

Teenage Pregnancy

Annex 2

The data in the table below is produced nationally by the Office for National Statistics on a three year cycle and covers the period from 2004-06. This is the most up to date ward data available. Old ward descriptors have been used as the ward boundaries in Leeds changed in spring 2004. The headline figure for Teenage Conception in Leeds for 2008 will be made available in February 2010. It is expected that the ward breakdown (using the current ward boundaries) for 2005-07 will also be available in February 2010. The 2006-08 ward breakdown data is due in November 2010.

The target is to reduce the under 18 conception rate by 55% by 2010 (compared to the 1998 baseline rate). The rates are calculated by the national Teenage Pregnancy Unit. There is a 14 month time lag in the release of conception statistics as they are partly compiled from birth registrations which may not be available for up to 11 months after the date of conception. The table below shows the ward rates for Leeds 2004-06. Numbers are aggregated over three years because at ward level numbers can vary significantly year on year. The wards have been allocated to area commit not been calculated as this would mask the variation.

Management Areas	Ward	Under 18 conception (number) (2004-06)	Under 18 conception (rate) (2004-06)	Index of Multiple Deprivation Score 2007
City wide		2049
