Project Summary:

This funding will be used to support the ongoing consultation and engagement of New Forest Village (NFV) residents regarding the improvement of the Plantation's green space.

In November, an initial '*Improving the New Forest Village Plantations*' survey was sent to over 500 households and shared online via social media and South Leeds Life. We received over 200 responses to the survey and have used this to inform a draft Plantations improvement plan.

This funding will be used to feed back the results of the initial survey and to share a draft improvement plan with local residents via post, providing them with a further opportunity to contribute to the plans.

Printing & postage to NFV resident and Ledbury's Melton's and Worcester's (1,434 households), printing £474.35 + postage £595.11 = TOTAL £1069.46
