

Chief Officer / Consultant in Public Health

Candidate information pack

WELCOME

Dear Candidate

Thank you for your interest in working in Leeds as Chief Officer/Consultant in Public Health. I would like to share with you some information regarding the role and our ambitions for Leeds.

Leeds is a large city with both an urban and rural landscape and with a great diversity of communities including some areas of significant deprivation. Almost a quarter (24.3%) of the Leeds population (approximately 200,000 people) live in areas ranked amongst the most deprived 10% nationally. There remains a health inequality gap in our city with approximately 12 years difference in life expectancy between those wards with the highest and lowest rates. Closing this gap is a key priority.

The Leeds Best City Ambition is for everyone to live healthy and fulfilling lives, both now and for future generations. We want Leeds to be the best city for all ages: a healthy, compassionate, climate resilient city with a strong economy, where people who are the poorest improve their health the fastest. In order to achieve our ambition for every single citizen in Leeds, we must address three interconnected themes that have an enormous impact on our lives: our health, our economy, and our environment. The aims of the three themes are guided by three key strategies for the city: the Leeds Health and Wellbeing Strategy, the Leeds Inclusive Growth Strategy and the Climate Emergency.

We want Leeds to be a city that is distinctive, sustainable, ambitious, fun and creative for all, with a council that its residents can be proud of: the best council in the country. We recognise that this vision would not be achievable without the dedication of everyone who works for Leeds City Council.

As one of the largest employers in the region, we employ approximately 14,000 people across a wide range of roles and services. We are very proud of the work we do every day to help deliver better outcomes for the people of Leeds and have a strong set of values that guide everything we do.

We are ambitious – for Leeds, for our citizens and for our employees. Our strong values of openness, honesty and trust run through everything we do. We work as a team for Leeds to meet challenges head on and deliver outstanding outcomes with compassion and commitment. Our employees talk about the pride they feel in making a difference, and in return for their dedication and contribution we offer a workplace where people feel supported, that celebrates difference, and encourages everyone to grow like the city we love. Our ambition is to make the Council the best place to work

We are an outward looking city with a long history of asset-based approaches and a vibrant Third Sector. There are positive partnerships with NHS colleagues at city and regional level. We have a strong commitment across the Council, NHS and with all our partners to improving health outcomes for our residents.

In joining us as a Chief Officer/Consultant in Public Health, you will have a leadership role spanning all three domains of public health - health improvement, health protection and healthcare public health. You will also be a key member of the collective leadership within the council and NHS, with the opportunity to shape our health and wellbeing strategy moving forward and with a key role in delivering our agreed vision and plans for transformation and integrated care.

Although there are significant challenges, our continuing strong focus on population health and wellbeing ensures we have robust plans in place to meet our objectives. We are therefore looking for a passionate and visionary Chief Officer/Consultant in Public Health who will be focused on delivering against statutory duties but also making a much broader leadership contribution to the local priorities. You will play a critical role in improving health outcomes for our communities and addressing health inequalities.

You will also have the opportunity to develop innovative approaches to directly impact on the long term health and sustainability of our communities in Leeds. We need a leader who has vision, energy, creativity, resilience and an absolute focus on improving the health and wellbeing of residents and communities. Thank you for taking the time to find out more about this opportunity to make a real and positive difference to the lives of the residents of Leeds.

Victoria Eaton
Director of Public Health

Caroline Baria
Director Adults and Health

Tom Riordan
Chief Executive

Chief Officer / Consultant in Public Health

£87,834 - £96,418

Our ambition is for Leeds to be the best city in the UK; one that is compassionate and caring, with a strong economy, tackling poverty and reducing inequalities. We want to be a healthy city for all ages, where people who are the poorest, improve their health the fastest. Leeds Public Health plays a major part in delivering this vision as part of the highly collaborative approach of 'Team Leeds', and we have the ideal partners and assets in Leeds to succeed.

