

COUNCIL MEETING – 12TH SEPTEMBER 2018

NOTICE OF:	Reference No:	Date Received:	Date Forwarded:
White Paper Amendment	A1 to WP1	10/9/18	11/9/18

Submitted by:	Councillor Stewart Golton
Relevant Board/Regulatory Panel:	Executive Board
Executive Member/Chair:	Executive Member (Learning, Skills & Employment)
Relevant Director	Director of Children and Families

To amend the motion by:

Inserting an additional paragraph, after “must try harder” at the end of paragraph four, to read:

“This Council is dismayed that despite being urged strongly to do so voluntarily at Executive Bards in April 2017 and June 2018 in discussions on successive Annual Standards Reports, this administration has offered no policy initiatives to halt its worsening performance”

The amended motion would then read:

“This Council believes that schools, teachers and pupils in Leeds are working hard to improve outcomes, and wishes to congratulate everyone who succeeded in their exams this year. However Council believes that there is a fundamental lack of ambition from the Council at a strategic level that is continuing to fail many young learners.

At Key Stage 2 the percentage of pupils in Leeds reaching the expected standard in reading, writing and maths has improved, but the pace of change is painfully slow, leaving Leeds still lagging behind national averages across many groups and measures.

Vulnerable learners in Leeds fare worse than their peers nationally. The attainment gap at Early Years between disadvantaged pupils in Leeds and non-disadvantaged pupils nationally was 26 percentage points in 2016 and 2017, whilst at Key Stage 2 the gap was even worse. SEN pupils in Leeds performed less well than SEN pupils nationally across all categories in 2016-17.

Council acknowledges the challenges involved in improving performance, but believes that for too long this administration has neglected the education side of children’s services. A Council aiming to be the best in the UK should be looking to exceed, not merely reach, national averages, yet a report card of the administration’s efforts over the last 8 years would surely read “must try harder”.

This Council is dismayed that despite being urged strongly to do so voluntarily at Executive Boards in April 2017 and June 2018 in discussions on successive Annual Standards Reports, this administration has offered no policy initiatives to halt its worsening performance.

This Council therefore calls on the Director of Children and Families to bring a report to Executive Board setting out the steps necessary to make urgent and sustained improvement to education standards at all levels in the city.”
