Delete paragraphs 1 and 2 and replace with:

This council acknowledges that recycling levels in Leeds for too many years left our city ranked poorly compared with many other UK areas and that in the period 2011-2024 recycling levels went backwards. The council welcomes the roll out of glass collection that will boost recycling figures and will commit now to rolling out of city wide separate food waste collection and processing of food waste in a way that will give the most environmental and fiscal benefit to the city. The council also commits to reviewing working methodologies to ensure that delays and misses to collections that have increased in 2024 are minimised.

The amended White Paper will read:

This council acknowledges that recycling levels in Leeds for too many years left our city ranked poorly compared with many other UK areas and that in the period 2011-2024 recycling levels went backwards. The council welcomes the roll out of glass collection that will boost recycling figures and will commit now to rolling out of city wide separate food waste collection and processing of food waste in a way that will give the most environmental and fiscal benefit to the city. The council also commits to reviewing working methodologies to ensure that delays and misses to collections that have increased in 2024 are minimised.

With that in mind, Council therefore resolves to immediately form a cross-party working group to work with the service to bring about meaningful and sustainable change.

Council commits to working collegiately to ensure that the mechanisms that are currently in place to support improved service delivery are fully adhered to and adopted and to further ensure that the people of Leeds are obtaining the best possible service.