We are seeking a Chief Officer/Consultant in Public Health to play a significant leadership role in our dynamic and collaborative public health team, and a key member of the city's public health leadership team. You will be responsible for programmes and services across all the public health functions, covering health improvement, health protection and healthcare public health. You will be a senior adviser and leader on health matters to elected members, officers and partners and be strategically responsible for over-arching public health objectives. This role combines broad strategic leadership across all the public health function, in addition to specific responsibility for a broad portfolio of public health programmes, with initial priorities around drugs, alcohol & safer communities, localities and primary care. This post will specifically provide essential Consultant in Public Health leadership for the Leeds Drugs and Alcohol Strategy and commissioned services, which includes responsibility for the additional drug and alcohol grant funding from the Office of Health Improvement and Disparities (OHID). The portfolio will be flexible and subject to changing priorities, in addition to your overarching leadership role as Chief Officer/Consultant in Public Health.

You will be a strategic leader, driving improved health and wellbeing with Leeds communities, with a relentless focus on reducing health inequalities. In addition to working across all of Leeds City Council as a public health organisation, this role requires excellent relationships and joint working with NHS and public sector partners, community and private sector organisations and other key colleagues, including UK Health Security Agency and other partners within the public health system, as well as with the people of Leeds.

This demanding, varied and interesting role requires someone who is highly skilled and experienced across a broad range of public health leadership roles and has a strong track record of delivery, working in collaboration with others.

If you relish challenge and have the energy, enthusiasm and skills to deliver better outcomes and make a real impact, then we would like to hear from you. It is important that you are a registered GMC, GDC or UK PHR public health specialist with significant experience in all areas of public health practice.

To apply, please upload your CV and personal statement on the Leeds Jobs site ensuring your application reflects the requirements of the role as outlined in the job profile.

If you have any queries or would like an informal chat about the role please contact Victoria Eaton, Director of Public Health via email: Victoria.eaton@leeds.gov.uk or on: 0113 378 8653.

JOB PROFILE

Responsible for: Consultant role with portfolio covering elements of Health Improvement, Health Protection and Healthcare Public Health

Key Relationships: The post will be required to work across the Council including Elected Members, the Health and Wellbeing Board and Adults and Health Directorate Leadership Team. It will also have key relationships across NHS organisations including the Integrated Care Board and the Office for Health Improvement and Disparities.

Job Summary

The Chief Officer/Consultant in Public Health is a leader for improving the health and wellbeing of residents, reducing inequalities in health outcomes and protecting local communities from public health hazards (infectious diseases and environmental threats). The Consultant in Public Health is a Chief Officer of the authority and an adviser on health matters to elected members, officers and partners. The post will be responsible for a public health services which range from health improvement, health protection and healthcare public health. Day to day line management accountability will be to the Director of Public Health (DPH), although the Consultant in Public Health will work corporately across all functions of the Council to support the delivery of responsibilities.

The post holder will support the DPH and other colleagues to lead on improving the health and wellbeing; underpinned by the statutory duty placed on local government to take steps appropriate to improve the health of its residents. The post holder will have a portfolio of responsibilities and objectives of the local authority and the Health & Wellbeing Board and act as a change agent to enable delivery of improved population health outcomes and to reduce inequalities. The post holder will be expected to work across organisations, influence budgets held by partners across the city, as well as effectively lead and advocate for change. They will hold direct managerial responsibility for services and budgets (in their portfolio) which directly contribute to these objectives, but they will additionally have substantially greater responsibilities across the council and other partners.

Job purpose

Our vision is for Leeds to be the best city in the UK: one that is compassionate and caring with a strong economy, which tackles poverty and reduces health inequalities. We want Leeds to be a city that is distinctive, sustainable, ambitious, fun and creative for all, with a council that its residents can be proud of: the best council in the country. This role will drive improvements in the health and wellbeing of the citizens of Leeds, to reduce inequalities in health outcomes and work in collaboration with the Office for Health Improvement and Disparities to protect local communities from threats to their health.

This Chief Officer/Consultant in Public Health role will lead work reflecting the 3 main cross cutting strategies of Health and Wellbeing, Inclusive Growth and Climate Change.

The role will identify, drive and secure opportunities to improve and transform services, improve health outcomes and reduce health inequalities. These opportunities will be found across the services directly managed and across the Council and partner organisations. As part of a dynamic senior team and system, the portfolio of this Consultant in Public Health role may change over time, so adaptability and focus on delivery are critical features.

