Dear Mr Al-Hariri

**Licensing Act 2003 - The Prevention of Public Nuisance**  
**Premises: 7A Crown Street, Leeds, LS2 7DA**

I refer to your recent application for a licence to carry on activities at the above premises.

The application premises is situated within a Cumulative Impact Policy Area, which requires you to submit sufficient information to satisfy this service that granting of a new licence will not add to the impact already being experienced.

Your application may increase the number of late night revelers in the area, which contains a number of residential flats in the nearby Crown Street Buildings. Therefore, there is a greater potential for public nuisance to noise sensitive occupants if this application is granted.

It is noted that you have submitted some steps that you intend to take to promote the prevention of public nuisance. Unfortunately, I do not feel that these measures will adequately address the impact from your proposals.

Therefore, Leeds City Council's environmental action service is of the opinion that your application contains insufficient information about how you intend to meet the licensing objective of the prevention of public nuisance, and we regret to inform you that we are fully objecting to your application.

If you have any questions please do not hesitate to contact me.

Yours sincerely

M Bird  
Senior Environmental Health Officer
