Map of Meanwood Priority Neighbourhood

Introduction – Meanwood Priority Neighbourhood

The Meanwood Priority Neighbourhood is made up of the Meanwood 6 estates MSOA area although has been increased to include the nearby Stonegate estate which falls into an adjacent ward and MSOA area. It is bounded to the east by Scott hall road, to the North Stainbeck Lane and Road (excepting the Stonegate area) before cutting along Woodhouse Cliffe and down through Buslingthorpe. The major estates within this neighbourhood are the Miles Hills, Beckhills, Potternewtons, Farm Hills, Sugarwells, Boothroyds and Stonegates.

Demographically, the area is becoming more diverse ethnically with 77.86% of the population being White British 5.14% Black Caribbean and 2.44% of Pakistani origin. Faith wise 60.74% of the population Christian and 3.68% Muslim. The population of this neighbourhood is also considerably younger than would be expected with 20.50% children and 50.84% under the age of 30.

33.5% of households within this area are in owner occupation and 50% rent from the local authority. Terraced housing accounts for 30% of the total housing stock and semi detached for a further 36% and 20% of stock is flat accommodation. 74% of the properties are classified as council tax band A.

Team Meanwood Delivery Groups

Community Leadership Team – This will be made up of representatives of the local community and should include Parent Governors from local schools, Representatives from local recognised TRA's, and the local business community and potentially elected community champions. This meeting would be chaired by a local elected member and the group would meet 4 times per year. The general purpose of this meeting would be to oversee the development of the Neighbourhood Improvement Plan in particular around identifying local priorities that require action, helping to measure the success of interventions and crucially to take a lead in communicating to the wider community what activities are taking place and what improvement are being made in the local area. This should improve public awareness in the partnership and ensure that it becomes responsive to public needs.

Local Management Team – This will be made up of local service providers and chaired by the Neighbourhood Manager. This group will work with the Neighbourhood Improvement Plan and drive forward operational improvements in the priority neighbourhood. Members of this group will be selected from local service providers and it is recommended that members of this group cannot also be members of the Community Leadership Team as this could create a conflict of interests.

Inner NE Area Committee – This will provide a strategic reporting mechanism for the Neighbourhood Management project and will assist in ensuring the buy in of partner agencies and signing off the project and NIP for a twelve month period. The Area Committee will receive 6 monthly progress reports on the status of the project and an annual assessment and comparison of statistics alongside each years NIP.

Breakdown and Assessment of Neighbourhood Index Comparison

Economic Activity

This has remained static at 15th in the city although there has been a slight improvement in the overall score of 6.26. This is made up of significant reductions in the numbers claiming Job Seekers Allowance (JSA) and Lone Parent Income Support with Incapacity Benefits the only one showing a very slight deterioration.

Low Income

This has continued to show improvement overall in the ranking moving from 19th to 21st overall however the score overall has shown a slight deterioration with a decrease of 4.13. The largest deterioration has come in the Households receiving in work benefits which has increased by 35 and Children in Workless Households which has increased by 22. There have been positives in this area however with both 60+ Households in receipt of benefits and Court Payment orders seeing improvements (21 and 45 less respectively) but this area remains a priority for 2012-13

Health

Health has seen the second largest improvement since 2011-12 rising 15 places to 22nd in the city with a score increase of 16.84. Improvements have been seen across all the sub domains with particular significant results in Low Birthweight and Circulatory disease mortality.

Environment

This has seen the largest rank improvement within Meanwood rising 17 places from 14th to 31st with a score increase of 19.47. Improvements are again evident on all the sub-domains with particular improvements in fly tipping (118 less incidents) and graffiti (18 less, nearly a 50% reduction). This is now scoring higher than the city average which is marked improvement and needs to be maintained which given the waste issues remaining static would seem to be achievable.

Education

This domain has also seen a significant improvement in the rankings rising 12 places from 17th to 29th overall. Within the sub domains the major improvements are around Persistent Absenteeism (falling from 12.81% to 9.84%) and Key Stage 2 attainment rising from 52.31% to 68.35%. There have also been some deteriorations with the most significant being NEET's which has dropped from 10.15% to 12.98% .

Community Safety

Community Safety in this area has got significantly worse according to these figures with the ranking dropping from 28th to 18th across the city. The worst single performing area has been acquisitive crime (91 more offences) and Community Disorders (76 more offences) but also environmental crimes (damage to property) have also got worse.