This post holder will play a significant part in providing senior public health advice and support to NHS partners, and will work closely with NHS colleagues in further developing effective and equitable population healthcare, and maximising the contribution of healthcare in reducing health inequality and improving health outcomes across Leeds.

Description of the LA and the Public Health Department

Leeds is the third largest city in the UK. The Council serves a population of 812,000 (ONS 2021) and has a workforce of around 14,000 people.

Local NHS organisations: NHS Leeds Integrated Care Board, Leeds Teaching Hospitals NHS Trust, Leeds and York Partnership NHS Foundation Trust, Leeds Community Healthcare NHS Trust, Office for Health Improvement and Disparities, NHS England and a range of third sector partners.

There are around 91 staff within the public health function. The post holder will be responsible for a section/s within this structure. Public health services include child and maternal health, health protection, mental health, sexual health, localities and primary care, workforce development, healthy living, health improvement, older people, long term conditions and cancer. The post holder will be responsible for line and team management and will adhere to Leeds City Council mandatory training requirements.

Key Responsibilities

In delivering responsibilities the post holder is expected to demonstrate expertise across the full range of relevant competencies as set out by the Faculty of Public Health (Appendix 1) and where required, take responsibility for resolving operational issues. In negotiation with the Director of Public Health, the post holder may be asked to take on responsibilities that are underpinned by any of the FPH competencies. Post holder will be expected to maintain both the general expertise as well as develop topic based expertise as required by the Director of Public Health and will be expected to deputise for the Director of Public Health as and when required.

The range of duties expected of the post holder include;

Taking responsibility for a range of public health issues and work across organisational and professional boundaries acting as a change agent managing complexity to deliver improvements in health and wellbeing; including responsibility for development, implementation and delivery of policies.

Providing briefings on the health and wellbeing needs of local communities to Councillors, Council Officers, Integrated Care Board, the 3rd sector, the public and partners. Where required to so, the post holder will provide verbal briefings to Councillors, colleagues and stakeholders in person which may be at short notice.

Take the lead in developing detailed inter-agency and interdisciplinary strategic plans and programmes based on needs assessments leading to service specifications. The post holder will be expected to contribute appropriately to the procurement process.

Providing expert public health support, advocacy and whole system leadership to ensure an evidence- based approach for commissioning and developing high quality equitable services, within and across a range of organisations including voluntary, public and private sector. This includes the health service component of the mandated core service. This will include expertise in evaluation and development of appropriate KPIs.

Utilising (and if appropriate developing) information and intelligence systems to underpin public health action across disciplines and organisations. This may include providing leadership for collation and interpretation of relevant data including production of the JSNA. Working with the DPH, this will include the integration of the appropriate elements of the public health, NHS and social care outcomes frameworks within the systems developed by the local authority as well as with relevant partner organisations.

Supporting the DPH in the development and implementation of robust strategies for improving the health and wellbeing of local communities including ensuring qualitative and/or quantitative measurements are in place to demonstrate improvements.

Providing the key local authority link to the research community, providing advice/support to colleagues and co-ordinating appropriate access to scientific information. The post holder will be expected to take part in relevant research networks and to influence research programmes of such networks so that the research needs of the local authority are taken into account.

Taking responsibility for the training obligations of the directorate, including becoming an Educational Supervisor. These duties will be agreed jointly with the relevant Head of the School of Public Health.

Provide public health advice and leadership to support and inform partners in the health aspects of communicable disease and non-infectious environmental hazards on behalf of Leeds City Council, using an evidence based approach; including support to the Director of Public Health to fulfil their responsibilities relating to Health Protection as outlined in the NHS Health Bill and Public Health Regulations.

Take on those responsibilities commensurate with a Consultant in Public Health, including management of staff and budgets as determined by the Director of Public Health; including effective working relationships with the Office for Health Improvement and Disparities and other local partners.

Underpinning much of these duties are public health tasks such as;

Developing prioritisation techniques and managing their application to policies, services and to help resolve issues such as the investment-disinvestment debate.

