

Making Leeds the best city to grow old in

Age Friendly Leeds Strategy and action plan 2022 - 2025

Strategy

Context

The ambition for Age Friendly Leeds is to be the Best City to Grow Old in: a place where people age well - where older people are valued, feel respected and appreciated, and are seen as the assets they are.

'Age Friendly Leeds' is one of the eight interconnected priority areas of work set out in the Best Council Plan 2020-2025 that flow in particular from Leeds' three main cross cutting strategies: Inclusive Growth, Health and Wellbeing, and Zero Carbon.

Our Inclusive Growth Strategy sets out how Leeds City Council, the private sector, universities, colleges and schools, the third sector and social enterprises in the city will work together to grow the Leeds economy ensuring that everyone in the city contributes to, and benefits from, growth to their full potential. It recognises the need to support older workers to remain in fulfilling work and accommodate both changing health needs and caring responsibilities.

The Joint Strategic Assessment 2021 brings together data and intelligence to look at the current and future health and social care needs of people living in Leeds. Its purpose is to shape priorities and guide health commissioning, wellbeing and social care services and service strategies. It helps us to better understand the wider determinants of health and 'post' pandemic needs and opportunities enabling planning for the future.

Our Health and Wellbeing Strategy is about how we put in place the best conditions in Leeds for people to live fulfilling lives – a healthy city with high quality services. 'An Age Friendly City where people age well' is a priority in our Health and Wellbeing Strategy.

The Age Friendly strategy and action plan builds on previous work and is shaped by a long history of consultation and engagement going back to 1994 when Leeds Older People's Forum came into existence. Ensuring Leeds is an age friendly city has been identified as a priority area by older people themselves. Consultation and engagement over the years includes:

- March 2015 - a workshop to engage older people and stakeholders from a wide range of organisations across the public, private and third sector in the development of the Best City to Grow Old in breakthrough project using outcome-based accountability methodology as a framework for discussion. The outcomes from these workshops formed the basis of the Best City to Grow Old in action plan, 2015 – 2019.

- June/July 2016 – A workshop and follow up questionnaire to ask older people and housing providers to think broadly about housing and housing support needs for today and for future generations of older people to support the development of an older person’s housing strategy.
- June - September 2016 - consultation with 176 older people around Leeds (via focus groups and written questionnaires) using questions relating to each of the World Health Organisations domains. This was undertaken by Time to Shine in preparation for a new Age Friendly Charter for Leeds.
- June 2017 – A workshop with older people to explore older persons housing requirements to feed into the Strategic Housing Market Assessment and complement the household survey and stakeholder consultation.
- June/July 2017 – A series of workshops with older people to identify the different challenges and aspirations around travel for people in later life in Leeds to inform the scoping of new community transport and volunteer driver options.
- October/November 2019 – A series of engagement events with older people across the city to understand what matters to older people and their understanding of frailty and healthy ageing.
- December 2021 – Publication of: The State of Aging in Leeds: What life is like for people aged 50 and over in Leeds. This report sets out data and stories about what it's like to grow older in Leeds. The report supports individuals and organisations across Leeds to consider priorities for change to make Leeds Best City to grow old in.
- December 2021 – Consultation with 44 Leeds residents aged between 50 and 102 (via online, telephone and focus groups) with a range of questions to understand people’s experiences and priorities around ageing in Leeds. The consultation also looked to gather views on the State of Ageing in Leeds report findings. The findings of the consultation supported the development of the Age Friendly action plan objectives.

Why is it important?

The State of Ageing in Leeds (2021) report has highlighted some of the key data in Leeds demonstrating what life is like for people aged 50 and above living in the city and comparing this to the national data. The report shows that around one in three people living in Leeds is aged 50 and above. We have a growing older population where in the next twenty years the

number of people aged 80 and above living in the city will increase by 50%. A number of key aspects related to our age friendly framework are explored:

- Life expectancy for males in the city is 78 and females can expect to live to age 82.
- Around 70% of people aged over 50 live in owner occupied homes, with the remaining living in social housing and private rented sector. The majority of people aged 65 and above would like to stay in their own home.
- One in four workers in Leeds are aged 50 and above.
- Data shows in West Yorkshire more than 50% of people aged 65 and above will use the bus services at least once a week. Uptake of bus passes in Leeds is 80% but can drop to 60% or less in some of the most deprived areas.
- Around one in eight households will have a person aged 65 or above living in them or living alone.
- 8,500 people aged 65 and above live with dementia.
- People from Black and Minority Ethnic backgrounds living in the most deprived parts of Leeds become frail 11 years earlier than white counter parts living in the least deprived areas.

The opportunities and challenges presented by an ageing population are well rehearsed. Older people contribute in countless ways to Leeds' rich and vibrant communities – through the skills and knowledge that they bring to their local communities, high levels of volunteering, acting formally and informally as community connectors, intergenerational interactions, unpaid caring roles, and through the skills and experience they bring to their workplaces.