Housing

This domain has seen a significant statistical fall in ranking of 16 places from 44th to 28th. The sub domains indicate a deterioration across the board with particular decreases in Empty homes and Housing turnover with a drop in Purchase price of £19, 257 taking it back to a 2009 figure.

Neighbourhood Index 2010 Assessment

Economic Activity

This domain remains a primary concern within Meanwood despite recent improvements and is also the lowest of the overall indicators. All the sub domains are well above the Leeds average, indeed almost double in most instances. Particular sub domains requiring attention are levels of incapacity benefit (10.88% compared to 5.9%) and Lone parent income support (4.05% compared to 1.67%) with JSA also high at 7.92% (compared to 4.34%).

Low Income

As with the previous domain, this remains a significant issue within Meanwood with all aspects significantly higher than the Leeds average. In particular Children in workless households (37.58% compared to 18.88%) and households receiving in work benefits (9.16% compared to 4.85%).

Health

This is currently ranked 22nd in the city having seen a recent improvement. The major sub domain impacting here remains Cancer mortality (153.53 per thousand compared to 117.74), circulatory disease mortality is also an issue (122.44 per thousand compared to 79.13). Low birth weights are also higher here than the Leeds average but not with the same statistical significance.

Environment

This domain is now above the city average rising to 31st in the city. This does not make it any less of a priority however the challenge being to ensure the improvements continue and improve. The major sub domains to target will continue to be waste issues and fly tipping as these are the areas with the highest returns.

Education

This domain is ranked 29th in the city and many of the sub domains are worse however not by a large margin. Foundation Stage attainment stands at 47.25%, Leeds being 52.49, KS2 attainment is 68.35% with Leeds 73.09% with only KS4 showing a large discrepancy with a rate of 33.33% compared to Leeds average 50.16%. The Persistent Absenteeism is higher than the city average at 9.84% compared to 7.60% while NEETs are significantly higher at 12.98% compared to Leeds 7.58%.

Community Safety

This is the second lowest domain in the index for this neighbourhood ranked at 18th across the city. The major factors here are Community Disorders at 744 and acquisitive property crime which need to remain priorities for the next twelve months.

Housing

This domain is ranked at 28th after a recent decrease as outlined above. The major sub domains within this are average purchase price which is nearly £50K lower than the Leeds average and empty homes which is 230. It is likely that the clearance taking place in this area will have impacted heavily on this latter domain as well as that around housing turnover.

Breakdown and assessment of Community Perception Survey

This is a two year piece of work conducted by ENEHL so has not altered since 2010. The major community issues within the Meanwood neighbourhood relate to Noisy neighbours (34%) and rubbish and litter (30%) closely followed by Vandalism or graffiti (27%) and disruptive young people (24%) with drug dealing or use (21%). This clearly identifies that the major concerns in this locality continue to be based around the Crime and Environmental agendas.

In examining the illustrations detailing all responses however there is significant differences appearing within this. Litter and rubbish is clearly an issue however to approx three quarters of the respondents it is not so it could be considered that there are lines of demarcation within Meanwood where issues are more severe than others and that there has been a recent improvement. This is mirrored in the feedback relating to Disruptive Young people (not an issue for over 75% of the respondents) and drug use / dealing which again would both indicate a spatial variation and improvements that have taken place. Noisy neighbours however appears to be more of an all round issue from this regard with a more balanced graph indicating this.

Crime Statistics Breakdown and Assessment

In both the Stonegate and Chapel Allerton (CA) areas of Meanwood the indicators are positive despite the set backs indicated from the Neighbourhood Index. In all, Crime is reducing and, although there is some uncertainty at this stage around ASB in the Stonegates, the results in CA are very positive and the work is now being developed further around the Challenge and Support links to school clusters and attendance to make further reductions over the next twelve months.

Crime wise consideration must also be given to the large clearance area within the Beckhill estate. This has been damaged considerably and there have been numerous thefts of metalwork and other assorted items from the void properties which is would be expected to have had a severe detrimental effect on the crime statistics so to see a further and continued decrease is a significant positive.

Identified Priorities

- 1. Continue to improve the environment, in particular fly tipping, and waste issues.**
- 2. Continue to improve the Community safety aspects, in particular relating to acquisitive crimes and community disorders**
- 3. Reduce the NEET and Persistent Absenteeism rates**
- 4. Increasing engagement and involvement in with vulnerable families in Meanwood**
- 5. Maintain and improve wellbeing in middle aged and older adults**
- 6. Reduce the Incapacity and JSA claimaints in this area**
- 7. Improve community engagement and volunteering opportunities within Meanwood.**
