Intervention Plan (inc timescales)	Environmental Action Officers Report
<p>We will look at better ways for the service to clean the streets better as the mechanical "street king" often can't clean due to the vast amount of cars parked up on the estate.</p> <p>For now though, we will be starting a rolling programme again in June where we will send out letters to residents letting them know we will be in their street on a certain day and could they remove their vehicles for a couple of hours. This will allow us to get the gully team, litters pickers, bulk team and street kings to clean the street.</p>	<p>While out in the area the main issues identified are blocked gullies and litter on the street and refuse bins left on streets. We have issued section 46 legal notices on domestic properties who have been leaving the bins out in the streets on non collection days and fixed penalty notices have be issued to repeat offenders.</p> <p>Over the next 6 months we will be visiting the area weekly to identify properties that have already been issued legal notices and issue fines where offences still persist. We will issue more enforcement notices to the rest of the EIZ where required.</p> <p>With regards to litter and blocked gullies we will walk the EIZ regularly and report issues to our streets staff.</p>
<p>We will also be door knocking with local residents and Councillors advising the community on environmental matters in the area, and give them useful numbers like the bulk collection and missed bin collection number. We will also let residents know about the keep Harehills tidy campaign.</p>
