30 AUG 2011

We wish to object to the application submitted by the White Swan in Kippax to vary the layout of the premises, in particular to install a bottle bar in the existing outside garage area for the sale and consumption of alcohol.

Over the years we have had problems in Kippax with youth who end up drinking too much

alcohol and ^{we} do not ^② want a recurrence of this problem by providing a bottle bar where people can buy alcohol on the streets into the early hours of the morning, causing disturbances to residents as these youths make their drunken way home.

What will they do with their empty bottles and cans? What they do now - throw them in residents gardens - drop them on pavements - break bottles leaving broken glass for children to fall on + dogs to walk through. This would be on a larger scale if licence is granted.

There are enough ^③ outlets in Kippax where people can purchase alcohol eg. Co-op, pubs & Bargain Booze all on The High Street.

Youth buy cans and bottles from these outlets and take them on Kippax Meadows and discard all their cans, cardboard and broken bottles which I from time to time have to clear into black bin liners as it becomes an eyesore and a danger to dogs and children. One more outlet of this nature would mean an increase in the discarded items.

(4)

If this outlet is allowed then I hope Leeds Council will provide a more thorough cleaning service as I for one am tired of cleaning up or walking through this mess.

yours faithfully
