Inner West Community Committee

Since 5th July 2023 the Inner West Community Committee Facebook page has gained: **88 new followers**, and now has a total of **1,836 followers**.

This means that this is the **2nd** most popular Community Committee page.

There are two things to note in general:

- 'reach' is the number of people the post was delivered to
- 'engagement' is the number of reactions, comments, or shares

Engagement tends to be a better way of gauging if people are interested and have read the posts because they wouldn't have interacted with it otherwise. For example, a post might reach 1,000 people but if they all scroll past and don't read it, the engagement is 0 and it hasn't been an effective way for the Community Committee to communicate.

Having said that, all posts can be read without any further interaction!

The most popular post since the 5th July is the post promoting the Armley Forum. It has been shared 7 times and has reached a total of 1,100 people.

The following below are screenshots of the most popular three posts since the 5th July 2023. Alongside this are the figures for how many people were 'reached' and how many people 'engaged' with the post.
