## **Inner West Community Committee - Finance Report**

---

### **Purpose of report**

1. This report provides the Community Committee with an update on the budget position for the Wellbeing Fund, Youth Activity Fund, Capital Budget, as well as the Community Infrastructure Levy Budget for 2023/24.

### **Main issues**

2. Each Community Committee has been allocated a wellbeing budget (revenue and capital) and Youth Activities Fund which it is responsible for administering. The aim of these budgets is to support the social, economic and environmental wellbeing of the area and provide a range of activities for children and young people, by using the funding to support projects that contribute towards the delivery of local priorities.
3. A group applying to the Wellbeing Fund must fulfil various eligibility criteria, including evidencing appropriate management arrangements and financial controls are in place; have relevant policies to comply with legislation and best practice e.g. safeguarding and equal opportunities and be unable to cover the costs of the project from other funds.
4. Wellbeing funding cannot be paid retrospectively. An application form must be submitted and approved by the Community Committee before activities or items being purchased through wellbeing funding are completed or purchased.
5. The amount of wellbeing funding provided to each committee is calculated using a formula agreed by Council, taking into consideration both population and deprivation of an area.
6. Capital (CRIS) injections are provided as a result of council assets being sold. 5% of the sale price (up to a maximum of £100k) of a council asset is pooled city-wide and redistributed to

the Community Committee areas on the basis of deprivation. The Community Committee will receive a new capital injection every 6 months.

7. Each Community Committee has also been allocated a Community Infrastructure Levy budget. For each CIL contribution, Leeds City Council retains up to 70-80% centrally, 5% is needed for administration and 15-25% goes to be spent locally. The money will be vested with the local Town or Parish Council if applicable, or with the local Community Committee and spend decided upon by that body. This local money is known as the 'Neighbourhood Fund' and should be spent on similar projects to the Wellbeing Fund (capital).
8. In the Inner West Community Committee this means that the money for the Armley, Bramley & Stanningley, Kirkstall wards will be administered by the Inner West Community Committee.
9. It was agreed at Inner West Community Committee on the 20<sup>th</sup> June 2018 that CIL monies for Armley, Bramley & Stanningley, Kirkstall would go where it is needed across the Inner West Community Committee area, to be decided by the elected members of the Inner West. Members will have mindfulness of the area where development is and local sensitivity around this.
10. Until the UK left the European Union, the EU's State Aid rules controlled how UK and discretionary EU funding was provided to enterprises and entities that engage in economic activities. Now the UK has left the EU, it is no longer bound by the State Aid rules and has developed its own domestic subsidy control regime, The Subsidy Control Act 2022. As the Subsidy Control Act 2022 has potential implications for the Community Committees as funding bodies, a 'subsidy control' assessment will be undertaken on all funding requests received by the Community Committees.
11. Projects eligible for funding by the Community Committee could be community events; environmental improvements; crime prevention initiatives, or opportunities for sport and healthy activities for all ages. In line with the Equality Act 2010, projects funded at public expense should provide services to citizens irrespective of their religion, gender, marital status, race, ethnic origin, age, sexual orientation or disability; the fund cannot be used to support an organisation's regular business running costs; it cannot fund projects promoting political or religious viewpoints to the exclusion of others; projects must represent good value for money and follow Leeds City Council Financial Regulations and the Council's Spending Money Wisely policy; applications should provide, where possible, three quotes for any works planned and demonstrate how the cost of the project is relative to the scale of beneficiaries; the fund cannot support projects which directly result in the business interests of any members of the organisation making a profit.
12. Any request for funding would involve discussions with appropriate ward members. Where projects do not have support from the Community Committee and are not approved, applicants are offered further discussions and feedback if this is requested.
13. In order to provide further assurance and transparency of all decisions made by the Community Committee, any projects that are not approved will be reported to a subsequent Community Committee meeting.
14. Sometimes urgent decisions may need to be made in between formal Community Committee meetings regarding the administration of wellbeing and youth activity budgets and also regarding the use of the Community Infrastructure Levy (CIL) Neighbourhood Fund which has been allocated to the Community Committee. Concurrently with the Committee, designated officers have delegated authority from the Director of Communities, Housing and Environment to take such decisions.

15. The Community Committee has previously approved the following 'minimum conditions' in order to reassure Members that all delegated decisions would be taken within an appropriate governance framework, with appropriate Member consultation and only when such conditions have been satisfied:
- a. consultation must be undertaken with all committee/relevant ward members prior to a delegated decision being taken;
  - b. a delegated decision must have support from a majority of the Community Committee elected members represented on the committee (or in the case of funds delegated by a Community Committee to individual wards, a majority of the ward councillors), and;
  - c. details of any decisions taken under such delegated authority will be reported to the next available Community Committee meeting for members' information.
16. Sometimes urgent decisions may need to be made in between formal Community Committee meetings regarding the administration of Wellbeing and Youth Activity budgets, and also regarding the use of the Community Infrastructure Levy (CIL) Neighbourhood Fund which has been allocated to the Committee. Concurrently with the Committee, designated officers have delegated authority from the Director of Communities, Housing and Environment to take such decisions.

