

Equality, Diversity, Cohesion and Integration Screening

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being/has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

If other, please specify

2. Please provide a brief description of what you are screening

The Council Housing Growth Programme has set itself a challenging target to deliver a minimum of 300 new council homes a year going forward on an ongoing basis as part of our direct contribution to an overall affordable housing target of 1,230 homes p.a. across the city from 2019.

This will be achieved predominantly via a substantial new build programme, but will also be complemented by a smaller programme of property acquisitions – with an initial focus on former council properties bought under the right to buy regime, including those to which the statutory right of first refusal regime applies.

The Council Housing Growth Programme began mobilising a small workstream to consider potential property buy backs in late 2018 and have since delivered a small pilot project which has considered approximately 90 properties and repurchased, or

is in the process of repurchasing, 18 to date.

The learning from this initial tranche of acquisitions has informed the development and establishment of the supporting processes, resources and governance arrangements required to now commence the programme in earnest.

The reacquired properties will be reintroduced to council housing stock to be let to council tenants.

Housing has been identified as one of the Best City priorities and this programme will directly support the following priorities;

- Housing of the right quality, type, tenure and affordability in the right places
- Minimising homelessness through a greater focus on prevention
- Tackling fuel poverty

The programme will also directly contribute to the achievement of a number of the key performance indicators the Council will use to measure success including;

- Growth in new homes in Leeds
- Number of affordable homes delivered
- Improved energy and thermal efficiency performance of houses
- Number of households in fuel poverty

3. Relevance to equality, diversity, cohesion and integration

All the council's strategies/policies, services/functions affect service users, employees or the wider community – city wide or more local. These will also have a greater/lesser relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation. Also those areas that impact on or relate to equality: tackling poverty and improving health and well-being.

Please provide specific details for all three areas below (use the prompts for guidance).

How have you considered equality, diversity, cohesion and integration?

(think about the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

Key findings

(think about any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

Actions

(think about how you will promote positive impact and remove/ reduce negative impact)
