# Equality, Diversity, Cohesion and Integration Screening

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions. Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being/has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

## 3. Relevance to equality, diversity, cohesion and integration

providing more space for community activities.

All the council's strategies/policies, services/functions affect service users, employees or the wider community – city wide or more local. These will also have a greater/lesser

relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation. Also those areas that impact on or relate to equality: tackling poverty and improving health and well-being.

- Are not already considering the impact on equality, diversity, cohesion and integration within your proposal please go to **section 5**.

## 4. Considering the impact on equality, diversity, cohesion and integration

If you can demonstrate you have considered how your proposals impact on equality, diversity, cohesion and integration you have carried out an impact assessment.

Please provide specific details for all three areas below (use the prompts for guidance).

• How have you considered equality, diversity, cohesion and integration? (think about the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

Services delivered from the centre will target minority ethnic communities, isolated and vulnerable people, unemployed and people on low incomes and people suffering domestic abuse. The centre will bring people from different communities together, promoting community cohesion.

### Key findings

**(think about** any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

The centre is based in an economically deprived area with a large minority ethnic population and higher than average levels of social issues such as isolation and vulnerability, worklessness, low paid jobs and people suffering domestic abuse. Services delivered from the centre will target these groups as well as providing for the wider community having a positive impact on the high incidence of deprivation in the area.. Outputs from the external funder specifically target these groups.

#### Actions

(think about how you will promote positive impact and remove/ reduce negative impact)

Services will be delivered targeting minority ethnic communities, isolated and vulnerable people, unemployed and people on low incomes and people suffering domestic abuse. Usage by such groups will be recorded and monitored. It is important to note that the centre will open to everybody.
