RE: APPLICATION FOR THE PREMISES KNOWN AS NISA LOCAL

16-20 FAIRLEIGH ROAD, TINGLEY, WAKEFIELD, WF3 1PW

I am pleased to note that we have a new convenience store opening in the local community.

I am writing in full support of the application for the opening of a decent off licence as there is no other store with facilities and variety of alcohol stocked within the area which Nisa Local will be able to provide.

Having seen the store I have noticed that excellent disabled access has been put in place. This is something which is very important to myself and my family as my mother is disabled. This access will provide independence for my mother to go out and do her own shopping instead of her having to rely on others to do it for her which is something she doesn't particularly like doing. Another benefit is that the store is of a spacious size and getting round the store for my mother would make shopping a more pleasurable experience.

I trust you will take time to consider the contents of my letter and hope that you can see that the store and off licence being opened will be a most welcomed asset to the community.

Regards.