Effective communication of complex concepts, science and data and their implications for local communities, to a range of stakeholders with very different backgrounds; including undertaking health needs assessments as required to enable actions to be taken to improve the health of the local population.

Develop a constructive relationship with the media and the public, within the context of the Council Communications policy.

A capacity to apply the scientific body of knowledge on public health to the policies and services necessary to improve health and to formulate clear practical evidence-based recommendations. The understanding of human and organisational behavior and the application of this knowledge to the achievement of change.

Management arrangements and responsibilities

The post holder will be professionally accountable to the employing authority and managerially accountable to the employing authority via their line manager, the Director of Public Health. Professional appraisal will be required. This job plan will be reviewed as part of the annual job planning process.

The post holder:

Will manage staff from across the Public Health function including line management duties, recruitment, appraisals, PDP's and disciplinary and grievance responsibilities.

Will manage a budget portfolio as part of the overall Public Health budget and be an authorised signatory.

Will be expected to take part in on call arrangements for communicable disease control/health protection as appropriate depending on local arrangements.

Will be expected to deputise for the Director of Public Health as required.

Professional obligations;

These include:

Participate in the organisation's staff appraisal scheme and quality improvement programme, and ensure appraisal and development of any staff for which s/he is responsible.

Participate in ongoing organisational development/service improvement work for the public health function.

Contribute actively to the training programme for Specialty Registrars in Public Health and other public health education and professional development programmes as appropriate. In agreement with the DPH contribute as an appraiser to the professional appraisal system.

Undertake an annual professional appraisal including completion of a programme of CPD, in accordance with Faculty of Public Health requirements, or other recognised body, and undertake revalidation, audit or other measures required to remain on the GMC/GDC Specialist Register or the UK Public Health (Specialist) Register or other specialist register as appropriate. In agreement with the DPH, contribute to the wider the public health professional system.

Practice in accordance with all relevant sections of the General Medical Council's Good Medical Practice (if medically qualified) and the Faculty of Public Health's Good Public Health Practice and UKPHR requirements.

It is a duty of a health professional to foster scientific integrity, freedom of scientific publications, and freedom of debate on health matters, and public health professionals have a further responsibility to promote good governance and open government.

Public health practice must be carried out within the ethical framework of the health professions and the post holder will be expected to maintain effective, courageous, and responsible public health advocacy.

These professional obligations should be reflected in the job plan. The post-holder may also have external professional responsibilities, e.g. in respect of training or work for the Faculty of Public Health. Time allocation for these additional responsibilities will need to be agreed with the Director of Public Health.

Personal Qualities;

The post holder will deal with complex public health and wellbeing challenges in a multi-organisational environment with widely differing governance and finance system and organisational cultures. It is expected that the post holder will be able to cope with such circumstances as well as multiple and changing demands, and to meet tight deadlines.

A high level of intellectual rigor, political awareness and negotiation and motivation skills as well as flexibility and sensitivity are required.

The post holder will advise the Health and Wellbeing Board and other Strategic Groups and make recommendations regarding services, residents' care and wider determinants of health. A high level of tact, diplomacy and leadership is required including the ability work within the local political arena and at the same time maintain the ability to challenge and advocate for effective working and on specific issues in order to achieve public health outcomes.

The achievement of public health outcomes, through the successful pursuit of change to enable improved population health and a reduction in health inequality are the purpose of the job, and the measure against which performance will be assessed.

LCC Values

Leeds City Council values are at the heart of everything we do. They inform the way we design and deliver our services and the way we all work and behave. Leeds City Council expects all its employees and councillors to observe our core values and to understand our codes of conduct for ethical behaviour, correct use of the Digital Information Service (DIS) facilities and protection of sensitive information.

