I am writing with my full support to the opening of the new convenience store Nisa Local within the neighbourhood.

The store is called a convenience store because that is what it will be, convenient ! There is nothing worse than having to trail from shop to shop getting your shopping and having an "all in one" shop, so to speak, right on your doorstep has to be of benefit to anyone local and in the surrounding areas.

I feel the off licence aspect of the store is an excellent idea and would serve the community well.

Again from speaking with family and friends and most definitely myself, we all agree Nisa Local will be undoubtedly be an asset to the community.

I hope my comments are taken on board and I look forward to seeing the store opened in the very near future!

Many thanks.
