- A copy of all other equality screenings that are not to be published should be sent to [equalityteam@leeds.gov.uk](mailto:equalityteam@leeds.gov.uk) for record.