They reflect the current needs of the city. In a period of immense change and real challenge we must be both confident and decisive about what we do and how we do it. Observing our values can help us:

Working as a Team for Leeds Work in ways which are open, inclusive, responsive and accountable to develop and maintain good working relationships with internal and external customers, other stakeholders and partners to achieve excellent outcomes for the citizens of Leeds

Being Open, Honest & Trusted Ensure citizens and council members are provided with all relevant information to make decisions, learn from mistakes and seek to promote continuous improvement and best practice

Working with Communities Work effectively with the variety of partners to deliver services, communicate and involve stakeholders and the wider community in new developments to encourage ownership and commitment

Treating People Fairly Recognise that everyone has an equally important part to play within the Council and value the diverse and vibrant nature of the city and all its citizens

Spending Money Wisely Set high expectations of achievement across a range of strategic outcomes, actively seek out opportunities to improve delivery of services through partnership and feedback from service users

Appendix 1 FACULTY OF PUBLIC HEALTH COMPETENCIES (Based on the 2022 PH Specialty Training Curriculum)

Use of public health intelligence to survey and assess a population's health and wellbeing

To be able to synthesise data from multiple sources on the surveillance or assessment of a population's health and wellbeing and on the wider environment, so that the evidence can be communicated clearly and inform action planning to improve population health outcomes.

Assessing the evidence of effectiveness of interventions, programmes and services intended to improve the health or wellbeing of individuals or populations To be able to use a range of resources to generate and communicate appropriately evidenced and informed recommendations for improving population health across operational and strategic health and care settings.

Policy and strategy development and implementation

To be able to influence and contribute to the development of policy as well as lead the development and implementation of a strategy.

Strategic leadership and collaborative working for health

To use a range of effective strategic leadership, organisational and management skills, in a variety of complex public health situations and contexts, dealing effectively with uncertainty and the unexpected to achieve public health goals.

Health Improvement, Determinants of Health and Health Communications

To influence and act on the broad determinants, behaviours and environmental factors influencing health at a system, community and individual level to improve and promote the health of current and future generations. To be proactive in addressing health inequalities and prioritising the most vulnerable or disadvantaged groups in the population.

Health Protection

To identify, assess and communicate risks associated with hazards relevant to health protection, and to lead and co-ordinate the appropriate public health response. To understand how those risks associated with hazards relevant to health protection may be influenced by climate change and environmental degradation currently and in the future.

Health and Care Public Health

To be able to improve the efficiency, effectiveness, safety, reliability, responsiveness, sustainability and equity of health and care services through applying insights from multiple sources including formal research, health surveillance, needs analysis, service monitoring and evaluation.

Academic public health

To add an academic perspective to all public health work undertaken. Specifically to be able to critically appraise evidence to inform policy and practice, identify evidence gaps with strategies to address these gaps, undertake research activities of a standard that is publishable in peer-reviewed journals, and demonstrate competence in teaching and learning across all areas of public health practice.

Professional, personal and ethical development

To be able to shape, pursue actively and evaluate your own personal and professional development, using insight into your own behaviours and attitudes and their impact to modify behaviour and to practise within the framework of the GMC's Good Medical Practice (as used for appraisal and revalidation for consultants in public health) and the UKPHR's Code of Conduct.

Integration and application of competencies for consultant practice

To be able to demonstrate the consistent use of sound judgment to select from a range of advanced public health expertise and skills, and to use them effectively, working at senior organisational levels, to deliver improved population health in complex and unpredictable environments.

PERSON SPECIFICATION

IMPORTANT: This person specification contains changes introduced in amendments made to the NHS (Appointment of Consultants) Regulations for England, Scotland, Northern Ireland and Wales which came into force during 2005. Further amended in June 2015, and September 2018

Essential Requirements

Education/Qualifications

[The National Health Service \(Appointment of Consultants\) Regulations 1996 \(legislation.gov.uk\)](#)

In line with legislation, inclusion in the GMC Full and Specialist Register with a license to practice/GDC Specialist List or inclusion in the UK Public Health Register (UKPHR) for Public Health Specialists at the point of application.

If included in the GMC Specialist Register/GDC Specialist List in a specialty other than public health medicine/dental public health, candidates must have equivalent training and/or appropriate experience of public health practice

Public health **specialty registrar applicants** who are not yet on the GMC Specialist Register, UKPHR register or GDC Specialist List in dental public health **must provide verifiable signed documentary evidence that they are within 6 months** of gaining entry to a register at the date of interview

If an applicant is UK trained in Public Health, they must ALSO be a holder of a Certificate of Completion of Training (CCT), or be within six months of award of CCT by date of interview. If an applicant is non-UK trained, they will be required to show evidence of equivalence to the UK CCT *[see shortlisting notes below for additional guidance]*

Applicants must meet minimum CPD requirements (i.e. be up to date) in accordance with Faculty of Public Health requirements or other recognised body

MFPH by examination, by exemption or by assessment, or equivalent.

