Project Summary
Residents of 1-11 Whitfield Gardens contacted Housing Leeds & their local Ward Members to complain of youth related anti-social behaviour. In an effort to combat the problem the proposal is to replace the current 1 metre high wooden fencing with 1.8 m high metal bow top fencing, with an access gate for grass cutting. In addition, there is also a low brick wall to one side of the communal garden, so the plan is to install metal fencing on top of the wall (which will match the height of the 1.8 high fence). This would stop the youths climbing over the wall and causing ASB.
