

Outer West Area Committee Well Being Fund
Commissioning of Service

Project Name: Calverley Heritage Lighting

Lead Organisation: SEC

Project delivery - how will the project be delivered? (list any partners involved in the project):

The project will be delivered by SEC (PFI street lighting contractor) and will replace two standard lamp tops with heritage style substitutes.

Project Summary (include a brief description of the main activities, why the project is needed and links to key priorities):

The project is to upgrade two lampposts outside the old vicarage in Calverley with heritage style post tops in keeping with this part of the village. SEC have already completed the install of the two new columns complete with standard lanterns but this would not cause an issue as they are designed to be retro-fitted. Given that they are the only two columns on a very discrete section of road, there is no reason why heritage style lighting could not be installed and it is felt that it will enhance the appearance of this part of the village.

Outcomes (summarise the main outcome/output/benefit the project will achieve):

- Installation of street lighting which is more in keeping with the history of the village.

Project Cost. Please indicate

- £1816.14 will provide 2 x heritage lamp tops.

Identify which geographic areas will benefit:

Calverley & Farsley

How much Well Being Funding is sought and breakdown between capital and revenue)

- £1816.14 of Revenue funding is sought.

Who will be in receipt of the financial order. (name of the organisation and contact details)

- SEC (PFI street lighting contractor)