Personal qualities

Able to influence senior members including directors and CEOs.

Able to both lead teams and to able to contribute effectively in teams led by junior colleagues.

Commitment to work within a political system irrespective of personal political affiliations.

Experience

Delivery of successful change management programmes across organizational boundaries.

Experience of using complex information to explain public health issues to a range of audiences.

Skills

Strategic thinker with proven leadership skills and operational nous.

Able to demonstrate and motivate organisations to contribute to improving the public's health and wellbeing through mainstream activities and within resources.

Ability to lead and manage the response successfully in unplanned and unforeseen circumstances.

Analytical skills able to utilize both qualitative (including health economics) and quantitative information.

Ability to design, develop, interpret and implement strategies and policies.

Knowledge

In depth understanding of the health and care system and the relationships with both local national government.

In depth knowledge of methods of developing clinical quality assurance, quality improvement, evaluations and evidence based public health practice.

Strong and demonstrable understanding of interfaces between health, social care and key partners (dealing with wider determinants of health).

Understanding of the public sector duty and the inequality duty and their application to public health practice.

Desirable Requirements

Education/Qualifications

Masters in Public Health or equivalent.

Experience

Media experience demonstrating delivery of effective health behaviour or health promotion messages.

Shortlisting notes

1. Applicants in training grades

1.1 *Medical and dental applicants*

All medical/dental applicants must have Full and Specialist registration (with a license to practice) with the General Medical Council or General Dental Council (GMC/GDC) **or be eligible for registration within six months of interview.** Once a candidate is a holder of the Certificate of Completion of Training (CCT), registration with the relevant register is guaranteed.

Applicants that are UK trained must ALSO be a holder of a Certificate of Completion of Training (CCT) **or be within six months of award of CCT** by date of interview demonstrated by a letter from their Training Programme Director (TPD).

1.2 *Non-Medical Applicants in training programme*

All non-medical applicants must be registered with the UKPHR or be within six months of registration at the date of the interview. Applicants must provide proof (letter of confirmation from their TPD or the CCT) at interview.

2. Applicants in non-training grades

Applicants that are non-UK trained, will be required to show evidence of equivalence to the UK CCT.

Applicants from a medical background will be expected to have gained full specialist registration with the GMC through the Certificate of Eligibility for Specialist Registration (CESR) route.

Applicants from a background other than medicine are expected to have gained full specialist registration with the UKPHR at the point of application.

Employers are advised that individuals should not take up consultant in public health posts (including DPH posts) until such point as they have gained entry to the GMC Specialist Register/GDC Specialist List in dental public health/UK Public Health (Specialist) Register. Although applicants will be able to provide documentary evidence that an application is in progress, no guarantee can be made as to the outcome of an application to the GMC/GDC/UKPHR specialist registers. The exception to this is when the candidate holds the CCT.

The above guidance applies to applications for both general and defined specialist registration with the UKPHR. Individuals with defined specialist registration are eligible for consideration for shortlisting for, and appointment to, consultant posts including those at DPH level. In all appointments, employers will wish to ensure that an applicant's areas of competence meet those required in the person specification.

ABOUT LEEDS CITY COUNCIL

We are a politically led organisation, with a responsibility for providing local services and facilities. There are 99 elected councillors across the city to represent our citizens at a local level and help drive change for the better.

