Notes:

**Domain Summary:** Shows the rank, score and changes for each domain, for each year.

Indicators: Shows the score, underlying data and changes for each indicator, for each year.

Bar Chart (Score Change Across Domains): A graphical representation of the change in the domain scores between this year and last. N.B. an increase in score indicates improvement, a decrease in score indicates deterioration.

Bar Chart (Indicators 2010-2011): A graphical representation comparing the indicator scores for each year. N.B. indicators showing minimal change are represented by green bars.

Spidergram: A graphical representation comparing the domain scores for each year.

Pie Charts: Graphical representations of the weighted proportions of individual indicators falling into each band.

Data cells and pie diagrams are coloured to highlight levels of significance as used elsewhere in the index (from the City average in the case of scores or "No Change" i.e. Zero, in the case of score changes).

Whilst the concept of "significance" highlights statistically important values within a dataset it must be noted that the bands are unique to each indicator and domain for each year, or period of comparison in the case of "change".
