Dear Sirs

**RE: NISA LOCAL  
16-20 FAIRLEIGH ROAD, TINGLEY, WF3 1PW**

I am writing you in support of the convenience store/off licence being opened in our local area.

I am a resident of the community and can only see the opening being of a great asset to our neighbourhood.

From my point of view the store is located a short distance from my home and would be very handy for me to do my shopping rather than having to travel a local supermarket. This would cut down on travelling expenses and time spent getting there and back.

I understand that the store is to have a good variety of goods and alcohol, something which is not available to the residents at present. It also has an excellent security system which may act as a deterrent to loiterers and trouble causers.

Finally I can only say that the store opening would have a positive affect on the local community.

I trust my comments assist you