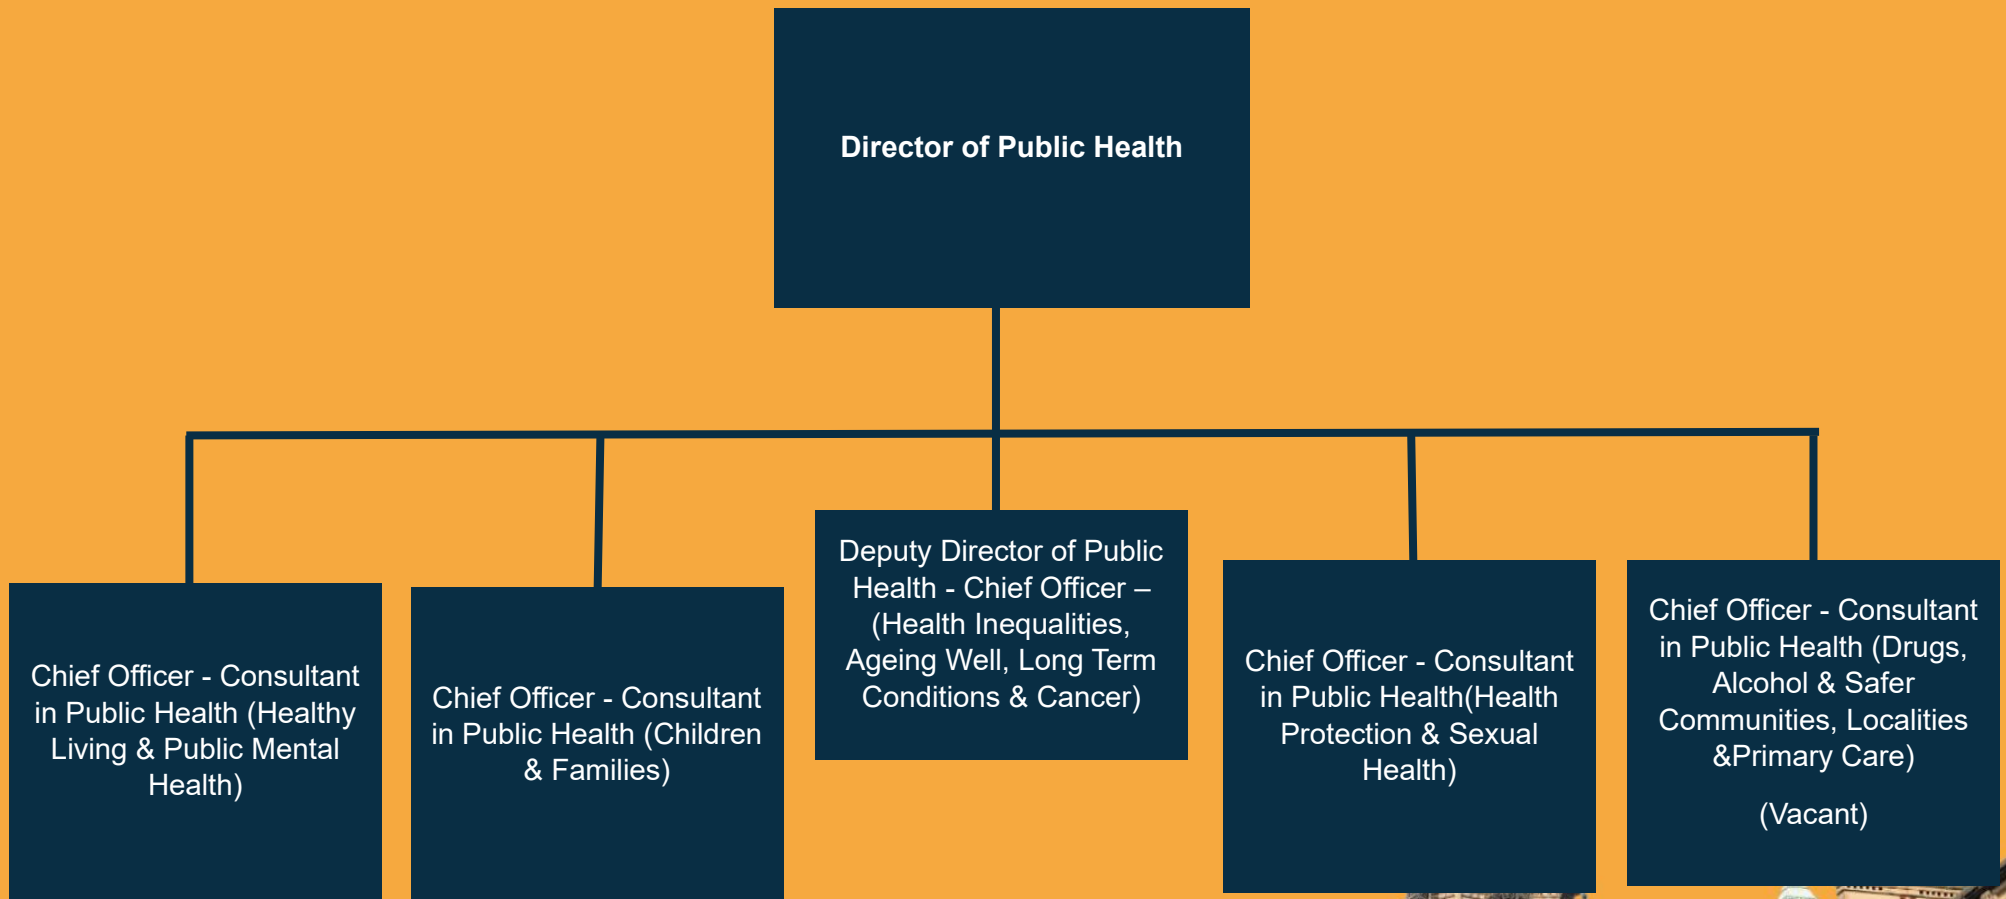

We are proud of the work we do every day to deliver for our city, from keeping our streets clean to delivering major cultural and sporting events, and much more.

Whilst the [Best City Ambition](#) outlines our vision to be the best city in the UK, how we progress our ambitions is as important as what the ambitions are.

Our employees talk about the pride they feel in the work they do and in making a difference. In return for their dedication and contribution we offer a workplace where people feel supported, that celebrates difference and encourages everyone to grow like the city we love.

As with all other local authorities, the council faces financial challenges and demographic pressures. However, we continue to maintain high levels of performance and are making progress to deliver our priorities.

LEEDS PUBLIC HEALTH LEADERSHIP TEAM

Leeds City Council Public Health

We want Leeds to be a healthy city for all ages and communities, where health inequalities are reduced, and all Leeds citizens have the opportunity to lead healthy lives.

Leeds City Council public health team works to protect & improve the health and wellbeing of all our communities. Some of our responsibilities are legally mandated, others reflect local health needs and priorities. We do this by providing a comprehensive range of public health measures across all areas of public health, working with a wide range of partners, including communities. Our work includes:

- Assessing the health of the population and evidence of what works to improve this.
- Commissioning, delivering, managing and influencing a wide range of public health services, programmes and interventions to improve health and reduce health inequalities.
- Measuring and evaluating performance and outcomes and sharing learning to inform future developments and decision making.