The Community Committee has previously approved the following 'minimum conditions' in order to reassure Members that all delegated decisions would be taken within an appropriate governance framework, with appropriate Member consultation and only when such conditions have been satisfied:

- a) consultation must be undertaken with all committee/relevant ward members prior to a delegated decision being taken.
- b) a delegated decision must have support from a majority of the community committee elected members represented on the committee (or in the case of funds delegated by a community committee to individual wards, a majority of the ward councillors); and
- c) details of any decisions taken under such delegated authority will be reported to the next available community committee meeting for members' information.

For the committee's awareness, urgent delegated decisions on wellbeing funding also covers small grant decisions. In agreement with the Executive Board Member for Communities, Community Committee Chairs & also in accordance with the communication that was sent out to all committees/Elected Members in March 2023, the approval threshold for small grants has now increased from the 1st April 2023; up to £1,000.00 per ward. This approach will ensure consistency in terms of administering small grants, in accordance with the committees' minimum conditions.

17. As has been the case at the beginning of previous municipal years, the Committee is invited to review the conditions previously agreed and consider whether any amendments are required, prior to agreeing such conditions for operation in the forthcoming municipal year.
18. Members are reminded that the necessary scrutiny of applications to satisfy our own processes, financial regulations and audit requires the deadline for receipt of completed applications to be at least five weeks prior to any Community Committee. Some applications

will be approved via Delegated Decision Notice (DDN) following consultation with Members outside of the Community Committee meeting cycle.

## Wellbeing Budget Position 2023/24

19. The total revenue budget approved by Executive Board for 2023/24 was **£129,546.00**.

**Table 1** shows a carry forward figure of **£187,715.63** which includes underspends from projects completed in 2022/23. **£158,684.25** represents wellbeing allocated to projects in 2022/23 and not yet completed. The total revenue funding available to the Community Committee for 2023/24 is therefore **£317,261.63**. A full breakdown of the projects approved or ring-fenced is available on request.

20. It is possible that some of the projects may not use their allocated spend. This could be for several reasons, including the project no longer going ahead, the project not taking place within the dates specified in the funding agreement, or failure to submit monitoring reports. Due to this the final revenue balance may be greater than the amount specified in Table 1.

21. The Community Committee is asked to note that there is currently a remaining balance of **£18,794.70**. A full breakdown of the projects is listed in Table 1 and is available on request.

This program includes wider opportunities like our previously hosted city-wide showcase at Christmas. We also plan to ensure our young people take part in local community events this engagement with the community is vital. In 2023-24 the DAZL Bramley group who took part in 2 major performance events, showcasing their work and also took part in small local events have been embraced by the community in person and digitally. We feel it's important to provide these experiences for the children to allow carers to see the progression. Currently, we engage 50+ children in community activity from the ward. We would like to build further on this, encouraging families to sign up for constant activity throughout the year to promote consistency locally with an additional interest in the freestyle sessions. - **Armley Leisure Centre Youth Space - £7,945.00**

24. The following projects are presented for Members' consideration from 24/25 budget:

### **Declined Projects**

25. Since the last Community Committee on 21<sup>st</sup> November 2023, 0 projects have been declined.

### **Monitoring Information**

26. As part of their funding agreements, all projects which have had funding approved by the Community Committee are required to provide update reports on the progress of their project. These reports are so that the Community Committee can measure the impact the project has had on the community and the value for money achieved.

27. The committee had previously funded YMCA's project "Community Youth Worker" in which the funds were put towards the cost of venue and the cost of two community youth workers. The project aimed to; support activities that make people feel safer; support children and young people to be engaged, active and inspired; promote healthy lifestyles and tackle health inequalities; improve access and engagement in sport and cultural activities.

28. We have agreed to support activities that make people and place feel safer, we have done this by promoting a well-known community location as a safe space for local young people. We have improved young peoples knowledge of different topics, through issue based sessions such as healthy eating, smoking and vaping, drugs and alcohol and other topics. Young people in the area have also built closer relationships, making the area feel more

like a community to different individuals.

29. Another aim was to support children and young people to be engaged, active and inspired. We did this by giving young people the chance to learn new sports, with qualified practitioners, developing their skills around different sports, and possibly sports they haven't tried before, in a more flexible and pressure free environment.

30. We agreed to promote healthy lifestyles and tackle health inequalities, we did this with a programme that has helped support young people in the community to make good choices and minimise risk-taking behaviours by promoting sexual health, minimising the misuse of drugs, alcohol & tobacco and reducing crime & anti-social behaviour.
