

**Will there be a full consultation with Leeds City Council, Road Safety Promotion Unit?**

**Will there be full consultation with the Highways Department? Could measures be taken to restrict parking at 9am and 3 15pm? Could measures be taken to stop parking on pavements and on corners?**

**Could your department liaise with The Highways Department, to find a permanent solution to this dangerous situation?**

**How can the 20mph speed limit be enforced? Will your department liaise with the police and the highways department on this important matter?**

I would very much appreciate a full and detailed answer to **all the questions** I have raised.
