Recommendations

3. That Housing Advisory Board:
 - Note the key findings of Tenant Scrutiny Board's Inquiry and recommendations.
 - Consider the changes made to the Annual Home Visit policy and procedures which have been made following the inquiry.

3 Purpose of this report

- 3.12 To present details of Tenant Scrutiny Board's Inquiry and their recommendations to the Annual Home Visit process.
- 3.13 To update the Housing Advisory Board on recent changes made to the Annual Home Visit policy and procedure, following the inquiry.

4 Background information

- 4.1 Annual Tenancy Visits were first introduced by the former ALMOs in 2008 following a recommendation from an Audit Commission inspection. Initially a big focus of the visit was to identify tenancy fraud. However, the process has evolved in recent years with a greater focus being put on the customer, in relation to identifying tenancy management issues and support needs that may affect tenancy sustainability.
- 4.2 Annual Tenancy Visits support a key Housing Management principle of getting to know our tenants, to deliver customer focused services which are tailored to an individual's need.
- 4.3 Tenant Scrutiny Board selected Annual Tenancy Visits as an area for investigation because:
- It was thought performance in this area would benefit from improvement; and
 - It was felt Annual Tenancy Visits are fundamental to tenants' experience of the Housing Management service.
- 4.4 The Inquiry involved a variety of methods of investigation, including a desktop review of relevant literature and a review of performance information, discussion and consultation with; tenants, Housing Officers, Housing Managers and benchmarking with other landlords including Wakefield District Housing. It is felt this approach adds validity to the Inquiry as the findings and resulting recommendations are based on empirical evidence and extensive consultation with stakeholders.
- 4.5 The level of commitment and scale of work undertaken by volunteer tenants on Tenant Scrutiny Board in this exercise has been considerable.

5 Main issues

Tenant Scrutiny Board have summarised the quality of the Annual Tenancy Visit process is determined by the consistency with which Housing Management are able to:

- Accurately record data
- Build on good tenant/landlord relations
- Communicate to tenants the purpose and benefits of the visit
- Ensure effective use of officer time, achieving a reduction in duplication of effort, increased service efficiencies and opportunities for savings

- Ensure data collected is correct and used to improve service outcomes for customers

- 5.1 The Tenant Scrutiny Board concluded that; the Annual Tenancy Visit process could deliver an improved service if their recommendations were implemented. The recommendations from Tenant Scrutiny Board which includes feedback form Housing Management can be found in Appendix 2.
- 5.2 On receipt of the Tenant Scrutiny Board Inquiry, Housing Management has reviewed its Annual Tenancy Visit policy and procedures and has incorporated many of the findings into the process. This updated process will be followed in completing visits for 2015/16.
- 5.3 The approved recommendations were implemented on Monday 20th April 2015.
- 5.4 Key changes made to the policy and procedure are as follows:
- The visits will be renamed 'Annual Home Visits', to reflect the change of focus towards being more tenant focused.
 - The main focus of the visits will now be on building good landlord / tenant relations – identifying tenancy management and sustainability issues which may need additional support.
 - Visits will be arranged by appointment, except where there is suspected tenancy fraud.
 - For sheltered tenants, Annual Home Visits will be combined with the Annual Support Review.
- 5.5 The only recommendation from the inquiry that was not incorporated into the updated policy was a recommendation that visits should be every 2 years for tenants identified as low risk. One of the principal ways of delivering a proactive tenancy management service is through the Annual Home Visit programme. The visit captures all of a tenant's issues and needs in one visit and assists Housing Management to deliver a holistic approach in tenancy management and customer service. Housing Leeds have therefore decided not to implement this recommendation at this time.
- 5.6 The review of the process in 2015 has allowed Housing Management to reflect on work undertaken and respond to customer and staff feedback. As a result, the majority of visits will now be by appointment, where appropriate. This enables Housing Management to promote positive and constructive relationships with tenants. It is recognised that early intervention and regular contact with tenants is key to achieving effective tenancy management. Where there are concerns or a suspicion of tenancy fraud, visits will continue to be unannounced.
- 5.7 As part of the process review, consideration was also given to the introduction of Universal Credit in Leeds during 2016. In preparation, additional questions have been added to the process in order to establish which tenants are likely to need support in making benefit claims.

5.8 Key objectives of the re-launched Annual Home Visit programme are to:

- Obtain up to date occupancy details and confirm identification
- Confirm emergency contact details
- Collect tenant profiling data, including preferred method of contact
- Identify tenant sustainability issues or support needs
- Discuss and arrange payment plan for outstanding arrears
- Identify potential subletting
- Identify abandoned properties
- Identify tenancy breaches
- Encourage tenant involvement
- Signpost tenants to full services of Housing Leeds and the Council
- Identify fire risks
- Arrange access for gas servicing

5.9 The visit consists of a thorough inspection of every room in the property and external conditions. This enables the Housing Officer to ensure that tenants comply with conditions of tenancy and where appropriate implement enforcement action to achieve resolution. Housing Management records the outcomes of Annual Home Visits and uses information to review and improve services for tenants. Housing Management have reviewed the process for inputting data and have been successful in removing duplicate inputting. This will reduce administrative work significantly for Housing Assistants, and has resulted in staffing efficiencies, which can be reinvested into front line customer service.

5.10 A key feature of the housing management function is partnership work with other agencies and stakeholders, including Adult Social Care and Children's Services. This supports Housing Management to achieve strategic objectives in delivery of joined up services, to increase the quality and range of support available, particularly to those who find sustaining a tenancy most difficult. It also supports Housing Management in delivery of the Safeguarding agenda.
