Dear

We would like to request that the relevant Scrutiny Board scrutinise the process carried out regarding the recent consultation exercise on whether to go ahead with a designated BBQ area on Woodhouse Moor.

We received concerns from residents living in our wards who have said that they did not receive the survey in spite of living within the consultation catchment area of the Moor. We are concerned that this may have a bearing on the result of the consultation and would like you to look into it on our behalf.

Yours sincerely

Councillor Jamie Matthews
