

**Resident feedback to Gating Order review consultation**  
**Back Stratford Terrace, Beeston**

**In favour**

“We have felt very safe and protected since the alleygates are fitted.”

“The children can play safely...”

“Less cars in the street. Street used by the people who live here.”

“Children can play without worrying about cars and motorbikes driving through. I think the elders in the street feel safe.”

“The gates are definitely safer for children living in the area.”

“No longer used as a race track..”

“Anything that makes me feel safer in my home is well worth keeping.”

“We seem to have less burglaries in the street, also less car crime.”

**Opposed / have issues with gates**

“Gates always left open.”

“Question? Why have the gates been installed when the street is like a dirt track, pot holes, rough ground through the whole of back Stratford Terrace, very poor.”

“I Haven't seen any changes other than children playing in a closed prison-like atmosphere.”

“Crime to my knowledge has remained the same, as I tend to see the same suspects using the back streets. The alleygates in my opinion have made no difference, other than make the street look like a prison.”

“Children just use them as football posts.”

“Noise nuisance has increased when children are out.”