However, we also know that many older people are also more likely to have multiple long-term health conditions with inequalities disproportionately affecting the poorest in our city. Inequalities in older age are cumulative and have a significant impact on a person's health, wellbeing and independence. As the baby-boomer generation grows older, there will be a range of implications for public sector service provision.

Our ambition requires a 'Team Leeds' approach.

Our approach

Our approach to achieving our ambition to be the best city to grow old in is a citizenship approach, applying to the entire population. This approach:

- Places older people at the heart of the strategy

- Ensures that there is a strong focus on social networks within neighbourhoods and the city
- Promotes social capital and participation
- Age-proofs and develops universal services
- Tackles inequalities and reduces social exclusion
- Aims to change social structure and attitudes
- Responds to data, intelligence and recommendations made in relevant local and national reports such as the State of Ageing in Leeds report to ensure actions are evidence based and respond to new and emerging needs of what matters to older people
- Recognises the impact that Covid has had on older people and the support that is needed for physical and mental wellbeing as we recover from the pandemic
- Ensures the views and needs of older people are accounted for across the city
- Links with the Marmot City work to give an age friendly perspective.

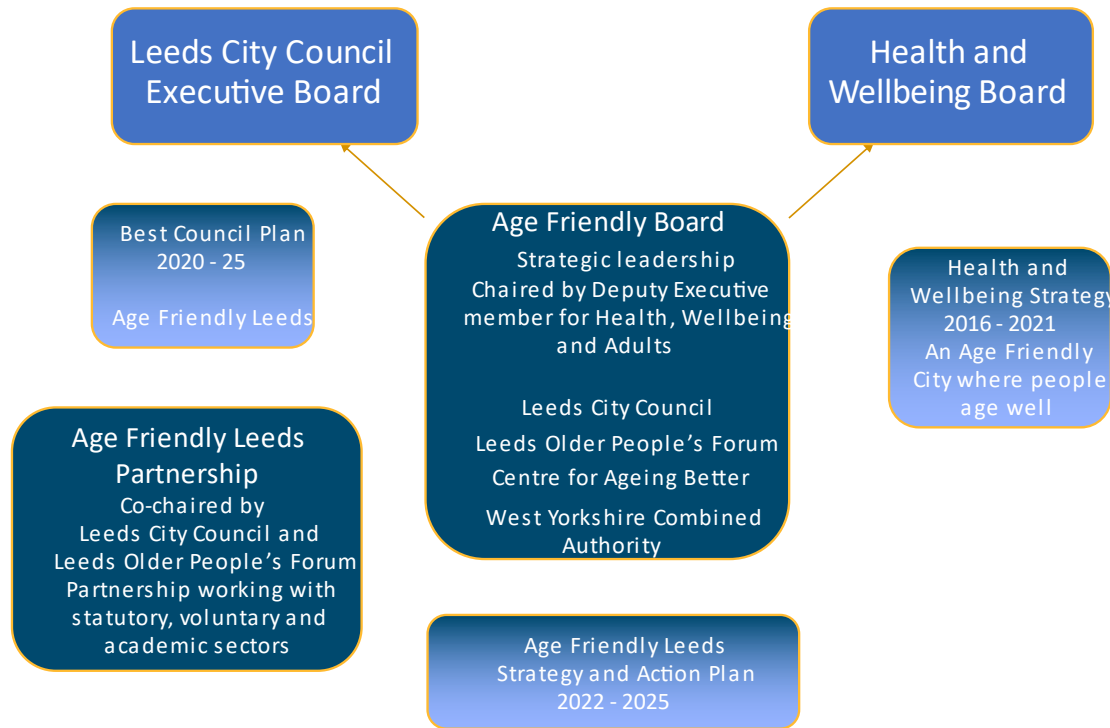

Governance – The Age Friendly Leeds Board (AFLB)

The board is chaired by the Deputy Executive Member for Adults and Children’s Social Care and Health partnerships. Its role is to:

- Provide the political leadership and set the strategic direction for the Age Friendly Leeds work programme.
- Undertake the role and responsibilities set out in the MoU signed with the Centre for Ageing Better.
- Build on existing work around older people.
- Co-produce services with older people to ensure they are involved at every stage including design and delivery.
- Ensure the objectives of the Age Friendly Action Plan are being met.
- Provide strategic direction and guidance to domain leads to ensure the needs of older people are being met.
- Respond to data, intelligence and recommendations made in relevant local and national reports such as the State of Ageing in Leeds report to ensure actions are evidence based and responding to new and emerging needs.

Membership includes the representatives from the Council, Leeds Older People’s Forum, the Centre for Ageing Better and West Yorkshire Combined Authority and reports to both the Executive Board and the Health and Well Being Board where appropriate. This work is also part of the Leeds Health and Care programme on improving population level outcomes for people living with frailty.