Our work goes beyond healthcare services to consider all factors influencing health and wellbeing. This includes the environments we are born into, live, learn, play, work, and grow old in.

Public Health was transferred to local government through the Health and Social Care Act 2012, which moved the responsibility and funding for an extensive range of public health services and functions from the NHS to councils in 2013. Some examples of these frontline public health services include drug and alcohol services, children's public health services, including health visiting and school nursing, sexual health services, infection prevention and control services, NHS Health Checks, community healthy living services, stop smoking and tobacco control, public mental health services including suicide prevention and bereavement support.

Public health is everyone's business. We work across the whole council and wider city to engage, support and strengthen the valuable contribution of many partners in creating positive conditions for health. The public health team is relatively small (currently around 80 people) and is led by registered public health professionals.

Public Health within Leeds City Council is led by the Director of Public Health, and each team is led by a Consultant in Public Health/Chief Officer, with a specific area of focus. These include:

- Deputy Director of Public Health and Chief Officer - Health Inequalities, Ageing Well, Long Term Conditions and Cancer
- Chief Officer/Consultant in Public Health - Healthy Living and Public Mental Health
- Chief Officer/Consultant in Public Health - Children and Families
- Chief Officer in Public Health - Health Protection and Sexual Health
- Chief Officer/Consultant in Public Health – Drugs, Alcohol & Safer Communities, Localities and Primary Care