Governance

The Age Friendly Leeds Partnership (AFLP)

The partnership is co-chaired by Head of Public Health (Older People), Leeds City Council and the Chair of Leeds Older People's Forum. It brings together statutory, voluntary and private sectors to:

- Address the priorities identified by older people in relation to making Leeds an age friendly city.

- Build awareness of age friendly priorities and actions.
- Assess how age friendly the city is against the World Health Organization's eight Age Friendly domains
- Support age friendly initiatives in our communities and other broader initiatives which help us to work towards Leeds becoming an age friendly city.
- Support staff training and development, including increasing awareness of the issues around ageing so that they can improve their services and plan their own 'Ageing Well'.
- Developing key linkages with other groups that enhance health and social care services for older people e.g., integrated health and social care, and mental health.
- Work to challenge and remove the structural and social barriers faced by older people to independence, inclusion and equality.

The AFLP is made up of members each with their own functions and responsibilities. It provides a focus for the agreement of shared action and constructive challenge to make sure that there are improved outcomes for developing a systems-wide approach to becoming an age friendly city. The AFLP meets quarterly and reports on key successes and challenges to the Age Friendly Leeds Board and the Health and Wellbeing Board. Each meeting is themed around a topic from this action plan.

Age Friendly Leeds Partnership members: Age UK Leeds | Care and Repair Leeds | Centre for Ageing Better | Feel Good Factor | Groundwork Leeds | Leeds Beckett University | Leeds City Council | Leeds Older People's Forum | Leeds Dementia Action Alliance | University of Leeds | West Yorkshire Combined Authority | West Yorkshire Playhouse

Membership is open to any organisation that has an interest in and is committed to making Leeds an age friendly city.

National and International Partnerships

The Centre for Ageing Better selected Leeds as a partner and in October 2017 entered into a five-year partnership agreement with the Council and Leeds Older People's Forum (LOPF).

The purpose of the partnership is to enable Leeds:

- to adopt evidence-based practice,
- to pilot innovative approaches and
- to generate new evidence of 'what works' for ageing well that can be disseminated locally, regionally, nationally and internationally by Ageing Better, LCC, LOPF and other stakeholders.

The initial priorities for this partnership were transport, housing and communities and neighbourhoods. Since then, partners have worked on system wide work such as the State of Ageing in Leeds. Outputs from the partnership can be found at <https://ageing-better.org.uk/leeds>

The partnership is governed by an annual Memorandum of Understanding Review and managed by a quarterly steering group. It is one of only three partnerships that Ageing Better has established with local areas, with the others being in Greater Manchester and Lincolnshire.

Leeds is a member of:

- UK Network of Age Friendly Communities - a group of communities from across the UK that are collaborating to bring about change in the way that we respond to population ageing. Managed by the Centre for Ageing Better.
- World Health Organisation (WHO) Age Friendly Cities - established to foster the exchange of experience and mutual learning between cities and communities worldwide.

Get involved

Think about what you can do as an individual at home or at work, or what your organisation can do to make Leeds an age friendly city. Everyone can contribute to making Leeds the best city to grow old in.

Action Plan

The action plan is structured around six topic areas adapted for Leeds from the Age Friendly City domains developed by the World Health Organisation:

- Housing
- Public and Civic Spaces
- Travel and road safety
- Active, included and respected
- Healthy and independent ageing
- Employment and learning

For each topic area we have:

- Outcomes – what we want our end result to be
- Objectives – What we are focusing on to achieve our outcomes
- Older People’s Expectations – what older people have told us they expect from an Age Friendly Leeds

These are set out in the table on pages 10 – 12.

The action plan has been informed by the [State of Ageing in Leeds](#) report, insight from engagement with older people and a number of Leeds strategies. Cross cutting themes across all the topic areas are:

- Effective communications – providing information about services and activities in a range of formats that older people can easily access, and which suit their needs.
- Access to digital technology – help and support for people who want to use digital technology to make their life better
- Engagement and co-production with older people – involving and consulting with older people on the development, delivery, management and evaluation of services and projects which affect them.
- Inequalities – recognising the barriers faced by older people who are, or are at risk of, being vulnerable or disadvantaged, and putting interventions in place to remove or reduce these barriers. Including protected characteristics and the intersection with age e.g., age and gender.
- Climate change and the impact it can have on people as they age.

Officers from across the council and their partners contribute to a quarterly update to the Age Friendly Leeds Board on how their services are contributing to the action plan and addressing the cross-cutting themes. The update is presented in a newsletter format which is shared with the Age Friendly Leeds Partnership and on our Age Friendly Leeds webpage.

Key Performance Indicators

A framework to measure the impact of the action plan was developed with support from the Centre for Ageing Better. These measures have been incorporated into the Best Council Plan and reported on annually to the Corporate Leadership Team and Executive Board. These indicators are:

- Indices of Deprivation Affecting Older People
- Disability Free Life Expectancy by gender at birth and at 65
- Healthy Life Expectancy by gender at birth and at 65
- The number of new build properties built to accessible standards M4 (2) and M4 (3)
